

Our Commitment to Global Citizenship through the lens of the IB Learner Profile

Knowledgeable

We ensure we inform ourselves to support our opinions and arguments before we engage in interactions and discussions with others. We recognise and understand the impact of inequality and discrimination.

Thinkers

We provide suitable time to analyse sensitive and complex issues leading to meaningful and ethical actions towards oneself, others and the environment.

Communicators

We express ourselves verbally and in writing, by showing understanding of our diverse audience and listening to others respectfully, avoiding prejudice.

Principled

We act with integrity and honesty, with a strong sense of fairness and justice, and with respect for the dignity and rights of others. We take responsibility for our actions and their consequences. (as per IB Learner Profile©)

Open-minded

We are open to knowing others as individuals and embrace the challenges and benefits of co-existence in this world. We value both our culture as well as that of others and seek to understand others' perspectives genuinely and respectfully, grounded in meaningful compassion.

Global CITIZENSHIP & ISB

Caring

Throughout our journey at ISB, we engage in ongoing, relevant and meaningful experiences and actions within and beyond our school, that enhance the lives of others and protect our environment.

Risk-takers

We take action and seek to engage in issues outside our comfort zone and confront them with dignity and respect, knowing when and how to set ourselves needed boundaries.

Balanced

We ensure a right balance between our respect and betterment of others and that of ourselves, because we believe we can only help and contribute if we are in the right place ourselves.

Reflective

We take time to review and learn from our experiences to ensure our dispositions and actions develop and improve, as a result of thoughtful and genuine reflection.

Inquirers

We demonstrate wonder and initiative to engage with issues of global significance to authentically understand ourselves, the world around us and peoples' feelings and needs.
