

Tippecanoe School Corporation
21 Elston Road
Lafayette, Indiana 47909-2899

October 15, 2018

Dear TSC Patron:

In 1986 Congress passed the Asbestos Hazard Emergency Response Act (AHERA). That law requires all schools, kindergarten through twelfth grade, to be inspected for asbestos-containing building materials.

Tippecanoe School Corporation has contracted with Astesco, Inc. to maintain our compliance with the AHERA regulations and to conduct our triennial inspections.

Our school corporation was recently inspected in accordance with the regulations by EPA-accredited inspectors. Based upon those findings, a Management Plan is on file for your review in the district office at 2241 Old Romney Road, Lafayette 47909. Individual building Management Plans can be found in each school's administrative office.

As per AHERA regulations this notice is to inform all parents, guardians, and school employees that the Management Plan is in place and being followed. This notification shall also serve the purpose to inform all of the above-mentioned people that the semi-annual surveillance has been completed. This notice shall also be to inform you that any response actions taken in the preceding year are in the Management Plan.

There were no changes at Dayton Elementary School during the past year.

If you have questions, or concerns about AHERA regulations please direct your questions to the Director of Buildings & Grounds at 765-474-2481.

Sincerely,

Steven Tobias
Director of Buildings & Grounds
