Physical activities and sports	<ul style="list-style-type: none"> <li><b>No restrictions</b> to the exercise of physical and sports activities (APS)</li> </ul>	<ul style="list-style-type: none"> <li>Physical and sporting activities authorized outdoors as well as indoors. Indoors, absence of contact sports and distancing adapted according to sports practice</li> </ul>	<ul style="list-style-type: none"> <li>Physical and sporting activities authorized outdoors as well as <b>indoors for low-intensity activities</b> compatible with wearing a mask and the rules of distancing</li> </ul>	<ul style="list-style-type: none"> <li>Physical and sporting activities authorized <b>only outdoors and in respect for a distance 2 meters</b></li> </ul>

**From March 14, the** protocol **applies in primary schools as well as in colleges and high schools.** Given the favorable evolution of the health situation, **the obligation to wear a mask indoors is also lifted for all staff as well as for middle and high school students.**

### Contact tracing protocol

#### In schools, after a confirmed case:

Continuation of learning in the presence and realization of a self-test on D+2.

#### In middle and high schools, after a confirmed case:

**Pupils under the age of 12 and pupils aged 12 and over with full vaccination**, identified at-risk contacts, continue with the lessons in person and carry out a self-test on D+2.

**Pupils aged 12 and over identified as at-risk contacts and not having a full vaccination** continue for 7 days with distance learning and carry out an antigen or PCR test at the end of the isolation.

#### For all contact cases (from CP):

Wearing a mask is strongly recommended for 7 days after the occurrence of the confirmed case.
