

OPPORTUNITY FOR HOUSTON KINDERGARTEN AND FIRST GRADE FAMILIES!!

Inspiring Minds • Building Community • Transforming Lives

A tuition-free summer experience to strengthen your child's academic skills and opportunities for the future

Horizons at SCH is part of a national network of 60+ Horizons summer programs offering free academic support and enrichment activities to students in Kindergarten-8th grade to help them realize their potential and avoid the learning loss that often happens over summer.

- Established in 1964, the Horizons program has a proven track record of preparing its students for success. Students gain 8-12 weeks on average in reading and math over the summer (compared to the 8-12 -week loss most children experience).
- The Horizons at SCH program has been created in partnership with the Henry H. Houston School and will support its students.
- 15 current Kindergarten students and 2 current 1st grade students will be accepted to participate in this summer's 6-week program held on the campus of SCH Academy in Chestnut Hill.
- Each subsequent summer, a new class of Kindergartners will join the program and current students will return, advancing to the next level, up through 8th grade.

Program Details:

- **2022 Summer Program Dates:**
Tuesday, July 5–Friday, August 12
- **Hours:** 8:15 am–3:15 pm weekdays
