

Booster Organizations

School support organizations (booster clubs, PTAs, PTOs) are an important part of the educational, athletic, and extracurricular programs in the School District and exist to support, encourage, and advance these programs. The Board of Education values the contributions of these organizations and wishes to encourage their operation for the benefit of students. To foster an understanding of the roles and functions of school support organizations and their relationship with the schools and to exercise appropriate fiduciary responsibility for the oversight of funds generated and expended by these organizations, the Board of Education authorizes the Superintendent or his or her designee to develop basic guidelines for the establishment and operation of school support organizations and the management of their funds.
