

TIPS FOR PARENTS ON MANAGING DIGITAL DISTRACTIONS AT HOME

Student iPads are provided for instructional purposes and should be used solely for student learning. Here are some tips and tricks for managing technology use while students are away from school. These tips can be utilized on personal devices as well as district provided iPads.

- **Adding parental controls can limit access to websites and mobile apps.** On the device locate **Settings>Screen Time** and follow the prompts to make changes.
- **Review website usage by checking the browser history.** Browser history can be cleared manually or will be automatically cleared after 30 days. Steps for reviewing browser history are included below:
 - **Safari>Bookmarks>Clock icon>History**
 - **Chrome>Open blank window>Locate 3 dots (...)>History**
- **Turn device off and store in secure location** once homework is completed.
