

Chromebook Procedures and Information for Students and Parents

The mission of the 1:1 program at Southeast Dubois is to create a collaborative learning environment for all learners. This environment will enable and support students and teachers to implement transformative uses of technology while enhancing students' engagement with content and promoting the development of self-directed and lifelong learners.

Students will transition from consumers of information to creative producers and owners of knowledge.

Southeast Dubois endeavors to prepare students for an ever-changing world that sees technological advancements happening at a rapid rate and is committed to preparing students for whatever path they choose after high school.

Southeast Dubois Co School Corp Grades K - 12 Responsible Use Guidelines

Southeast Dubois Co School Corp considers technology integral to our learning environment and believes that it will only continue to grow in importance. In this age, students denied access to modern technology resources would be as unable to function in the learning environment as students denied books or pencils. Therefore, given that a wide variety of digital electronic devices and Internet-based technologies are utilized at all grade levels across the curriculum in support of teaching, learning, and assessing traditional and technology standards, given that many traditional resources are now available online only, and given our requirement and obligation as a school district to teach technology standards and digital citizenship, the use of modern educational resources such as computers and the Internet is an acknowledged condition of enrollment at Southeast Dubois Co Corp.

The Southeast Dubois Co School Corp filters all internet traffic for the purpose of safeguarding staff and students from harmful content. The Southeast Dubois Co School Corp also provides supervision and education related to appropriate online behavior, including interacting with other individuals on social networking websites and in chat rooms, and

regarding cyberbullying awareness and response. However, it is still the responsibility of all computer users to make sure they comply with providing a safe and secure learning environment when using technology. The District encourages parents/guardians to supervise their child(ren) when using technologies from home.

CLEAR highlights the important points contained in Southeast Dubois Co School Corp Acceptable Use Policy.

CLEAR: Considerate, Legal & Ethical, Appropriate and Responsible

Considerate: People in our community reflect a diverse set of customs, values and points of view. Digital communication should be respectful, polite and considerate of others.

Legal & Ethical: Respect copyright laws by copying media including text, music and videos only with permission and by crediting and citing the source where the information was found. It is a good general practice to link to others' work rather than reproduce it. Respect the privacy of others, ask permission before taking photographs, video or audio recordings. Illegally copied or downloaded software, files, pictures, music or games may not be used on WPS computers.

Appropriate: School technology is used for educational purposes and only appropriate words and images may be used and viewed. If inappropriate material are viewed or received, it is the responsibility of the recipient to delete them.

Responsible: Ensure that care is taken with all hardware, software, shared resources (i.e. printers, scanners) and use of the school network, so as to prevent damage or misuse whether intentional or not; your actions should not inhibit the work of others. Personal information and passwords will be kept private.

If you see someone not being **CLEAR** report the abuse/misuse to a responsible adult.

Follow the school's code of conduct when writing online. It is acceptable to disagree with other's opinions; however, do it in a respectful way. Make sure that criticism is constructive and not hurtful. What is inappropriate in the classroom is inappropriate online.		
Be safe online. Never give out personal information, including, but not limited to, last names, phone numbers, addresses, exact birthdates, and pictures. Do not SHARE your password with anyone besides your teachers and parents.		
Linking to other websites to support your thoughts and ideas is recommended. However, be sure to read and review the entire website prior to linking to ensure that all information is appropriate for a school setting.		
Do your own work! Do not use other people's intellectual property without their permission. Be aware that it is a violation of copyright law to copy and paste other's thoughts. It is good practice to hyperlink to your sources.		
Be aware that pictures may also be protected under copyright laws. Verify that you have permission to use the image or that it is under Creative Commons attribution.		
How you represent yourself online is an extension of yourself. Do not misrepresent yourself by using someone else's identity.		
Online work should be well written. Follow writing conventions including proper grammar, capitalization, and punctuation. If you edit some else's work, be sure it is in the spirit of improving the writing.		
If you run across inappropriate material that makes you feel uncomfortable or is not respectful, tell your teacher right away.
