Community Meeting  
Interest in Innovative Programs

March 9, 2022

# Evergreen School District

*From strong roots grow bright futures*

## **How would you envision an innovative program or school for your child?**

- What theme/title for the district wide program or school?
- Describe the program or school features:

# Evergreen School District

*From strong roots grow bright futures*

## Idea Examples:

- **Dual Immersion School**

Children start in TK or Kinder learning in an additional language as well as English. Students develop increased competency for both languages while learning Language Arts, Mathematics, Science, Social Studies

- **STEM School (Science, Technology, Engineering, Mathematics)**

- An engineering focus school which is tied to Silicon Valley industries innovative, project-based learning

# Evergreen School District

*From strong roots grow bright futures*

## Idea Examples:

- **Back-to- Basics School (like Millikin Basics in Santa Clara)**

The primary emphasis of the Basics+ program is the mastery of basic academic skills and establishment of good study habits. Standards of performance, accountability, and behavior are maintained.

- **Digital Arts School**

All subjects themed around or developed through the digital arts. Core art concepts are developed early on and escalated complex skills maintained for subject area concepts and grade appropriate curriculum.

# Evergreen School District

*From strong roots grow bright futures*

## Idea Examples:

- **Community Partnership School**

California Community Schools Partnership Program, create an elementary school which is a partnership for healthy living related services and coordinating and providing health, mental health, and individual support services to students and families.

- **Coding Academy**

- An engineering focus school where all instruction is designed around problem solving, innovation, thought, leadership, and forward thinking.
