February 2022

Groundhogs, love, community helpers, and the Olympics were our learning themes during this busy month!

In preparation for Groundhog Day, the children learned about the sun and shadows. They eagerly awaited the groundhog's weather prediction, and weren't at all disappointed when he called for six more weeks of winter. The teachers, on the other hand...

The children talked about St. Valentine, love for one another, and ways we can show this love. The 4's class made a colorful "kindness quilt." Valentine's Day was celebrated with hearts, balloons, and Valentine cards for classmates. Love was definitely in the air!

The children enjoyed creating their own veterinary hospital during Community Helpers week. They were "construction workers," building with cardboard bricks, as well as firemen, doctors, and hair stylists. They enjoyed drawing pictures of what they'd like to be when they grow up.

The Olympics in China were special, but the OLGC Preschool Olympics were spectacular! We started the week with the Olympic torch relay. The children made torches and ate Cheetos "torches" for snack. At our Opening Ceremony the children dressed in red, white and blue, and marched in carrying their handmade flags. Our games included Olympic hill rolling and balloon hockey. The children were awarded medals, which they made themselves, at our closing ceremonies.

## Olympics Week

Love, hearts and Valentines!

Under Construction!
