

Class of 2018 Adjusted Cohort Graduation Rate and Outcome Data: Graduates, Completers, and Dropouts Report for San Diego County

The California Department of Education released graduation cohort outcome data for the class of 2018 on November 19, 2018. Beginning with the class of 2017, the state began using a new methodology for calculating the four-year adjusted cohort graduation rate (ACGR) that tracks cohorts of 9th grade students to determine how many graduate within four academic years. Previously, students who transferred to adult education were removed from the four-year cohort, and students who earned an adult education diploma and students who passed the California High School Proficiency Exam (CHSPE) were considered regular high school graduates. Beginning with the class of 2017, students who transfer to adult education remain in the four-year cohort rate but are not counted as graduates if they receive an adult education diploma, and students who pass the CHSPE are not counted as regular high school graduates. The new rules and methodology for calculating the ACGR are significantly different from prior years and the CDE strongly discourages comparison of the 2016-17 ACGR with cohort graduation rates from prior years.

The data in this report represent students who entered 9th grade in the fall of the 2014-15 school year and were scheduled to graduate by the end of the 2017-18 school year. This report provides cohort graduation rates and outcome data for San Diego County as a whole and for high school and unified school districts in the county. The cohort outcome reports provide information about all the students in the class of 2017 cohort and their four-year outcomes including: graduates, California High School Proficiency Exam (CHSPE) completers, adult education high school diploma recipients, special education completers, GED completers, other transfers, cohort students still enrolled, and dropouts. This graduation report contains information regarding students who graduated with a regular high school diploma and any additional authorizations and certifications (See End Notes on pages 48-50.)

KEY FINDINGS: COUNTYWIDE RESULTS (See tables 1 through 4)

Cohort Graduation Rate:

- More than eight out of 10 students in the class of 2017-18 graduated on time with a regular high school diploma in San Diego County.
- Nearly nine out of 10 females graduated on time, compared just over eight out of 10 males in the San Diego County cohort.
- Among the major racial/ethnic groups represented in the county, nine in 10 Filipino, Asian, white, students graduated in four years, compared to eight in 10 African American and Hispanic or Latino students.
- Eight out of 10 socioeconomically disadvantaged students, seven out of 10 migrant students and English learners, six out of 10 special education students, and five out of 10 foster youth graduated on time.

Students Still Enrolled:

- Foster youth, English learners, migrant, and special education students were most likely to be still enrolled in high school beyond four years. Nearly two out of 10 foster youth are continuing their high school studies for another year.

- Across the racial/ethnic groups in the county, African American (7.7 percent) and Hispanic (7.8 percent) students were most likely to remain enrolled in high school after four years.

Other Completers:

- Less than one percent of the cohort completed high school via a GED certificate, and one percent received a special education completion certificate.

Dropouts:

- Countywide, 7.8 percent of students dropped out over the four years, with males more likely to drop out than girls (9.3 percent compared to 6.2 percent).
- Among the major racial/ethnic groups, Filipino (2.6 percent) and Asian (2.6 percent) students had the lowest dropout rates while American Indian (12.1 percent), African American (11.1 percent), and Hispanic (9.8 percent) students had the highest dropout rates.
- Just over 14 percent of English learners dropped out before graduating, as did about 12 percent of special education students, 13 percent of migrant students, nearly 11 percent of socioeconomically disadvantaged students, and 29 percent of foster youth.

Graduates Meeting UC/CSU Requirements

- Just under six out of 10 students who graduated with a regular high school diploma also met UC/CSU requirements.
- The countywide rate for students meeting UC/CSU requirements exceeded the state by 8.1 percent (58 percent compared to 49.9 percent).
- Countywide, more female students met UC/CSU requirements than their male peers (65.3 percent compared to 54.2 percent).

Graduates Earning a Seal of Biliteracy

- Just over 11 percent of students countywide earned a Seal of Biliteracy upon graduation by demonstrating a high level of proficiency in one or more languages.

Graduates Earning a Golden State Seal Merit Diploma

- Nearly 3 out of 10 students in the county earned a Golden State Seal Merit Diploma by having completed all requirements for a high school diploma, and demonstrating mastery of the curriculum in at least six subject matter areas, four of which are mathematics, English language arts, science, and United States history, with the remaining two subject matter areas selected by the student.
- The countywide rate for students earning a Golden State Merit Diploma exceeded the statewide rate by nearly 6 percent (28.2 percent compared to 22.3 percent).

¹ **Regular High School Diploma Graduates:** Those cohort students who receive the standard high school diploma awarded to the preponderance of students in a State that is fully aligned with the State’s standards and does not include a general equivalency diploma, certificate of completion, certificate of attendance, or any other similar or lesser credential, such as a diploma based on meeting Individualized Education Program (IEP) goals. The term “regular high school diploma” also includes any “higher diploma” that is awarded to students who complete requirements above and beyond what is required for a regular high school diploma.

² **California High School Proficiency Exam (CHSPE) Completers:** Those cohort students who withdrew from a regular high school without receiving a regular high school diploma after passing the California High School Proficiency Exam.

- ³ **Adult Education High School Diploma Completers:** Those cohort students who withdrew from a regular high school without receiving a regular high school diploma to enroll in an adult education program and the district/school has acceptable documentation that the student received an adult basic education high school diploma through an adult basic education program.
- ⁴ **Special Education Certificate of Completion:** Those cohort students with exceptional needs who received a certificate or document of educational achievement or completion.
- ⁵ **GED Completers:** Those cohort students who withdrew from a regular high school without receiving a regular high school diploma and the district has acceptable documentation that the student received a High School Equivalency Certificate by passing one or more of the following exams: the General Educational Development (GED) exam, the Test Assessing Secondary Completion (TASC) exam, or the High School Equivalency Test (HiSet).
- ⁶ **Other Transfers:** Those cohort students who withdrew from a regular high school without receiving a regular high school diploma or otherwise completing high school and transfer to an adult education program or to community college during the cohort period.
- ⁷ **Still Enrolled:** Those cohort students who did not graduate or complete high school by the end of the cohort outcome period who meet one of the following criteria:
- Are re-enrolled as a “fifth year senior” after the end of the cohort period and no later than mid-September of the subsequent academic year.
 - Graduated from or otherwise completed high school after the end of the cohort outcome period and no later than mid-September of the subsequent academic year.
- ⁸ **Dropouts:** Those cohort students who (1) do not graduate with a regular high school diploma, (2) do not otherwise complete high school, or (3) are not still enrolled as a “fifth year senior” are considered dropouts.

¹ **Cohort Graduation Rate:** The four-year adjusted cohort graduation rate (ACGR) is the number of students who graduate from high school in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class.

² **Graduates Meeting UC/CSU Requirements:** Those cohort graduates who a local educational agency determined met all the “a-g” requirements for admission to a University of California or California State University school.

³ **State Seal of Biliteracy:** Those cohort graduates who attained a high level of proficiency in one or more languages (including American Sign Language) in addition to English and earned the State Seal of Biliteracy.

⁴ **Golden State Seal Merit Diploma Indicator:** Those cohort graduates who earned the Golden State Seal Merit Diploma by having (a) completed of all requirements for a high school diploma, and (b) demonstrating mastery of the curriculum in at least six subject matter areas, four of which are mathematics, English language arts, science, and United States history, with the remaining two subject matter areas selected by the student.

KEY FINDINGS: SAN DIEGO COUNTY DISTRICT RESULTS (See tables 5 and 6 for district comparison.)

- Seven districts had four-year cohort graduation rates above the statewide goal of 90 percent: Carlsbad Unified, Coronado Unified, Poway Unified, San Dieguito Union High, San Marcos Unified, Valley Center-Pauma Unified, and Warner Unified.
- Ten San Diego County districts had a four-year cohort dropout rate below five percent: Carlsbad Unified, Julian Union High, Poway Unified, Ramona Unified, San Diego Unified, San Dieguito Union High, San Marcos Unified, Sweetwater Union High, Valley Center-Pauma Unified, and Vista Unified.
- The districts with the highest percentage of students continuing on with their high school studies beyond four years include Escondido Union High, Grossmont High, Sweetwater Union High and the San Diego County Office of Education.

END NOTES: COHORT OUTCOME DATA DEFINITIONS FOR THE CLASS OF 2018

Adult Education High School Diploma Completers: Those cohort students who withdrew from a regular high school without receiving a regular high school diploma to enroll in an adult education program and the district/school has acceptable documentation that the student received an adult basic education high school diploma through an adult basic education program.

Alternative Schools: Schools participating in the Dashboard Alternative School Status (DASS) Program, which replaces the Alternative School Accountability Model (ASAM) Program. DASS schools include the following school types identified in Education Code Section 52052(g):

- Continuation
- County or District Community Day
- Opportunity
- County Community
- Juvenile Court
- California Education Authority, Division of Juvenile Justice
- County-Run Special Education Schools

In addition, any district-operated special education schools that have at least 70 percent of the students enrolled in grades 3 through 8 and grade 11 participating in the California Alternate Assessments are automatically placed into DASS.

Other alternative schools that serve high-risk students may be eligible for DASS participation, subject to program application, if they meet specific criteria. These include: (1) alternative schools of choice and (2) charter schools that serve high-risk students.

More information about these types of schools can be found on the CDE Web site at <https://www.cde.ca.gov/ta/ac/eligibilitycriteria.asp>.

California High School Proficiency Exam (CHSPE) Completers: Those cohort students who withdrew from a regular high school without receiving a regular high school diploma after passing the California High School Proficiency Exam (Education Code Section 48412(2)).

Cohort Graduation Rate: The four-year adjusted cohort graduation rate (ACGR) is the number of students who graduate from high school in four years with a regular high school diploma divided by the number of students who form the adjusted cohort for the graduating class.

Cohort Outcome Period: For the calculation of the four-year ACGR, the period for determining cohort inclusion is July 1, Year1 through June 30, Year4; however, the period for determining cohort outcomes is July 1, Year1 through Aug. 8, Year4. This provides local education agencies (LEAs) with additional time to report summer graduates. All cohort graduation requirements, including the awarding of the diploma, must be completed by the end of the cohort outcome period (Aug. 15).

Cohort Students: The four-year cohort is based on the number of students who enter grade 9 for the first time adjusted by adding into the cohort any student who transfers in later during grade 9 or during the next three years and subtracting any student from the cohort who transfers out, emigrates to another country, transfers to a prison or juvenile facility, or dies during that same period.

Cohort Removals: Only a student who transfers out and enrolls in another high school or in an educational program (including a program in a prison or juvenile facility) from which the student is expected to receive a regular high school diploma, emigrates to another country, or dies may be removed from a high school's or LEA's cohort. A student may not be removed from the cohort for any other reason. Before removing a student from a cohort, a school or LEA must obtain official written confirmation that the student transferred out, emigrated, transferred to a prison or juvenile facility, or died.

Dropouts: Those cohort students who (1) do not graduate with a regular high school diploma, (2) do not otherwise complete high school, or (3) are not still enrolled as a "fifth year senior" are considered dropouts.

GED Completers: Those cohort students who withdrew from a regular high school without receiving a regular high school diploma and the district has acceptable documentation that the student received a High School Equivalency Certificate by passing one or more of the following exams: the General Educational Development (GED) exam, the Test Assessing Secondary Completion (TASC) exam, or the High School Equivalency Test (HiSet).

Golden State Seal Merit Diploma Indicator: Those cohort graduates who, in accordance with Education Code Section 51454, earned the Golden State Seal Merit Diploma by having (a) completed all requirements for a high school diploma, and (b) demonstrated mastery of the curriculum in at least six subject matter areas, four of which shall be mathematics, English language arts, science, and United States history, with the remaining two subject matter areas selected by the student.

Graduates Meeting UC/CSU Requirements: Those cohort graduates who a local educational agency determined met all the "a-g" requirements for admission to a University of California or California State University school.

High School: A secondary school that grants a regular high school diploma and includes, at least, grade 12 (Elementary and Secondary Education Act (ESEA) section 8101(28)).

High School Diploma Graduates: Those cohort students who receive the standard high school diploma awarded to the preponderance of students in a State that is fully aligned with the State's standards and does not include a general equivalency diploma, certificate of completion, certificate of attendance, or any other similar or lesser credential, such as a diploma based on meeting Individualized Education Program (IEP) goals. The term "regular high school diploma" also includes any "higher diploma" that is awarded to students who complete requirements above and beyond what is required for a regular high school diploma (ESEA section 8101[43]; 34 Code of Federal Regulations [C.F.R.] § 200.34[c][2]) OR as specified in California Education Code (EC) section 51225.1, a student in foster care, a student who is homeless, or a former juvenile court school student who transfers between schools any time after the completion of the pupil's second year of high school, completes all requirements specified in EC Section 51225.3.

Other Transfers: Those cohort students who withdrew from a regular high school without receiving a regular high school diploma or otherwise completing high school and transfer to an adult education program or to community college during the cohort period.

State Seal of Biliteracy: Those cohort graduates who, in accordance with Education Code Section 51460(a), attained a high level of proficiency in one or more languages (including American Sign Language) in addition to English and earned the State Seal of Biliteracy.

Special Education Certificate of Completion: Those cohort students with exceptional needs (having an individualized education program [IEP]) who received a certificate or document of educational achievement or completion for meeting the requirements of Education Code Section 56390.

Still Enrolled: Those cohort students who did not graduate or complete high school by the end of the cohort outcome period who meet one of the following criteria:

- Are re-enrolled as a “fifth year senior” after the end of the cohort period and no later than mid-September of the subsequent academic year.
- Graduated from or otherwise completed high school after the end of the cohort outcome period and no later than mid-September of the subsequent academic year.

Transfer: A transfer into a cohort occurs when a student enrolls in a high school after the beginning of the entering cohort’s first year in high school, beginning at grade 9 and up to and including in grade 12. A transfer out of a cohort occurs when a student leaves a high school and enrolls in another high school or in an educational program from which the student is expected to receive a regular high school diploma.

Class of 2018 Cohort Graduation data was publically released on November 15, 2018.
