Connections Preschool

Connections Preschool provides high-quality early learning experiences for 3- and 4-year-old children in District 196, facilitated by Minnesota licensed teachers and teaching assistants. We believe early childhood is a remarkable time of social, physical, emotional and cognitive development. Our goal is to support the development of children by nurturing their natural curiosity and eagerness to learn. Our *Connecting to Our World* for 4-year-olds and *Exploring Our World* for 3-year-olds curriculum consists of teacher-facilitated opportunities that allow children to explore the world around them. Children are encouraged to explore, notice, ask and answer questions, make discoveries and learn new concepts and skills through play-based social interactions with their friends and teachers. We understand parents/guardians are a child's first and most influential teachers and hope to partner with you to make this time of early learning a successful experience for you and your child.
