

Unit 1 Plants and Animals

Grade 1 Science

Unit Description:

Students will use tools and materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs.

Science Standards:

- 1-LS1-1** Use tools and materials to design a solution to a human problem by mimicking how plants and/or animals use their external parts to help them survive, grow, and meet their needs.

Enduring Understandings- Unit Anchor Phenomenon:

The necks of giraffes help them to survive.

Essential Questions- Reflective Summaries:

- Construct an explanation of how two different animals use their external parts to survive.
- Use tools and materials to design a solution to a human problem by mimicking how animals use their external parts survive, grow, and meet their needs.
