## YOUNG SCHOLARS PROGRAM

### Fall 2022 Course Offerings

#### **Mondays, Wednesdays, and Fridays, 8:00 AM to 8:50 AM**

CPS 101: Introduction to Programming with Sr. Pat Lapczynski

*Computer Science 101:* Problem-solving methods; algorithm development; procedural and data abstraction; and program design, programming. Intended for students who plan to continue with other computer science courses.

ENG 248: American Literature II with Dr. Patrick Hamilton

*English 248:* This course is an introduction to American literature from 1865 to the present. This course will examine major literary periods (naturalism, modernism, and postmodernism), the historical and cultural contexts of those periods, and the intersections and cross-currents of literary movements, styles, and forms.

#### **Mondays, Wednesdays, and Fridays, 9:05 AM to 9:55 AM**

BIO 106: Intro to Environmental Science with Dr. Cosima Wiese

*Biology 106:* Environmental science will introduce students to the complexity of human interactions with the global environment. By conducting in-depth research on particular case studies, students will learn to analyze relevant scientific data pertaining to a particular case and examine the issues associated with that case from different perspectives, including scientific, social, political, and economic considerations.

PSY 123: Introduction to Psychology with Dr. Jeanne Grymko

*Psychology 123:* This course surveys the main areas, influences, and research of human behavior including neuropsychology, genetics and environmental influences, perception, learning, memory, personality, motivation, emotions, stress and health, psychological disorders and therapy, development and social judgments and interactions.

SOC 101: Comparative Sociology with Dr. Joanita Salla

*Sociology 101:* Provides a socio-cultural perspective that challenges students to think critically about diverse cultural groups. Sociological concepts such as culture, social structures, exchange systems, and family systems will be examined as they relate to different cultures throughout the world.

#### **Tuesdays and Thursdays, 8:00 AM to 9:15 AM**

HIS 103: US History to 1865 with Dr. Jennifer Black

*History 103:* A survey of significant political, economic, social, and intellectual themes in the development of the United States from Colonial times until 1865.

SMG 101: Introduction to Sport Management (Faculty TBA)

*Sport Management 101:* The course examines the discipline of sport management. Areas to be covered include: careers in the industry, growth trends in the industry, and an overview of the management of a variety of sport organizations including professional and intercollegiate athletics.
