Immunization Requirements Guide

As of January 1, 2016 California State Law requires all children in a school setting to be immunized.

- The Adult School office will be checking immunizations via CAIR (California Immunization Registry.) If your child’s immunizations fulfill the requirements, you will not be contacted.
- If immunizations are incomplete, or not listed in CAIR, our office will contact you. Parents are responsible to provide proof of immunizations, and/or an “immunization plan” from their child’s pediatrician. Please fax or email this to our office.
- Personal Beliefs Exemptions are no longer accepted by the state of California.

Please refer to this guide for school immunization requirements:

**GUIDE TO IMMUNIZATIONS
 REQUIRED FOR PRESCHOOL** 

Vaccine	18 Months–5 Years
Polio (OPV or IPV)	3 doses
Diphtheria, Tetanus, and Pertussis (DTaP or DTP)	4 doses
Measles, Mumps, and Rubella (MMR)	1 dose on or after the 1st birthday
Hib	1 dose on or after the 1st birthday (only required for children less than 4 years, 6 months)
Hepatitis B (Hep B or HBV)	3 doses
Varicella (chickenpox, VAR or VZV)	1 dose

We hope this guide is helpful. Please know that we cannot register a child who is not up to date with their immunizations, does not have a signed immunization plan from their pediatrician, or does not have a medical exemption that meets the current requirements. *(Medical exemptions can only be issued through the California Immunization Registry Medical Exemption website, CAIR-ME, by physician’s licensed in California.)*
