

## Career Technical Education (CTE) Cross-Site Courses

Career/technical training and work-based learning courses are offered at each high school campus in our district. These courses introduce students to "hands-on" problem solving, teamwork, and opportunities for learning technical skills in a number of career areas. The following CTE courses are offered on other district campuses and are available for consideration during course selection. Students must provide their own transportation to these classes. Contact your School Counselor with any questions.

CTE Industry Sector	Course ID	Course Title	CHS	FHS	HHS	LHS	MVHS
Arts, Media & Entertainment	4760 P	Multimedia Design ( <i>f</i> )			X		
	7635	Advanced Multimedia Design			X
