 Make cards for those you care about very much. Share their talents with you.

Be Proactive

Make a list of all the things you love to do in your free time. Hang it on your refrigerator. Over the next week, challenge yourself to not say, "I'm bored." Just go to your list and cross items off as you do them.

Sharpen Your Family Saw

We are being given the gift of time to spend with our families. Why don't you consider a family game night? Watch a family movie and see if you can find evidence of the 7 Habits. Create a family mission statement together.

Beginning with the End in Mind

Write a letter to yourself 20 years from now, what is it you want to be doing with/in your life? How will you get there?

Seeking to Understand

Take time to think of 5 – 10 questions to ask an elder. Call them or interview them live. Draw a picture illustrating what you learned from them.

Think Win-Win – Team up with your siblings or parents and do chores together. Enjoy spending time with them and talking. Try playing and singing your favorite songs while working.

Time to Synergize! – With family members, put your ideas together to build a fort. All kind of ways to use, reading, lunch picnic, talking, napping, playing games or with your toys. Working together can be so fun – take photos or make videos of your tent or fort creation!

Putting First Things First

– Take time to think about the day and prioritize your big rocks. What is one thing you want to accomplish at home and for your extended school work today? Does your family have a big rock to do today?
