SIGNS OF ALLERGIES

Allergies can present in many different ways. Some common symptoms include:

- Stuffy nose/sneezing
- Itchy throat
- Skin rash
- Watery eyes
- Drowsiness

Severe allergies can cause your child to become covered in hives, become dizzy or have difficulty breathing. If you notice these signs in your child, call 911.

WHAT CAN YOU DO

- Have your child rinse their hands and face after playing outside.
- Keep indoor windows closed during high-pollen times.
- If you think that your child may need medications for their allergies, talk to their provider about treatment options.
- Let our school nurse and classroom teacher know. Our school nurse Heather DeGraw may be reached at hdegrow@bsd44.org or at 406.924.2027.
- If your child has a severe allergy (such as with peanuts), make sure that the school is aware and that we have their physician's order for an Epi-Pen.
- If your child has asthma, talk to their provider and the school nurse about their allergies. Allergies can make asthma worse.
