- Districts are reimbursed by the state for the expenses associated with educating special education students with a cost above 4.5x the per pupil expenditure (\$22,648)*. For us, that cost is \$101,916*. If a student's educational costs **do not** reach that threshold, the district pays the full amount.
- The state covers the amount **over** \$101,916 but only funds 65-75% of those costs because Excess Cost is not fully funded at the state level.
- The actual amount the state set aside for Excess Cost for the 2022-2023 school year is unknown and unpredictable.
