

## Piano Concert

25th February 2022

ISSUE  
no. 18

It was wonderful to listen to pupil's performing at the annual piano concert before half term. There was an array of ages and abilities on show, with every boy performing confidently and with precision on the piano. I would like to personally thanks Mrs So for all her hard work preparing the boys. Mrs Minter

On Thursday Year 4 enjoyed an exciting trip to the Royal Institution accompanied by Mr Hare, Mrs Patel and Miss Merrell. After a quick safety briefing and quiz on the equipment scientists might use during experiments we all donned white coats and gloves and headed into the lab!

Our enthusiastic instructors taught us about acids, alkalis and the pH scale before showing the boys how they could use litmus paper to test different substances. We then used the materials we had tested, citric acid and baking soda, as well as individually chosen scents and colourings to create beautiful bath bombs!

After lunch we had a workshop about cosmetics and the boys melted beeswax and their choice of a moisturising oil to create lip balms.

Before heading back to school we had a look around the museum gallery where we got to see the actual laboratory in which Michael Faraday made his discoveries about how magnets can be used to generate electricity.

The boys had a super time and represented the school beautifully. Hopefully bath time will have an extra fizz this weekend!

Tower House School

# FOTH BOOK SALE

Thursday 3rd March
