

# GoMS School Vision

The vision of Gonzales Middle School is to foster proficient academic performance for all students so that they succeed in high school without remediation.

We commit to the following actions to ensure all students are provided with opportunities for success.

Every staff member fosters a culture of inclusion and equity where all members of the Gonzales Middle School community are loved, nurtured, valued, and expected to grow into the best version of themselves.

Every teacher will create a learning experience that requires student engagement, communication with others, and active learning at appropriate levels of rigor each day.

Every formative and summative assessment will reflect multiple levels of cognitive demand and be used daily to improve teaching and learning.
