## Summer 2022 Calendar And Weekly Themes!

### **Color the Summer (June 6th - 10th)**

Summer Camp begins with an explosion of color and art! Campers will enjoy hands-on experiences with different art forms throughout the week and bring their works home to display!

### **Rockstars Week (June 13th - 17th)**

Tap into your inner rockstar in a week full of music, performance, and fun. All week campers will prepare for a returning event: the Lip-Sync battle. For those who are about to rock, we salute you.

### **Flavor Town (June 20th - 24th)**

It's time to have some fun in the kitchen with our campers! Kids will explore the art of cooking and how much exciting it can be to make something all on their own. Who doesn't love good food?

### **Stars and Stripes (June 27th - July 1st)**

Come celebrate the land of the free and the home of the brave in honor of Independence Day! Patriots are welcome to come wear the old Red, White, and Blue for another fun week of camp!

### **Outrageous Olympics (July 5th - 8th)**

A week of wacky competitions and team-pride is what Outrageous Olympics is all about. Each group will create their own "nation" and at the end of the week, we will celebrate the "Parade of Nations" once again. Who will win Gold this year?

### **Disney City (July 11th - 15th)**

We may not be in Florida or California, but come help us transform this week into a Disney-themed paradise! Disney songs, movies, characters, and (our own take) on some of the attractions are just some of what's in store!

### **Animal Kingdom (July 18th - 22nd)**

It's time to roar like a lion for a wild week celebrating all the creatures that God has made. While we probably won't see any actual lions here on campus, you might just see some other four-legged friends...

### **Splash Zone (July 25th - 29th)**

The heat will be beaten this week with all the water-activities we can muster! And at the end of the week, we will make a splash in the returning ultimate-slip-n-slide!

### **Mad Science (August 1st - 5th)**

A fan favorite way to end our summer is back! Lab coats and goggles abound in a week of STEM activities that are sure to excite every camper with fun experiments and activities!
