Agenda item to Review Feedback on Survey Results will be moved to the January meeting.

Publishing Results on Website. Need to make sure that the teachers receive the information before it is published on the website. Catherine expressed concerns that an article in the paper was published prior to the website. Susan mentioned that Steven is going to tackle getting the results to teachers within the next week and then publishing results on the website.

We need to address in the future any feedback, perception from parents, community, etc. as a committee and then share that feedback at SC meeting. Have it as a standing agenda item as culture feedback. Include a link on the website for feedback with the committee members e-mail addresses.

Date for Administering the Survey: no later than May, Catherine felt it should be earlier, right around MCAS, should set a definite timeline. Catherine suggested an attachment of a bulleted list of highlighting was has changed as a result of the survey over the course of the year. Target deadline: Late April but no later than the first week of May. Preamble that addresses outcomes of the previous year's survey results.
