Franklin Pierce School Board’s Operating Principles

Operating principles define the beliefs, values, and methods of working together. Successful organizations are the result of effective and dynamic leadership. To assure quality operations, leaders must agree on basic ways of working together. We, the Franklin Pierce Board and Superintendent, have discussed and agree to abide by these principles.

Communications, Cooperation, and Trust
- Support each other constructively and courteously
- Engage in discussions
- Be open-minded and adaptive to change
- Maintain confidentiality
- Focus discussions on issues, not personalities
- Uphold the integrity of every individual
- Involve those parties who will be affected by the decision and solution
- Strive to avoid any perception of a conflict of interest
- Communications between staff and the Board are encouraged
- Requests for information from the Superintendent which will take considerable time to prepare will come from the Board rather than an individual Board member

Effective Meetings
- Share ideas about new programs and directions with the Superintendent before making them public
- Read all materials and ask questions in advance
- Respect the majority and do not take unilateral action
- Board meetings will be for consideration, information, and actions
- Work sessions will be for discussions, deliberation, and direction
- Executive sessions will be held only when specific needs arise
- The President will communicate and enforce the audience participation protocol

Decision Making
- Clearly communicate decisions and their rationale
- Re-evaluate each major decision
- Move the question or table the question when discussion is repetitive
- The Superintendent will make recommendations on most matters before the Board
- Consider research, best practice, innovative and creative strategies, and public input in all decision making

Addressing Citizen or Staff Complaints
- Use proactive, clear, and transparent communication
- Be available to hear community concerns and encourage citizens to present their district issues, problems, or proposals to the appropriate person
- Direct all personnel complaints and criticisms to the Superintendent

Board Operations
- Attend training and networking opportunities
- The President will communicate regularly with the Superintendent and share pertinent information with the Board
- The President or designee will be the Board spokesperson
- Conduct an annual self-evaluation and promptly address specific issues that hinder Board effectiveness
- Set clear and concise goals for the Board and the Superintendent
- Emphasize planning, policy making, and public relations rather than becoming involved in the management of the schools

MEMORANDUM

TO: Board of Directors
FROM: Brandy Marshall, Director of Human Resources
DATE: March 8, 2022
SUBJECT: Out-of-Endorsement Assignments

BACKGROUND INFORMATION
WAC 181-82-105 states that a classroom teacher should be assigned to teach classes for which course codes match the teacher's endorsement. Our district is challenged to recruit and assign teachers to courses that match their endorsement(s). Consistent with WAC 181-82-110, the district requests school board approval to assign the following teachers to instruct a class other than in their area of endorsement:

Robert Joyner  Currently endorsed in ELA and History, he will teach courses that require an endorsement in Instrumental Music.

Chance Las Dulce  Currently endorsed in Social Studies, he will teach courses that require an endorsement in ELA.

Tuyen Nguyen  Currently endorsed in Mathematics, she will teach courses that require an endorsement in Science.

As required by law, the district will provide planning and study time for these teachers. During the 2021-2022 school year, these teachers will either earn the additional endorsement or be reassigned the following school year to teach courses that match their endorsement.

RECOMMENDATION
I move that the Board of Directors approve the assignment of Robert Joyner to teach Guitar at Franklin Pierce High School, Chance Las Dulce to teach English Language Arts at Washington High School, and Tuyen Nguyen to teach Math and Science at Keithley Middle School.

SUBJECT: Conditional Teaching Certificates

BACKGROUND INFORMATION
Franklin Pierce Schools has been actively pursuing teachers to fill positions in many of our education programs. Due to local, state, and nationwide teacher shortages, we have had difficulty securing highly qualified, state certified teachers for several positions. In these challenging situations, WAC 181-79A-231 allows school districts to seek conditional certificates for individuals with the skills to be effective teachers even though they do not hold the appropriate endorsement.

We have two teachers for whom we are seeking conditional certificates. These teachers demonstrate the content knowledge and skills necessary to effectively teach our students, but do not currently hold the appropriately endorsed teaching certificate. They will each receive the direct assistance of a mentor, a specific plan of assistance will be developed, and we will comply with all requirements associated with such certificates.

TO: Board of Directors
FROM: Brandy Marshall, Director of Human Resources
DATE: March 8, 2022
SUBJECT: 2021-2022 IUOE COVID-19 Memorandum of Understanding

BACKGROUND INFORMATION
The Franklin Pierce School District has agreed to the attached memorandum of understanding with the International Union of Operating Engineers Local 302 Franklin Pierce Custodians related to the continuing COVID-19 outbreak. This agreement clarifies overtime incentives, event coverage, custodial classroom/COVID support, and use of COVID-19 leave during the 2021-2022 school year.

RECOMMENDATION
I move that the Board of Directors approve the 2021-2022 Memorandum of Understanding between Franklin Pierce School District and International Union of Operating Engineers Local 302 Franklin Pierce Custodians.

ACTION REQUIRED
Memorandum of Understanding

Between Franklin Pierce School District

And

International Union of Operating Engineers Local 302 Franklin Pierce Custodians

Whereas COVID-19 continues to create a public health emergency which requires a high standard of cleaning and sanitation protocols, and which has led to staffing issues within the custodial unit. To address staffing concerns and maintain a high level of custodial service, the Parties agree to the following:

I. Overtime Incentive:

A. Custodians will be paid two (2) times the normal rate of pay for all overtime hours worked beyond the first four (4) hours worked in a week starting on Monday. This will include all overtime worked during weekend and Holiday events. Hours worked for this provision does not include 2-hour callouts as defined in Article V of the CBA.

B. Maintenance employees will be allowed to perform custodial work when no custodial coverage is available

II. Event Coverage:

A. If no custodial or maintenance employees are available to provide coverage for a weekend or Holiday event, the event will be cancelled.

B. Weekly coordination meetings shall be held on Friday afternoons with the following attendees: Executive Director of Support Services and the directors from Operations and Maintenance, Transportation and Athletics to determine available custodial or maintenance coverage for extracurricular activities and events, to consider preemptive cancellations, including SPYA events.

C. The Director of Support Services may work these events in lieu of cancellation.

III. Custodial Classroom/COVID Support:

A. Building Administrators and staff have been asked to provide the following support:
   • Providing Purell Surface Sanitizer in each classroom for easy teacher access when sanitizing desks, chairs, tables, countertops, etc. All chemical products shall be under staff control at all times, with the exception of the soapy water spray bottles used with students throughout the student day.
   • Ensuring classroom chairs are placed on top of desks after sanitization for faster vacuuming of classrooms.
   • Encourage teachers to help as much as possible in keeping classrooms custodial friendly.
· Having roll away trash cans in hallways near end of day for staff to easily dispose of classroom/office waste before custodial collection.
· Minimizing the amount of weekend and evening activities within our school sites.
· All District employees are responsible to ensure their work-spaces remain clean and ready for use.
· All staff shall receive updates on COVID 19 health, safety, and cleaning protocols including information on where to direct any questions when appropriate.

IV. **COVID-19 Leave:**

A. Positive TEST: Employees diagnosed with a positive COVID-19 test, or experiencing symptoms and seeking a medical diagnosis, may not work at a District site until medically cleared or until the end of the quarantine or isolation period recommended by public health authorities. Such employees who apply for and receive time loss from Worker’s Compensation due to presumed workplace exposure will receive paid COVID leave for the difference between time loss and their regular pay for up to ten (10) days.

B. Quarantine: Employees who are required to quarantine as a result of a workplace exposure (as determined by contact tracing in collaboration with Tacoma-Pierce County Health Department) but who do not contract COVID and therefore are not eligible for Worker’s Compensation, shall have access to paid COVID leave for the duration of their directed quarantine, not to exceed 10 total paid days per occurrence, not to be deducted from sick or personal leave. Employees will have access to such leave for each occurrence in which they are directed to quarantine, provided that the employee seeks COVID testing within the window advised by health officials and submits the results promptly to the District once received. When a determination is not possible by the TPCHD the employee may submit a District Declaration Form asserting that the exposure was in connection with their assignment and will be granted paid COVID Leave.

C. In the event that a custodian is ordered to quarantine/isolate by the District. The Director of Support Services, or designee, may request that the custodian complete duties from home, if the custodian is able/willing. The scope of work and hours would be documented and submitted to the Director of Support Services for verification. The intent of this work is to mitigate the impact of the absence on the site. Most custodial positions require an in-building presence and therefore may have a limited capacity or no capacity for work to be completed from home.

V. **Duration:**

This MOU shall remain in effect throughout the 2021-2022 school year. Section IV above will be applied retroactively to the start of the school year; all other sections are in
effect from the date signed below. All terms and conditions of the Collective Bargaining Agreement shall remain in full force and effect unless specifically modified by this MOU. If custodial staffing issues continue into the 2022-2023 school year, this MOU may be renewed by mutual agreement of the Parties:

SUBJECT: Resolution 22-R-03: Grant of Public Sanitary Sewer Easement

BACKGROUND INFORMATION
Pierce County Sewer Department is in the process of constructing a sewer interceptor line needed to provide for the anticipated 100-year utility requirements for the county. The next step in their planning is to acquire necessary easements and agreements to construct Phase 4 of the project. A segment of Phase 4 is planned to run through a portion of the Keithley Middle School and Washington High School properties.

District staff has reviewed the planned routing and depth of construction and finds that it does not unduly restrict anticipated development of the campuses since it aligns with existing utility easements or established vehicular access routes. The District's independent appraisal confirms the value of compensation being offered by the county for these permanent easements. Pierce County's offer to purchase the easement property and the independent appraisals of this land are included for your reference.

The easement documents have been revised based upon input from the District's attorney to safeguard the interests of school operations from construction and maintenance activities.

RECOMMENDATION
I move that the Board of Directors adopt Resolution 22-R-03: Grant of Public Sanitary Sewer Easement.

Mr. Heinrichs:

Pierce County Sewer Division is proceeding with the above-referenced county sewer project. As part of this project, certain property or property rights need to be acquired from you as identified on the enclosed easement exhibits. Pierce County offers to purchase said property for the amount stated below:

<table>
<thead>
<tr>
<th>Easement</th>
<th>Amount</th>
</tr>

<tbody>
<tr>
<td>Permanent Sewer 52,469 SF (m/l)</td>
<td>$105,686.00</td>

<tr>
<td>7 Year Temporary Construction 52,970 SF (m/l)</td>
<td>$47,800.00</td>
</tr>
<tr>
<td>Permanent Access 13,970 SF (m/l)</td>
<td>$8,864.00</td>
</tr>
</tbody>
</table>

**Total Amount**  
$162,350.00

Your property has been examined by a Washington State Certified Appraiser and qualified Review Appraiser who have carefully considered all the elements that contribute to the market value of your property. By law, they must disregard any general increase or decrease in value caused by the project itself.

If you employ professional services to evaluate this offer, the County will reimburse you up to $750 of your evaluation costs. Claims for reimbursement will be paid at the time of final settlement upon submission of an invoice or paid receipt.

Once Pierce County receives signed documents, the closing process begins. Closing can take up to several months depending on the complexity of the transaction and the number of encumbrances on the title, such as a mortgage. The date on which payment is made available to you is called the "date of closing." On that date, the County becomes the owner of the
easements purchased.

Please feel free to contact me directly at (253) 798-4113, or at seth.fisher@piercecountywa.gov, to discuss the offer further or address additional questions you may have. Reviewer’s inspection and analysis: The subject is residential zoned land with a combined larger parcel size of 881,614 square feet developed with a public school. The three parcels developed together are properly considered as the larger parcel.

A narrative appraisal report is reviewed. I am qualified by education and experience to perform this appraisal review competently. I inspected the subject and the sales on 2/18/2022.

The appraisal problem is to estimate the fee simple acquisition easement rights.

Describe subject briefly: A public middle school improvement on a relatively large site. H&B use is as currently improved. Access is from the street frontages.

Describe acquisition: Partial acquisition of easement rights.

Discuss sales, including range of values and concurrence with appraiser: The appraiser used 7 comparable sales ranging from $20,852 to $50,000 per planned unit. After substantial adjustments for market conditions (time) the adjusted range is $30,333 to $65,750 per unit. Following qualitative adjustments, the appraiser concluded that sales L-1 and L-2 were the best indicators and concluded $32,000 per unit X 80 units, indicating “Before” land value of $2,560,000 from the Sales Comparison Approach. I concur with this value estimate. The Income Approach and Cost Approach were not developed, which is appropriate.
Describe Remainder briefly: The Remainder property is not reduced in size as the acquisition is limited to easement rights. The appraiser determined, through application of the Sales Comparison Approach to the Remainder, that there are no damages resulting from the acquisition. Field grass and asphalt in the area of acquisition is to be replaced as part of the project. The appraiser determined that there are no damages to the remainder property.

The Remainder property was valued based on the “Before” value of $2,560,000 less a 22,349 SF permanent easement at a value of $61,651, less a 10,225 SF access easement at a value of $7,423 and less a 22,370 SF temporary construction easement at a value of $20,725. The TCE was discounted for a period of 5 years. I concur with these value estimates.

Please note that the appraiser was asked by the client to provide “Alternative Temporary Construction Easement Scenarios” These are alternatives to the primary valuation which considers the temporary easement for 5 years. The two alternatives value the temporary easement for 7 and 10 year periods. I concur with the total 7 year acquisition value at $96,775 and the 10 year acquisition value at $106,174.

Allocation:

Acquisition:
  Partial; Acquisition: $ 89,800
  Damages: $ 0
  Special Benefits: $ 0
  Total Compensation: $ 89,800

The market data is adequate and appropriate. In general, the appraisal uses the correct methods and techniques. The market conclusions are reasonable and fit the evidence. The cost approach was not applied. This review is subject to the "SALIENT INFORMATION" and "ASSUMPTIONS AND LIMITING CONDITIONS" statements made by the appraiser.

SUBJECT: Policy 1815: Ethical Conduct for School Directors

To support school boards in articulating the core ethical standards, WSSDA has developed new Model Policy 1815: Ethical Conduct for School Directors. This new policy pairs with new Policy 1825: Addressing School Director Violations.

ETHICAL CONDUCT FOR SCHOOL DIRECTORS

Policy Statement

Each board director has taken an oath of office to support the Constitutions of the United States and Washington state. The Franklin Pierce School Board and each of its school directors is committed to upholding the oath of office and to ethical behavior.

Ethical behavior is an individual responsibility. Each school director and the board as a whole will base their conduct on these core ethical principles:

- **Objectivity** – School directors must place the public’s interest before any private interest or outside obligation – choices need to be made on the merits.

- **Selflessness** – School directors should not take actions or make decisions in the performance of their position in order to gain financial or other benefits for themselves, their family, or their friends.

- **Stewardship** – School directors should conserve public resources and funds against misuse and abuse.

- **Transparency** – School directors must practice open and accountable government. They should be as open as possible about their decisions and actions, while protecting truly confidential information.

- **Integrity** – School directors should not place themselves under any financial or other obligation to outside individuals or organizations that might inappropriately influence them in the performance of their official duties.

Failure to adhere to these core ethical principles or failure to comply with other policies adopted by the board or the law may result in the school board taking formal censure of the offending school director in accordance with FPS Board Policy 1825: Addressing School Board Director Violations.

TO: Board of Directors
FROM: Dr. Lance Goodpaster, Superintendent
DATE: March 8, 2022
SUBJECT: Policy 1822: Training and Professional Development for Board Members

BACKGROUND INFORMATION
WSSDA has revised Policy 1822: Training and Professional Development for Board Members to clarify the two types of required training for school board members, which include: Open Government training, and Cultural Competency, Equity, Diversity, and Inclusion training, as recently established in Senate Bill (SB) 5044 from the 2021 legislative session.

RECOMMENDATION

TRAINING AND PROFESSIONAL DEVELOPMENT FOR BOARD MEMBERS

In keeping with the need for continuing training and professional development to enhance effective board leadership and governance, the Board encourages the participation of its members at appropriate Board–board conferences, workshops, and conventions. Additionally, Board members will obtain the trainings required by Washington state. Funds for board leadership training and professional development participation at such meetings will be budgeted for on an annual basis.

Required Training for School Board Directors
There are two areas of training required by Washington state:

- Open Government training,
- Cultural Competency, Equity, Diversity, and Inclusion training

Open Government Training

School board directors must receive Open Government training no later than 90 days after they take their oath of office or assume their duties. They can take the training before they are sworn in or assume their duties of office. School board directors must also receive “refresher” training at intervals of no more than four years, so long as they remain on the school board. Open Government training is available from the Washington Attorney General’s Office (https://www.atg.wa.gov/opengovernmenttraining.aspx) and at the annual conference of the Washington State School Directors’ Association.

Cultural Competency, Equity, Diversity and Inclusion Training

Beginning with the 2022 calendar year, each member of a board of directors shall complete a governance training program once per term of elected office. If the director is appointed or elected to a first term of office, the director must complete governance training requirements within two years of appointment or certification of the election in which they were elected.

The governance training completed by directors must be aligned with the cultural competency, diversity, equity, and inclusion standards for school director governance developed and provided by the Washington State School Directors’ Association. Per Washington state law, the required training elements for both first and subsequent school director terms are defined by the Washington State School Directors’ Association.

Recommended Professional Development for School Directors

In addition to the required areas of training above, the Franklin Pierce School District is committed to ongoing professional development both for individual school board directors and the Board as whole. Each school board director is a member of the Washington State School Directors’ Association, which provides professional development and resources at its annual conference and through year-round leadership development services for individual school board directors and boards.

ADDRESSING SCHOOL DIRECTOR VIOLATIONS

Purpose
The Franklin Pierce School Board and each of its school directors are committed to faithful compliance with the law, provisions of the Board’s policies, and exercising good judgment.

Policy Statement
The Board recognizes that failure to deal with deliberate or continuing violations of the law, Board policies, or lapses in good judgment by its school board members risks the loss of community confidence and damages the Board’s ability to govern effectively. Therefore, in the event of a board member’s willful and/or continuing violation of law, policy, or judgment the Board will address the issue through the following process, which is intended to escalate only as necessary:

1. Conversation in a private setting between the offending school director and the board chair or another individual school director, identified by the Board;
2. Discussion in a properly convened executive session between the offending school director and the full Board;
3. Possible removal of the offending school director from any leadership or committee positions to which the offending school director has been appointed or elected to by the Board;
4. Censure of the offending school director by adopting a resolution in an open meeting as a means of separating the Board’s focus and intent from those of the offending school director.

TO: Board of Directors
FROM: Vicki Bates, Executive Director of Teaching and Learning Services
DATE: March 8, 2022
SUBJECT: Policy 2418: Waiver of High School Graduation Credits

BACKGROUND INFORMATION
Revised Board Policy 2418: Waiver of High School Graduation Credits reflects HB1295 (2021) rules that require school districts to add "In or have been released from an institutional education facility" as an allowable basis for graduation credit waiver.

RECOMMENDATION

ACTION REQUIRED

WAIVER OF HIGH SCHOOL GRADUATION CREDITS

The Board seeks to provide all students with the opportunity to complete graduation requirements without discrimination and without disparate impact on groups of students. In so doing, the Board acknowledges that circumstances may arise that prevent a student from earning all twenty-four credits required for high school graduation. Such circumstances may include, but are not limited to, the following:

- Homelessness;
- A health condition resulting in an inability to attend class;
- Limited English proficiency;
- Disability, regardless of whether the student has an individualized education program or a plan under Section 504 of the federal Rehabilitation Act of 1973;
- Denial of an opportunity to retake classes or enroll in remedial classes free of charge during the first four years of high school;
- Transfer during the last two years of high school from a school with different graduation requirements; and
- In or have been released from an institutional education facility; and
- Other circumstances (e.g., emergency, natural disaster, trauma, personal or family crisis) that directly compromised a student’s ability to learn.

The Board delegates to the superintendent or his/her designee discretion to grant a waiver of a maximum of two elective credits required for graduation. A student’s parent/guardian or an adult student must file the district’s Application for Waiver of High School Graduation Credits (Form 2418F) with the superintendent’s office no later than thirty days prior to the student’s scheduled graduation date. In order to graduate, students granted a waiver must earn seventeen required subject credits (four English, three Math, three Science, three Social Studies, two Health and Fitness, one Arts, one Career and Technical Education) which may be by satisfactory demonstration of competence as provided by WAC 180-51-050.

MEMORANDUM

TO: Board of Directors
FROM: James Hester, Deputy Superintendent of PK-12
DATE: March 8, 2022
SUBJECT: Procedure 3211P: Gender-Inclusive Schools

BACKGROUND INFORMATION
Although WSSDA first developed a transgender student model policy and procedure in 2013, this is not a static issue. SB 5689 (2019) required WSSDA and OSPI to collaborate and update WSSDA’s model policy and procedure regarding transgender students. You’ll notice several changes, but one that may stand out is the name change from “Transgender Students” to “Gender-Inclusive Schools.” The new name is more accurate and encompassing.

Many of the revisions add or revise key definitions and terms. Other revisions include consulting with students before making assumptions. Additionally, SB 5689 required some specific revisions, such as requiring districts to designate a district staff member as the primary contact for the policy and procedure. Starting in the 2020-2021 school year, SB 5689 requires that each district’s primary contact participates in at least one OSPI training. Additionally, the legislation requires that school districts share this policy and procedure with parents, students, volunteers, and school employees.

RECOMMENDATION
None.

ACTION REQUIRED
None. This is an information item only.
TRANSGENDER STUDENTS
GENDER-INCLUSIVE SCHOOLS

The principal or building administrator or an appropriate, designated school employee is encouraged to request a meeting with a transgender or gender-expansive student and their parent/guardian upon the student’s enrollment in the district or in response to a currently enrolled student’s change of gender expression or identity.

The goals of the meeting are to:

- Develop understanding of that student’s individual needs with respect to their gender expression or identity, including any accommodations that the student is requesting or that the district will provide according to Policy 3211, this procedure, and under state and federal law; and
- Develop a shared understanding of the student’s day-to-day routine within the school so as to foster a relationship and help alleviate any apprehensions the student may have with regard to their attendance at school.

The school may not require the student to attend a meeting as a condition of providing them with the protections to which they are entitled under Policy 3211, this procedure, and state and federal law regarding gender expression or identity.

**Key Definitions/Terms**

- **Assigned sex at birth**: The sex a person was given at birth, usually based on anatomy or chromosomes (e.g., male, female, intersex, etc.).

- **Cisgender**: A term used to describe people whose assigned sex matches their gender identity and/or gender expression (e.g., someone who was assigned female at birth and whose gender identity and/or gender expression is also female).

- **Gender Expansive**: A wider, more flexible range of gender identities or expressions than those typically associated with the binary gender system.

- **Gender Expression** is the manner: The external ways in which a person represents or expresses their gender to others, often the world, such as through their behavior, clothing, hairstyles, activities, voice, or emotions, mannerisms, dress, grooming habits, interests, and activities.

- **Gender Identity** is a: A person’s internal and deeply felt internal sense of being male or female, male, both, non-binary, gender-expansive, or other regardless of their sex the gender assigned at birth.

- **Gender Nonconforming** is a term for people whose gender expression differs from stereotypical expectations about how they should look or act based on the gender they were assigned at birth. This includes people who identify outside traditional gender categories or identify as both genders, or as gender neutral.
• **Biological Sex/Sex** refers to a person’s internal and external anatomy, chromosomes, and hormones.

### Communication and Use of Names and Pronouns

An appropriate school employee will privately ask a known transgender or gender-expansive student how they would like to be addressed in class, in correspondence to the home, and at conferences with the student's parent/guardian. That information will be included in the electronic student record system along with the student’s legal name in order to inform teachers and staff of the name and pronoun by which to address the student. However, the student’s legal name should be accessible by only necessary staff members—it should not be visible to teachers or other staff who have access to the electronic records system.

When appropriate or necessary, this information will be communicated directly with staff to facilitate the use of proper names and pronouns. A student is not required to change their official records or obtain a court-ordered name and/or gender change as a prerequisite to being addressed by the name and pronoun that corresponds to their gender identity.

When communicating with transgender or gender-expansive students regarding particular issues such as conduct, discipline, grades, attendance or health, school employees will focus on the conduct or particular issues rather than making assumptions regarding the student’s actual or perceived gender identity or gender expression.

School staff shall not intentionally disclose the student's transgender or gender-expansive status except as authorized by law.

### Official Records

The district standardized high school transcript is required to maintain a permanent student the only official record which includes the that requires a student’s legal name and. The district will change a student's official records to reflect a change in legal name upon receipt of:

1. Documentation that the student’s legal name or gender has been changed pursuant to a court order or through amendment of state or federally-issued identification; or

2. A written, signed statement explaining that the student has exercised a common-law name change and has changed their name for all intents and purposes and that the change has not been made for fraudulent reasons.

Schools may change a student’s official gender designation upon parent or student request pursuant to the Office of the Superintendent of Public Instruction’s (OSPI’s) process found at http://www.k12.wa.us/cedars/CEDARSDataFormQA.aspx; https://www.k12.wa.us/sites/default
To the extent that the district is not legally required to use a student’s legal name and biological sex on school records or documents, the district should use the name and gender by which the student identifies. In situations where school employees are required by law to use or report a student’s legal name or gender, such as for standardized testing, school staff should adopt practices to avoid the inadvertent disclosure of the student’s transgender or gender nonconforming status.

The school should use the name and gender by which the student identifies on all other records, including but not limited to school identification cards, classroom seating charts, athletic rosters, yearbook entries, diplomas, and directory information.

Confidential Health or Educational Information

Information about a student’s gender status, legal name, or gender-assigned sex at birth may constitute confidential medical or educational information. Disclosing this information to other students, their parents, or other third parties may violate privacy laws, such as the federal Family Education Rights and Privacy Act (FERPA) (20 U.S.C. §1232; 34 C.F.R. Part 99). Therefore, to ensure the safety and well-being of the student, school employees should not disclose a student’s transgender or gender nonconforming-expansive status to others, including the student’s parents and/or other school personnel, unless the school is: (1) legally required to do so; or (2) the student has authorized such disclosure. Nothing in this Procedure shall be interpreted to prohibit disclosure of such information in the case of emergency, or under another exception recognized by FERPA, or from complying with the district’s duty to disclose student records to parents as required by FERPA.

Communication and Use of Names and Pronouns

An appropriate school employee will privately ask known transgender or gender nonconforming students how they would like to be addressed in class, in correspondence to the home, and at conferences with the student’s parent/guardian. That information will be included in the electronic student record system, along with the student’s legal name, in order to inform teachers and staff of the name and pronoun by which to address the student. When appropriate or necessary, this information will be communicated directly with staff to facilitate the use of proper names and pronouns. A student is not required to change their official records or obtain a court-ordered name and/or gender change as a prerequisite to being addressed by the name and pronoun that corresponds to their gender identity.

When communicating with transgender or gender nonconforming students regarding particular issues such as conduct, discipline, grades, attendance or health, school employees will focus on the conduct or particular issues rather than making assumptions regarding the student’s actual or perceived gender identity. When communicating with parents of transgender or gender nonconforming students, school employees will refrain from the use of gender pronouns and refer to the student by name whenever practicable. The district will not condone the intentional and persistent refusal to respect a student’s gender identity, or inappropriate release of information regarding a student’s transgender status.
Restroom Accessibility

Students will be allowed to use the restroom that is consistent with their gender expression or identity—consistently asserted at school. Any student—transgender or not—who has a need or desire for increased privacy, regardless of the underlying reason, will be provided access to an alternative restroom. No student will be required to use an alternative restroom because they are of their transgender or gender-expansive status.

Locker Room Accessibility

Use of locker rooms by transgender or gender nonconforming-expansive students will be assessed on a case-by-case basis, with the goal of maximizing transgender or gender nonconforming-expansive student social integration, providing an equal opportunity to participate in physical education classes and athletic opportunities, and ensuring the student’s safety. The district will take an approach that conforms with OSPI’s guidelines. In most cases, the district should provide the student access to the locker room that corresponds to the gender identity they assert at school. Any student—transgender or not—who has a need or desire for increased privacy, regardless of the underlying reason, will be provided a reasonable alternative changing area. Reasonable alternatives to locker room conditions include, but are not limited to:

- Use of a private area (e.g., nearby restroom stall with a door, an area separated by a curtain, an office in the locker room, or a nearby health office restroom); or
- A separate changing schedule (i.e., utilizing the locker room before or after the other students).

Any alternative to locker room conditions will be provided in a manner that allows the student to keep his or her transgender or gender nonconforming-expansive status private. No student, however, will be required to use a locker room that conflicts with his or her gender identity.

Sports and Physical Education Classes

The district will provide all students, including transgender and gender-expansive students, the opportunity to participate in physical education and athletic programs/opportunities in a manner that is consistent with their gender identity.

A student may seek review of his or her eligibility for participation in interscholastic athletics by working through the Gender Identity Participation procedure set forth by the Washington Interscholastic Activities Association (WIAA).

Dress Codes

The district will allow students to dress in a manner that is consistent with their gender identity and/or gender expression within the constraints of the dress codes adopted at their school site and within the constraints of the district guidelines for dress as they relate to health and safety issues (e.g., prohibitions on wearing gang-related apparel). School dress codes will be gender-
neutral and will not restrict a student’s clothing choices on the basis of gender. The district will take an approach that conforms with OSPI's guidelines.

Other School Activities

In any school activity or other circumstance involving separation by gender (i.e., class discussions, field trips, and overnight trips), students will be permitted to participate in accordance with the gender identity they assert at school. Teachers and other school employees will make every effort to separate students based on factors other than gender where practicable.

Training and Professional Development

The district will designate one person to be the primary contact regarding this policy and procedure relating to transgender or gender-expansive students. The primary contact must participate in at least one mandatory training opportunity offered by OSPI. When possible, the district will conduct staff training and ongoing professional development in an effort to build the skills of all staff members to prevent, identify, and respond to harassment and discrimination. The content of such professional development should include, but not be limited to:

- Terms and concepts related to gender identity, gender expression, and gender diversity in children and adolescents;
- Appropriate strategies for communicating with students and parents about issues related to gender identity and gender expression, while protecting student privacy;
- Strategies for preventing and intervening in incidents of harassment and discrimination, including bullying and cyber-bullying; and
- District and staff responsibilities under applicable laws and district policies regarding harassment, discrimination, and gender expression issues.

Discrimination and Harassment Complaints

Discrimination and harassment on the basis of sex, sexual orientation, gender identity, or gender identity or expression are prohibited within the district. It is the responsibility of each school, the district, and all staff to ensure that all students, including transgender and gender non-conforming-expansive students, have a safe school environment. The scope of this responsibility includes ensuring that any incident of discrimination or harassment is given immediate attention and/or reported to the person designated as the primary contact relating to transgender or gender-expansive students. The primary contact will communicate with the district’s Civil Rights Compliance Coordinator.

Complaints alleging discrimination or harassment based on a person’s actual or perceived gender identity or expression are to be taken seriously and handled in the same manner as other discrimination and/or harassment complaints. This includes investigating the incident and taking age and developmentally appropriate corrective action. Anyone may file a complaint alleging a violation of this policy using the complaint process outlined in the district’s Nondiscrimination Procedure 3210P.
The district will share this policy and procedure with students, parents/guardians, employees, and volunteers.
