

## THE HISTORY OF Northeast High School

Northeast High School is a comprehensive high school for grades ninth through twelfth. The four-story structure was built in 1914 and deemed one of the great structures of its time. In 1988, the interior of the building was renovated and a new gymnasium, weight room and locker rooms were constructed on the south side of the building.

During one period of its history, Northeast was considered a magnet themed school—Law, Public Service, and Military (JROTC). Classroom spaces were constructed to support these themes such as a mock courtroom, judge’s chambers and jury room. The interior of the building was renovated in 2014.

**Northeast High School**

*Serving Ninth through Twelfth Grade*

## OUR VISION

In partnership with the community, parents, and staff, the mission of Northeast High School is to ensure that students excel academically and professionally, conduct themselves with moral integrity, and succeed as resilient global citizens.

## ABOUT VIKING NATION

Welcome to Viking Nation! We're home to one of the most diverse student population's in Kansas City and have over 50 languages spoken in our hallways. At Northeast, we celebrate and foster our diversity every day. We focus on preparing a well-rounded 21st century student by offering comprehensive academics, student services and extra circulars.

### Increase learning through 21st century lens

Preparing students for the modern world requires an increased focus on technology. Every student at Northeast High School receives their own personal Google Chrome book in order to enhance their technological literacies.

### College and career preparation

Preparing students for life after high school is our top priority. We make sure are students achieve their dreams with year round ACT prep, college advising appointments and much more.

### Proud to be a Viking: Alumni Support

The Northeast High School Alumni Association was started in 1988 by a group of former students who wanted to express their appreciation for the education they received. The Alumni Association uses the dues and contributions of the alumni, businesses, and the community to fund scholarships, contests, and various other projects that enrich the lives of the students.

**Serving students**  
9th thru 12th grade

**Bell Times:**

**KCPS Zone:**  
KCPS North

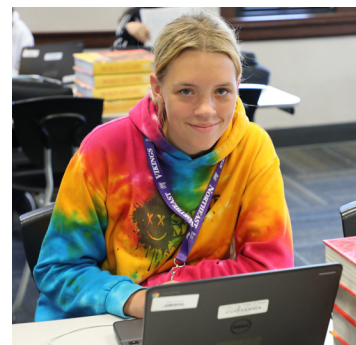

## VIKING LIFE

A well-rounded, 21st century student starts with a combination of focused academics and a variety of complementary student activities and organizations.

Northeast offers traditional high school courses, advanced placement and dual credit courses. Students have opportunities to visit colleges, universities, and other post-secondary institutions and to participate in job shadowing and internships related to their career interests. Off-campus career and technical education programs are available to students during their junior and senior years at the Manual Technical Career Center.

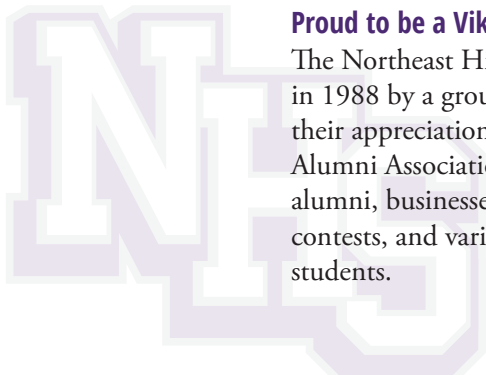

### OUR MISSION:

In partnership with community, parents and staff, the mission of Northeast High School is to ensure that students excel academically and professionally, conduct themselves with moral integrity, and succeed as resilient global citizens.

- Wrestling

### Spring:

- Girl's Soccer
- Track
- Baseball
- Softball
- Swim Team

## PROGRAMS & SERVICES

Northeast High School offers a wide variety of Kansas City Public School District services and community partner programs to better educate our students.

### Mentoring and character development

In partnership with My Brother's Keeper, Northeast provides every freshman student with an in-building or community mentor to help guide them through their first year. With their mentors, students will learn and develop important life skills and academic habits.

### Early College Academy

The Early College Academy (ECA) is a partnership between KCPS and MCC-Penn Valley. Qualified and highly motivated high school juniors and seniors attend college classes full time on the Penn Valley campus. Students graduate with both their high school diploma and associates degree. With the first two years paid for by KCPS, students can then finish their Bachelor's degree at minimal cost.

### Skills for life

Manual Career and Technical Center is a shared-time attendance center for KCPS high school students and charter school students. The students generally attend Manual during their junior and/or senior years. Manual offers 14 career and technical programs at six sites. From culinary arts to engineering, waste water management, medical sciences and more, students graduate career or college ready.

### Building leaders, preparing for success

Junior Reserved Officer Training Corps (JROTC) is instrumental in preparing high school students to become productive citizens and leaders in their personal and professional lives.

JROTC programs provide high school students with structure, self-confidence and a sense of purpose. The curriculum requires JROTC students to wear their full dress uniforms once a week and places strong emphasis on general hygiene and physical fitness.

### English Language Learners

At the secondary level, ELL students are placed in English I, II, III (beginning, intermediate, or advanced) or Intensive English, depending on their level of language proficiency. Students in these classes receive Communication Arts (reading, writing, language) instruction that follows the district core curriculum and English Language Proficiency Grade Level Expectations. The ESOL certified teachers in these classrooms provide adaptations to instruction, materials and assessment to match the students' language levels.

### New Americans Program

The goal of the New Americans class is to help newcomers adapt to the new school environment, start the process of becoming literate in English and learn enough English and content to be able to move onto the next level of classroom instruction. In Elementary schools, the newcomer will move up into a mainstream classroom and receive support from another ELL teacher using the pull-out and/or co-teaching method. In High school the newcomer will move up to ESL I (Sheltered English), and be introduced to Math, Science and Social Studies through sheltered classroom instruction.
