December 14, 2020

The Members of the St. Tammany Parish School Board and the Citizens of St. Tammany Parish Covington, Louisiana

The comprehensive annual financial report of the St. Tammany Parish School Board (the School Board) for the fiscal year ended June 30, 2020, is hereby submitted. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the School Board. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in an objective manner to present the financial position and results of operations of the School Board. All disclosures necessary to enable the reader to gain an understanding of the School Board's financial activities have been included.

LaPorte CPAs and Business Advisors has issued an unmodified (clean) opinion on the St. Tammany Parish School Board's financial statements for the fiscal year ended June 30, 2020. The independent auditor's report is located at the front of the financial section of the report. Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

The School Board is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act, as amended, and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Information related to this single audit, and located in the Single Audit Section of this report, includes the schedule of expenditures of federal awards, schedule of findings and questioned costs, the report on internal control over financial reporting and on compliance and other matters based on an audit of financial statements performed in accordance with Government Auditing Standards, the report on compliance for each major federal program, the report on internal control over compliance, and the report on schedule of expenditures of federal awards required by the Uniform Guidance.

This report includes all funds and activities for which the School Board exercises financial accountability. The School Board is a legislative body authorized to govern the public education system of St. Tammany Parish, Louisiana (the Parish). A 15-member board governs the school system with each member serving a concurrent four-year term. The current board's term will expire in December 2022.

Learning to Last a Lifetime.

PROFILE OF SCHOOL BOARD

It is the responsibility of the School Board to make public education available to the residents of the Parish, including instructional personnel, instructional facilities, administrative support, business services, operation and maintenance, and bus transportation. The School Board provides a full range of public education services appropriate to grade levels ranging from pre-kindergarten through grade 12. These include regular and enriched academic education, special education for qualifying students, and career/technical education. The school system has a current enrollment of 37,213 as of October 1, 2020, which includes 1,256 pre-kindergarten students.

The School Board is authorized to establish public schools as it deems necessary, provide adequate school facilities for the children of the Parish, determine the number of teachers to be employed, and determine the local supplement to their salaries. School Board members are elected by the public and are a policy making body with primary responsibilities for the hiring of the Superintendent, approving the budget, and final accountability for financial matters. The School Board is not included within any other governmental reporting entity. See footnote 1A for more information.

It is the responsibility of the Superintendent and designated members of his staff to prepare the operating budgets for submission to the School Board. The budgets are prepared on forms in accordance with such rules and regulations prescribed by Louisiana Revised Statutes and the State Superintendent of Education. The budgets are submitted to the School Board for purposes of revision and approval prior to submission to the State Superintendent of Education. Budgets will not be approved where expenditures exceed the expected means of financing. The Superintendent may, at his discretion, make changes with the various budget classifications as he may deem necessary provided that any reallocation of funds affecting in excess of five percent of the projected revenue collections be approved in advance by the School Board.

ECONOMIC CONDITION AND OUTLOOK

St. Tammany Parish is one of the southeastern parishes (counties) of Louisiana and covers an area of 1,141 square miles. St. Tammany Parish is located directly north of New Orleans on the north shore of Lake Pontchartrain. The Parish's population and economic base continues to expand. The population of St. Tammany Parish is estimated at 262,693.

The economy of St. Tammany Parish is primarily residential, which has brought an influx of retail and service establishments, corporate headquarters, and shopping centers. Residents are employed in a variety of diverse industries ranging from agriculture to space-aged technology. St. Tammany Parish's transportation accessibility, low business costs, availability of talent, low crime rate, and first-rate medical facilities encourage continued growth.

St. Tammany Parish's largest industries include transportation (maritime, transportation equipment manufacturing, and warehousing/distribution), business and professional services (banking, finance, insurance, design), and scientific and technical services (tech/software development, research and development, and life sciences).

Using the latest economic data available as of June 30, 2020, the average unemployment rate (9.0%) remained lower than the average rate for the State of Louisiana (9.7%). The second quarter of 2020 saw St. Tammany's unemployment rate spike to unprecedented levels due to the COVID 19 pandemic. This rate is in line with regional, state, and national trends. As of December

2020, St. Tammany's unemployment rate had fallen to 4.1%. According to data from the Louisiana Secretary of State, 1,783 new business incorporations were filed in St. Tammany Parish during the first half of 2020. From month to month, new business filings in St. Tammany significantly increased during the months of May and June 2020. Following eight months of consecutive year-over-year sales tax growth in St. Tammany for FY 2019-2020, March and April 2020 saw sharp decreases in sales taxes compared to same months in FY 2018-2019 due to the COVID 19 pandemic shutdown. These two months were during the height of the pandemic shutdown when only essential businesses were permitted to be open. However, once the stay-at-home order expired on May 15, 2020, sales tax rose slightly during May and more sharply during the months that followed. For FY 2020-2021 to date, sales tax are up \$3.8 million over the same period in FY 2019-2020. The number of residential permits have increased 22% and the number of commercial building permits increased by 2%.

Student enrollment has increased by approximately 2,100 since 2009. However, due to the COVID 19 pandemic as of October 1, 2020, the School Board had a decrease in students of 1,561. For the months of November and December 2020, student enrollment has rebounded by over 200 students. The overall increase in student enrollment since 2009 has resulted in State funding to the District being increased by millions of dollars. The February 1, 2020 student membership approved for the purpose of funding by the State was 38,132 students, which was 414 students more than the February 1, 2019 student membership. This membership count includes St. Tammany Parish resident students that are attending out of parish charter or other public schools as well as online academies. St. Tammany Parish has no charter schools or other public schools inside the Parish. The State includes the St. Tammany Parish resident students attending these other public schools funded by the State in the District's student count for state funding purposes and then the State removes the funding and pays the various other public schools. Certain other public schools also receive a portion of the District's calculated local funding portion. The loss of state revenue to the District for these other public schools was approximately \$4 million for 2019-2020.

Student enrollment as of October 1, 2019 was 38,774. This is an increase of 460 students when compared to end of year enrollment for 2018-2019. State funding substantially increased for 2019-2020 as a result of this increase in students.

LONG-TERM FINANCIAL PLANNING

Currently, the fund balance of the General Fund (28% of revenues and 30% of expenditures) exceeds the School Board policy maximum guideline of 19% of expenditures by approximately 11%. The School Board continues to monitor the General Fund and other fund balances as they seek to balance available resources with the achievement of objectives for the school system.

St. Tammany Parish continues to grow both in population as well as economic vitality. Our population in the last five years has increased 4.6%. We continue to attract leading-edge corporations and have a diverse array of business headquarters who contribute to our vibrant economy.

The General Fund continues to be impacted by increased costs of employee health insurance benefits and other unfunded state mandates. The School Board continues to be negatively impacted by declines in state and federal funding.

The School Board has restructured expenditures to efficiently utilize existing federal and state funding. One example is by looking at the need for personnel adjustments due to retirements

and attrition. This is effectively achieved through the continuous evaluation of employment duties. It should be noted that St. Tammany Parish continues to rank as one of the highest growth areas in Louisiana, and this impacts local revenues positively, and these revenues are expected to continue on an upward trend.

RELEVANT FINANCIAL POLICIES

For FY 2019-2020, there were no new or existing financial policies that had a significant impact on the current period's financial statements.

MAJOR INITIATIVES

The School Board is constantly working to prepare Every Child, Every Day for a Successful Tomorrow. The School Board spearheads the St. Tammany Parish Early Childhood Community Network in order to provide a strong foundation for academic success for our youngest learners. The network continues to grow and receive the highest honors from the State of Louisiana. We continue to put technology in the hands of students and are in the midst of a successful Chromebook Pilot Program across grade levels at our schools to provide one to one computer access in grades Kindergarten to 12. At the beginning of the 2018-2019 school year, dedicated Mental Health Providers and School Resource Officers were added to all 55 of our campuses in order to provide another layer of safety and security for our students and employees. These initiatives are designed to continue moving our schools towards higher achievement and expand on safety and security in our schools. The cost of these programs is relatively low when compared to the positive impact that is expected from these programs.

The School Board continues to maintain an energy conservation effort throughout the Parish. Through a focused initiative with our employees educating themselves on the need to conserve energy and effective ways to impact conservation, the School Board has saved a significant amount of money spent on heating, cooling, and lighting. Thus far, the amount saved on utilities exceeds \$30 million. The school safety plan and technology initiative were funded by a bond issue approved by voters in March 2008, May 2013, and May 2019. The School Board and schools have received many distinguished awards and recognitions: 2010 Grand Prize Magna Award Winner for energy conservation, a Top 100 School Systems Recognition by Money Magazine, seven National Schools of Excellence by the U.S. Department of Education, School Watch What Parents Want Award Winner, 27 National Food Service Awards by U.S. Department of Agriculture and National Food Service Association, 14 Presidential Awards for Excellence in Mathematics and Science Teaching by National Science Foundation, Energy Milestone Award, 42 National Communications Awards, Crimestoppers Excellence in School Safety and Prevention Award, and Energy Star-Leader Certificate Recipient. Our school system earned a B letter grade by the Louisiana Department of Education as a result of our academic performance for the 2019-2020 school year, and our Superintendent was named the Louisiana Superintendent of the Year for the 2016-2017 school year.

The School Board continues to make progress on its major capital improvement programs of its existing school facilities. Existing facilities continue to be renovated and improved. All facilities are in excellent condition as a result of bond approvals by voters on average every five years. This capital improvement program started in 1990 and continues today. The School Board will have spent in excess of \$696 million on this initiative, and an additional \$190 million is planned for the next six years. Improvements to our facilities are resulting in efficient use of space and alignment with advances in construction.

New facilities and renovations as part of the major capital improvement program have enabled the School Board to reduce the student/teacher ratio for all classrooms. The majority of pre-kindergarten through third grade classrooms have, on average, a maximum class size of 20 students.

Student/teacher ratios are just one piece of the puzzle when it comes to achieving higher levels of success through student achievement. The School Board has become a magnet for attracting highly skilled, experienced, certified teachers and administrators. The School Board workforce includes 2,705 full-time, certificated teachers with 36.45% of teachers possessing an advanced degree. 61.55% of our teachers have more than 10 years teaching experience, and all of our principals and assistant principals minimally possess a master's degree and teacher certification.

Currently, the St. Tammany Parish School System maintains AdvancED certification for all of its 55 schools. The St. Tammany Parish School System became the first school district in Louisiana to earn "district-wide" accreditation in 2005. The School System received reaccreditation in 2010 and again in 2015.

The School Board's Parent Involvement Program is utilized in every school in the system. The goal of this program is to involve parents in the child's education in whatever capacity the parents offer (first aid assistant, library aide, classroom tutor, parenting workshop, etc.). Each year, our parent volunteers donate the equivalent of millions of dollars in volunteer hours. Our parents consistently make up more than 50% of the State of Louisiana's Parent Teacher Association (PTA).

On May 4, 2019, the School Board asked voters to consider a \$175 million bond renewal package for construction, technology, and school safety and a rededication of 3 mill property tax millage to provide support for school safety in the form of school resource officers and mental health providers. Both of these proposals were passed by the voters of St. Tammany Parish. The support provided to our school system by the voters of St. Tammany Parish is crucial to its success.

FINANCIAL INFORMATION

Internal Controls: Management of the School Board is responsible for establishing and maintaining internal controls to ensure that the assets of the School Board are protected from loss, theft, or misuse and that adequate accounting data are compiled allowing for the preparation of financial statements in conformity with generally accepted accounting principles. Internal controls are designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Single Audit: As a recipient of federal, state, and local financial assistance, the School Board also is responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management.

As a part of the School Board's single audit, tests are made to determine the adequacy of internal controls, including that portion related to federal programs, as well as to determine that the School Board has complied with applicable laws and regulations. The results of the School Board's single

audit for the fiscal year ended June 30, 2020, provided no instances of material weaknesses in internal controls.

Budgeting Controls: In addition, the School Board maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with the annual appropriated budgets, including all subsequent amendments, approved by the School Board. Activities of the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds are included in the annual appropriated budget. The level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the function or project level within the individual funds. The School Board also maintains an encumbrance accounting system as one technique of accomplishing budgetary control throughout the year. Encumbered amounts in all funds lapse at year-end; however, encumbrances generally are re-appropriated as part of the next year's budget. As demonstrated by the statements and schedules included in the financial section of this report, the School Board continues to meet its responsibility for sound financial management.

Debt Administration: At June 30, 2020, the School Board had a number of debt issues outstanding, totaling \$251 million. Not included in the School Board's long-term debt are \$94.2 million in defeased debt. The Notes to Basic Financial Statements contain more detailed information on these bonds.

OTHER INFORMATION

Independent Audit: State statutes require an annual audit by independent certified public accountants. The accounting and auditing firm of LaPorte CPAs and Business Advisors performed the fiscal year 2020 audit. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the federal Single Audit Act, as amended, and related Uniform Guidance. The independent auditor's report on the financial statements is included in the financial section of this report. The independent auditor's reports related specifically to the Single Audit Act are included in the Single Audit Section.

Awards: The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the St. Tammany Parish School Board for its comprehensive annual financial report for the fiscal year ended June 30, 2019. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive financial report, whose contents conform to program standards. Such reports must satisfy both generally accepted accounting principles and applicable legal requirements.

The St. Tammany Parish School Board was also awarded a Certificate of Excellence in Financial Reporting for its comprehensive annual financial report for the fiscal year ended June 30, 2019, by the Association of School Business Officials International (ASBO). The award certifies that the school system has presented its comprehensive annual financial report to the ASBO Panel of Review for critical review and evaluation and that the report was judged to have complied with the principles and practices of financial reporting recognized by ASBO. Receiving the award is recognition that the school system has met the highest standards of excellence in school financial reporting.

Both a Certificate of Achievement (GFOA) and a Certificate of Excellence (ASBO) are valid for a period of one year only. The St. Tammany Parish School Board has received both certificates for the last 32 consecutive years. We believe our current comprehensive annual financial report

continues to conform to the program requirements of both organizations, and we are submitting it to GFOA and ASBO to determine its eligibility for each of the certificates.

Acknowledgements: The preparation of the comprehensive annual financial report on a timely basis was made possible by the dedicated service of the entire staff of the Business Affairs Department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report. In addition, our gratitude is extended to the Arts Department for their valuable assistance in the design of this report and to the student whose art is displayed on the cover of the report.

In closing, without the leadership and support of the Members of the School Board, both individually and collectively, preparation of this report would not have been possible.

Respectfully submitted,

Independent Auditor's Report

To the Members of the St. Tammany Parish School Board Covington, LA

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Tammany Parish School Board (the School Board) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Correction of Error

As described in Note 20 to the financial statements, deferred inflows of resources related to net OPEB liability was overstated by \$17,349,798, requiring an adjustment to beginning net position. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 4 to 14, and the budgetary comparison schedules, other postemployment benefits information, net pension liability information, and notes to required supplementary information on pages 78 to 85, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School Board's basic financial statements. The combining and individual nonmajor fund financial statements, the budgetary comparison schedules for the nonmajor funds, the fiduciary fund financial statements, the budgetary comparison schedules for the major capital projects fund, the schedule of board members' compensation, and the schedule of compensation, benefits, and other payments to agency head are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information referred to in the preceding paragraph is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the budgetary comparison schedules for the nonmajor funds, the fiduciary fund financial statements, the budgetary comparison schedules for the major capital projects fund, the schedule of board members' compensation, and the schedule of compensation, benefits, and other payments to agency head are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2020 on our consideration of the School Board's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School Board's internal control over financial reporting and compliance.

Covington, LA December 14, 2020

REQUIRED SUPPLEMENTARY INFORMATION

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Management's Discussion and Analysis

As management of the St. Tammany Parish School Board (the School Board), we offer readers of the St. Tammany Parish School Board's financial statements this narrative overview and analysis of the financial activities of the School Board for the fiscal year ended June 30, 2020. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages v - xi, and the School Board's financial statements, which begin on page 15.

FINANCIAL HIGHLIGHTS

The financial highlights for the St. Tammany Parish School Board for fiscal year ended June 30, 2020, were:

- The School Board's General Fund expended \$407.2 million in fiscal year ended June 30, 2020 on education for St. Tammany Parish (the Parish). Over 78% of the expenditures was spent on instructional and support programs and 13.3% was spent on administration and operation/maintenance of schools.
- The School Board's General Fund revenues on a budgetary basis for fiscal year ended June 30, 2020, were approximately \$438.9 million. The largest single sources of non-federal funds were from the State of Louisiana Minimum Foundation Program (\$220.4 million), ad valorem taxes (\$105.7 million), and sales and use taxes (\$105.6 million).
- The liabilities and deferred inflows of the St. Tammany Parish School Board exceeded its assets and deferred outflows at the close of the fiscal year by \$407.4 million. The overall increase in net position of \$40.3 million includes a prior period adjustment of \$17.3 million.
- The St. Tammany Parish School Board's change in net position for the year was an increase
 of \$22.9 million. There were increases in ad valorem taxes of \$4.2 million and increases in
 sales and use taxes of \$3.0 million. Operating grants revenue decreased \$5.9 million. There
 was a \$10.7 million increase from the State of Louisiana through the Minimum Foundation
 Program.
- The School Board's governmental funds reported combined ending fund balances of \$264.3 million, an increase of \$31.8 million in comparison to the prior year. In 2020, increases in property values in St. Tammany Parish resulted in increased ad valorem tax revenues. Sales taxes in the Parish also continued to increase with continued growth in the economy.
- The School Board expended approximately \$26.3 million on capital projects in 2019-2020.
 The majority of these expenditures were on construction of additional classrooms and renovations to existing schools and support facilities.
- The School Board's General Fund experienced an increase of \$6.6 million in fund balance.
- As of June 30, 2020, the School Board had \$251.0 million in bonds outstanding.
- The COVID-19 pandemic caused the School Board to shut down all its schools from March, 2020, through the end of the academic year. The General Fund and local and state revenue sources were not significantly impacted by the pandemic. Federal funding was awarded to the School Board under the Elementary and Secondary Schools Emergency Relief Fund (CARES Act) in fiscal year 2020 to cover costs of preparing for the next academic year.

Management's Discussion and Analysis

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the St. Tammany Parish School Board's basic financial statements. The St. Tammany Parish School Board's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements include the statement of net position (on pages 15 and 16) and the statement of activities (on page 17); they provide information about the financial position of the School Board as a whole and present a longer-term view of the School Board's finances. Fund financial statements start on page 18. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the School Board's operations in more detail than the government-wide statements by providing information about the School Board's most significant funds. The fiduciary fund statements provide financial information about activities for which the School Board acts solely as a trustee or agent for the benefit of those outside of the government.

Our auditor has provided assurance in its independent auditor's report, located immediately preceding this management's discussion and analysis (MD&A), that the basic financial statements are fairly stated. The auditor has also provided varying degrees of assurance regarding the required supplementary information and other supplementary information. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts in the financial statements.

Notes to Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 26 - 77 of this report.

Other Information

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented following the notes to basic financial statements. Combining and individual fund statements and schedules can be found on pages 86 - 115 this report.

Management's Discussion and Analysis

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis of the School Board as a whole begins on page 15. One of the most important questions asked about the School Board's finances is, "Is the School Board as a whole better off or worse off as a result of the year's activities?" The statement of net position and the statement of activities report information about the School Board as a whole and about activities in a way that helps answer this question. These statements include *all* assets and deferred outflows and liabilities and deferred inflows using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the School Board's *net position* and changes in the net position. You can think of the School Board's net position (the difference between assets and deferred outflows and liabilities and deferred inflows) as one way to measure the School Board's financial health, or *financial position*. Over time, *increases or decreases* in the School Board's net position are indicators of whether its *financial health* is improving or deteriorating. You will need to consider other nonfinancial factors, however, such as changes in the School Board's property tax base and the condition of the schools, to assess the *overall financial health* of the School Board.

In 2019-2020, the School Board's financial position increased, with its net position increasing \$22.9 million from a \$430.3 deficit in 2018-2019 (restated) to a \$407.4 deficit in 2019-2020. \$48.4 million of the School Board's net position is restricted for debt service, operational purposes, and food service, leaving a deficit of \$670.4 million in unrestricted net position.

In the statement of net position and the statement of activities, the School Board can be divided into two kinds of activities:

Governmental Activities - Most of the School Board's basic services are reported here, including instruction, plant services, transportation, and food services. Property taxes, sales and use taxes, Minimum Foundation Program (MFP) funds, and state and federal grants finance most of these activities. In the internal service funds, the School Board charges fees to departments to help cover the costs of certain services it provides by being self-insured. The School Board's general liability and workers' compensation programs are accounted for here.

Business-Type Activities - Business-type activities are those activities which are conducted by the School Board whereby the fees/charges for those services provided are intended to be sufficient to realize a profit. The School Board did not have any such activities.

Our analysis below focuses on the net position (Table 1) and changes in net position (Table 2) of the School Board's governmental activities.

Management's Discussion and Analysis

TABLE 1 SUMMARY OF NET POSITION (in Thousands)

Governmental

	Activities		
	2020		2019
Assets Current and Other Assets Capital Assets	\$ 319,1 484,7		287,942 481,893
Total Assets	803,9	40	769,835
Deferred Outflows of Resources	147,7	77	107,846
Liabilities Current Liabilities Long-Term Liabilities	87,4 1,211,7		89,854 1,155,166
Total Liabilities	1,299,2	12	1,245,020
Deferred Inflows of Resources	59,8	61	80,287
Net Position Net Investment in Capital Assets Restricted Unrestricted	214,6 48,3 (670,3	85	226,874 47,389 (721,889)
Total Net Position	\$ (407,3	56) \$	(447,626)

The largest portion of the School Board's net position is an unrestricted deficit of \$670.4 million. The unrestricted deficit is primarily made up of the net pension liability of \$517.8 million and the net other postemployment benefit liability of \$431.9 million. This deficit is not expected to consume the resources of the School Board in the next fiscal year since the net pension liability and other postemployment benefit liability are long-term in nature. Payments for these liabilities will be budgeted in the year that actual payments are expected to be made.

The School Board's net position also includes its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The School Board uses these capital assets to provide services to the public; consequently, these assets are not available for future spending. Although, the School Board's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The restricted net position (-11.9%) represents resources to be used to pay the remaining amount of outstanding debt, restricted resources for construction projects, and restricted resources for food service programs.

At June 30, 2020 and 2019, the School Board was not able to report positive balances in its unrestricted net position. Ongoing liabilities for postemployment benefits and net pension liability contributed to the deficit in unrestricted net position.

Management's Discussion and Analysis

Ending Net Position	\$ (407,356	s) \$	(447,626)	

Management's Discussion and Analysis

The St. Tammany Parish School Board's net position increased by \$22.9 million. There were increases in ad valorem taxes of \$4.2 million and increases in sales and use taxes of \$3.0 million. Operating grants revenue decreased \$5.9 million. There was a \$10.7 million increase from the State of Louisiana through the Minimum Foundation Program and additional appropriations.

Revenues increased by 2.1% or approximately \$10.6 million. Revenue increases in ad valorem taxes, sales tax, and other totaled \$7.4 million. These increases were mainly caused by continued Parish economic growth in property tax values and sales. Revenue from the State of Louisiana through the Minimum Foundation Program and other appropriations increased \$10.7 million. This increase was caused by an increase in state funding and an increase in students. Grant revenue decreased \$6.2 million.

Student enrollment had an increase from 38,542 students in 2019 to 38,774 students in 2020. MFP funding increased due to a state funding increase for employee salaries and due to increase in students.

Expenses increased 6.9% or approximately \$32.5 million in 2020. Increases in salaries and the associated benefits account for most of the decrease. Employees received raises from the State of Louisiana that were matched by the School Board in 2020.

REPORTING THE SCHOOL BOARD'S MOST SIGNIFICANT FUNDS

The School Board uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The fund financial statements begin on page 18 and provide detailed information about the most significant funds - not the School Board as a whole. Some funds are required to be established by state law or by bond covenants. However, the School Board establishes other funds to help it control and manage financial resources for particular purposes or to demonstrate that it is meeting legal responsibilities for using certain taxes, grants, and other money.

The School Board's three types of funds - governmental, proprietary, and fiduciary funds - use different accounting approaches.

Governmental Funds - Most of the School Board's basic services are reported in the governmental funds, which focus on how money flows into and out of these funds and the balances left at year-end that are available for spending. These funds are reported using modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the School Board's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School Board's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in reconciliations on pages 19 and 21.

Management's Discussion and Analysis

The School Board's governmental funds reported combined ending fund balances of \$264.3 million, an increase of \$31.8 million (see Statements C and E) in comparison with the prior year. The components of this increase are described below.

The fund balance for the General Fund was \$122.5 million, which was an increase of \$6.6 million from 2019. General Fund expenditures, before transfers and other financing uses, for 2020, decreased by .2%, or \$0.5 million.

General Fund revenue before transfers and other financing sources increased 2.2%, or \$9.5 million. Ad valorem taxes increased as a result of increased property values, and sales taxes increased as a result of improvements in the area's economy.

The 2008 Construction Fund accounts for the expenditures of the remaining \$25 million in general obligation bonds that was approved by voters to finance capital improvements for new construction and improvements to existing facilities in March 2008. Expenditures in this fund totaled \$17.3 million in fiscal year 2019-2020. This is the final drawdown for the 2008 voter approved Capital Improvement Plan. These expenditures include construction projects for additional classrooms at Mandeville and Madisonville area schools.

The 2013 Construction Fund accounts for the expenditures of the \$135 million in general obligation bonds approved by voters to finance capital improvements for new construction and improvements to existing facilities. Expenditures in this fund totaled \$6.1 million. The District is nearing the end of its 5-year Capital Improvement Plan. These expenditures include construction projects for school improvements and school technology as outlined in the Capital Improvement Plan approved by voters in 2013.

The 2019 Construction Fund accounts for the expenditures of the \$175 million in general obligation bonds approved by the voters to finance capital improvements for new construction and improvements to existing facilities. Expenditures in this fund totaled \$2.7 million. These expenditures include construction projects for school improvements and school technology as outlined in the Capital Improvement Plan approved by voters in 2019.

The Debt Service Fund was established to meet the requirements of bond ordinances, and is used to account for the accumulation of resources for, and the payment of long-term debt principal, interest, and related costs. Revenues in this fund decreased by \$3.3 million, or 9.8%, from 2019. This decrease was the result of a rollback of 2.0 mill in ad valorem millage for the Debt Service Fund. Expenditures in this fund increased by \$1.5 million, or 4.9%. Increases in expenditures were the result of an increase in principal and interest payments in fiscal year 2020.

Proprietary Funds - When the School Board charges for the services it provides - whether to outside sources or to other units of the School Board - these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the statement of net position and statement of activities. The School Board maintains two internal service funds. An internal service fund accumulates and allocates costs internally among the School Board's various functions.

Management's Discussion and Analysis

The School Board maintains separate internal service funds to account for the self-insured portion of its general liability and employee workers' compensation programs.

Because the services provided in these funds benefit governmental rather than business-type functions, they have been included as governmental activities in the government-wide financial statements.

Fiduciary Funds - The School Board is trustee, or fiduciary, for its student activity funds that are under the control and administration of the School Board. All of the School Board's fiduciary activities are reported in the statement of fiduciary assets and liabilities on page 25. These funds are not available to the School Board to finance its operations and, therefore, are not included in the government-wide financial statements. The School Board is responsible for ensuring that the assets reported by these funds are used for their intended purposes.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget can be briefly summarized as follows:

\$0.9 million increase in projected revenues as follows:

- \$2.1 million increase in Minimum Foundation Program.
- \$0.4 million decrease in Ad Valorem revenues.
- \$1.6 million increase in Sales Tax revenue.
- \$1.7 million decrease in Medical Services
- \$0.5 million decrease in Tuition
- \$0.2 million decrease in Earnings on Investments

\$5.5 million decrease in projected expenditures as follows:

\$5.5 million increase in employee salaries and benefits.

No differences were noted between the final amended budget and actual results.

Management's Discussion and Analysis

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2020, the School Board has invested in a broad range of capital assets, including land, school facilities, and equipment totaling \$484.7 million. (See Table 3 below.) There was a net increase in capital assets in 2020 of \$2.9 million. The School Board changed its capitalization policy effective July 1, 2009 from \$1,000 to \$5,000. This change was mandated by the Louisiana Department of Education. More detailed information of capital assets can be found in Note 5.

TABLE 3 CAPITAL ASSETS AT YEAR-END (Net of Depreciation, in Thousands)

Covernmental

		Activities			
		2020		2019	
Land	\$	19,407	\$	18,644	
Land Improvements		9,327		9,966	
Buildings and Improvements		426,910		425,606	
Furniture and Equipment		4,329		4,689	
Construction in Progress		24,775		22,988	
Total	_ \$	484,748	\$	481,893	

The construction projects for 2019-2020 were mainly for classroom additions and renovations throughout the Parish.

Long-Term Debt

As of June 30, 2020, the School Board had \$1.25 billion in long-term debt outstanding, an increase of \$55.1 million, or 4.6%, over the amount at June 30, 2019 - as shown in Table 4 below:

TABLE 4 OUTSTANDING DEBT AT YEAR-END (in Thousands)

	Governmental Activities			
		2020		2019
General Obligation Bonds (Backed by the School				
Board), Net of Unamortized Premium (Discount)	\$	272,029	\$	256,716
Qualified School Construction Bonds		1,667		2,000
Capital Lease		810		961
Net Pension Liability		517,763		515,718
Net Other Postemployment Benefits (OPEB) Liability		431,851		396,492
Compensated Absences		21,203		18,314
Total	\$	1,245,323	\$	1,190,201

Management's Discussion and Analysis

The School Board continued to pay down its outstanding debt issues. The School Board's bond rating in 2019-2020 was AA by *Standard & Poor's*. The State constitution limits the amount of general obligation debt that the School Board can issue to 35% of the assessed value of all taxable property within the school district. The School Board's outstanding general obligation debt of \$249.3 million is significantly below the current \$931.7 million limit. Net OPEB liability increased by \$35.4 million. Net pension liability increased by \$2.0 million.

The School Board initiated a risk management program for general liability, workers' compensation, and health insurance in prior years. The School Board purchases commercial insurance for claims in excess of coverage provided through its self-insurance funds. The School Board had \$9.6 million and \$10.8 million in claims and judgments outstanding for fiscal years ended June 30, 2020 and 2019, respectively. Other obligations include accrued vacation pay and sick leave. More detailed information about the School Board's long-term liabilities is presented in Notes 6, 7, and 8 to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The following are currently known St. Tammany Parish economic factors expected to impact the 2020-2021 fiscal year:

- Sales taxes rate of growth is projected to continue with modest growth. St. Tammany Parish remains one of the wealthiest parishes in the State of Louisiana. The sales tax to date for FY 2020-2021 has not been impacted by the COVID19 pandemic.
- The School Board's student attendance is expected to decline for FY 2020-2021 as a result of the COVID19 pandemic. Enrollment as of October 1, 2020, was 37,213 for a decrease of 1,561 students over October 1, 2019.
- The retirement system contributions will decrease effective July 1, 2020. The Teachers' Retirement System of Louisiana decreased the employer contribution rate from 26.0% to 25.8%. The Louisiana School Employees' Retirement System decreased the employer contribution rate from 29.4% to 28.7%.
- The School Board's fiscal year 2021 budget for construction capital projects is expected to increase for a number of reasons. The voters approved a new bond construction and technology referendum in May 2013 and these projects are reaching completion phases. The referendum was for \$15.0 million in technology and \$125.0 million in capital projects for new classrooms and various school and building renovations. The voters approved a new bond construction and technology referendum in May 2019 for \$175 million (\$20 million technology and \$155 million in capital projects for new classrooms, technology, school safety, and various school/building renovations). A number of the construction projects will begin in 2021. Chrome books for all students and teachers were part of the 2019 bond issue. The chrome book purchases were accelerated to a one year purchase plan as a result of the COVID19 pandemic with an expected cost of \$7 million in 2021.
- Projected ad valorem taxes for 2020-2021 indicate increases of approximately \$2.0 million due to increases in property values based on final tax roll.

Management's Discussion and Analysis

 Employees were given no pay increases for the 2020-2021 school year due to uncertainty with the COVID19 pandemic. The board approved one-time stipends for employees in December 2020 at a projected cost of \$7 million.

All of these factors were considered in preparing the St. Tammany Parish School Board's budget for the 2020-2021 fiscal year.

REQUESTS FOR INFORMATION

This financial report is designed to provide citizens, taxpayers, investors, and creditors with a general overview of the School Board's finances and to show the School Board's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Mrs. Terri Prevost, Director of Business Affairs at the St. Tammany Parish School Board, P.O. Box 940, Covington, LA 70434-0940, or by calling (985) 898-3217 during regular business hours, Monday through Friday, from 8:30 a.m. to 4:30 p.m., Central Standard Time.

Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position As of June 30, 2020

Total Fund Balances - Governmental Funds		\$ 264,316,942
The cost of capital assets (land, buildings, furniture, and equipment) purchased or constructed is reported as expenditures in governmental funds. The statement of net position includes those capital assets among the assets of the School Board as a whole. The costs of those assets are allocated over their estimated useful lives (as depreciation expense) to the various programs reported as governmental activities in the statement of activities. Because depreciation expense does not affect financial resources, it is not reported in governmental funds.		
Cost of Capital Assets Accumulated Depreciation	\$ 936,438,292 (451,690,590)	484,747,702
Deferred outflows of resources represent consumption of net position applicable to future periods and are, therefore, not reported in the funds.		
Bond Refunding Other Postemployment Benefits Pensions	4,407,152 39,019,603 104,350,019	147,776,774
Elimination of Interfund Assets and Liabilities		
Interfund Assets Interfund Liabilities	(20,735,932) 21,735,932	1,000,000
Net position of the internal service funds is reported as proprietary fund type in the fund financial statements but included as governmental activities in the government-wide financial statements less interfund balances eliminated in the consolidation into the governmental activities.		
Total Net Position Interfund Balances	4,378,622 (1,000,000)	3,378,622
Deferred inflows of resources represent acquisition of net position applicable to future periods and are, therefore, not reported in the funds.		
Pensions Other Postemployment Benefits	(39,637,494) (20,223,198)	(59,860,692)
Long-term liabilities applicable to the School Board's governmental activities are not due and payable in the current period and, accordingly, are not reported as fund liabilities. All liabilities - both current and long-term - are reported in the statement of net position.		
Balances at June 30, 2020, are:

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities For the Year Ended June 30, 2020

Total Net Change in Fund Balances - Governmental Funds		\$ 31,840,201
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeds capital outlays:		
Capital Outlays Depreciation Expense	\$ 27,469,205 (24,614,664)	2,854,541
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Bonded Debt Repayments Bond Proceeds (Including Refunding Bonds) Capital Lease Repayments Bond Premium Bond Discount Accrued Interest	26,418,333 (40,620,000) 151,178 (760,569) (16,825) (147,689)	(45,000,750)
Deferred Charge on Bond Refunding	(251,184)	(15,226,756)
Revenues for pension contributions in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		1,876,330
In the statement of activities, compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially,		
the amounts actually paid).		(2,889,181)
In the statement of activities, pension and other postemployment benefits are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid).		
Pensions Other Postemployment Benefits	6,539,437 (2,561,781)	3,977,656
All revenues, expenses, and changes in net position of the internal service funds are reported as proprietary fund type in the fund financial statements, but included as		497.000
governmental activities in the government-wide financial statements.		 487,002

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies

The accompanying financial statements of the St. Tammany Parish School Board have been prepared in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

A. Financial Reporting Entity

The St. Tammany Parish School Board (the School Board) was created by Louisiana Revised Statute (R.S.) 17:51 for the purpose of providing public education for the children within St. Tammany Parish, Louisiana (the Parish). The School Board is authorized by R.S. 17:81 to establish policies and regulations for its own government consistent with the laws of the State of Louisiana and the regulations of the Louisiana Board of Elementary and Secondary Education. The School Board is authorized to establish public schools, as it deems necessary, to provide adequate school facilities for the children of the Parish, to determine the number of teachers to employ, and to determine local supplement to salaries. The School Board is comprised of 15 members who are elected from 15 districts for concurrent terms of four years expiring December 31, 2022.

The School Board operates 55 schools within the Parish with a total enrollment of 38,774 students. In conjunction with the regular educational programs, some of these schools offer special education programs. Additionally, the School Board provides transportation and school food services for the students.

For financial reporting purposes, the School Board includes all funds and activities for which the School Board exercises financial accountability. The School Board members are elected by the public, have decision-making authority, the power to designate management, the ability to significantly influence operations, and primary accountability for fiscal matters. Certain units of local government, over which the School Board exercises no financial accountability, such as the Parish Council, other independently elected parish officials, and municipalities within the Parish, are excluded from the financial statements. These units of government are considered separate reporting entities and issue financial statements separate from that of the School Board. The School Board is not a component unit of any other entity and does not have any component units that require inclusion in its financial statements.

B. Basis of Presentation - Fund Accounting

Government-Wide Financial Statements (GWFS)

The statement of net position and the statement of activities display information about the School Board as a whole. Fiduciary funds are not included in GWFS. Fiduciary funds are reported only in the statement of fiduciary assets and liabilities at the fund financial statement level. For the most part, the effect of interfund activity has been removed from these financial statements.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Internal Activities

The Workers' Compensation and Risk Management Funds provide services to the governmental funds. Accordingly, these funds were included in the governmental activities. Pursuant to GASB Statement No. 34, the internal activities have been eliminated in order to avoid the "grossing-up" effect of a straight inclusion. Interfund services provided and used are not eliminated in the process of consolidation.

Program Revenues

Program revenues include: 1) charges for services, 2) operating grants and contributions, and 3) capital grants and contributions. Program revenues reduce the cost of the function to be financed from the School Board's general revenues. Charges for services are primarily derived from food sales and tuition. Operating grants and contributions consist of the many educational grants received from the federal and state governments.

Allocation of Indirect Expenses

The School Board reports all direct expenses by function in the statement of activities. Direct expenses are those that are clearly identifiable with a function. Interest on general long-term debt is considered an indirect expense and is reported separately in the statement of activities. Other indirect expenses, including depreciation, compensated absences, pension, and other postemployment benefits (OPEB) adjustments, are allocated.

Fund Financial Statements (FFS)

Fund financial statements report detailed information about the School Board. The focus of the governmental and enterprise fund financial statements is on the major funds rather than reporting funds by type. Each major fund is presented in a separate column. The major funds reported by the School Board for the year ended June 30, 2020, are as follows:

- General Fund Accounts for the day-to-day operations of the School Board.
- 2019 Construction Fund Accounts for the expenditures of the \$175 million in general obligation bonds approved by the voters to finance capital improvements for new construction and improvements to existing facilities.

Non-major funds are aggregated and presented in a single column. The internal service funds are presented in a single column on the face of the proprietary funds statements.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Special Revenue Funds

Special revenue funds account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds account for the revenues and expenditures related to federal, state, and local grant and entitlement programs and special district funds established for various educational objectives.

Capital Projects Funds

Capital projects funds account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by the proprietary funds). Separate capital projects funds are maintained to account for the proceeds of general obligation bonds and other financing proceeds.

Debt Service Funds

Debt service funds account for transactions relating to resources retained and used for the payment of principal and interest on the general obligation bonds.

Proprietary Funds

Proprietary funds are used to account for the School Board's ongoing activities that are similar to those often found in the private sector. The measurement focus is upon determination of net income. The School Board's proprietary fund type is limited to internal service funds.

Internal service funds are used to account for the accumulation of resources for and the payment of benefits by the School Board's self-insurance programs. The School Board maintains the following self-insurance funds:

- Workers' Compensation Fund Accounts for the payment of workers' compensation benefits.
- Risk Management Fund Accounts for general liability, which is fully insured at the
 fiscal year ended June 30, 2020, with a deductible of \$250,000 per occurrence,
 and property damage, which is insured at the fiscal year ended June 30, 2020,
 with a deductible of 3% of the total values up to \$5,000,000 for a "named storm"
 and only \$500,000 for all other perils.

Fund revenues are derived from government allocations. These revenues are planned to match: (1) expenses of insurance premiums in excess of self-insurance amounts, (2) estimated claim losses resulting from self-insurance programs which include estimated liabilities for claims incurred but not yet reported at year-end, and (3) operating expenses. Non-operating income includes interest income.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

B. Basis of Presentation - Fund Accounting (Continued)

Fiduciary Funds

Fiduciary funds are used to account for assets held by the School Board in a trustee capacity or as an agent on behalf of other funds within the School Board. The School Board maintains one fiduciary fund type, an agency fund. The agency fund is the School Activity Fund. The School Activity Fund accounts for assets held by the School Board as an agent for the individual schools and school organizations.

C. Basis of Accounting - Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property (ad valorem) taxes are recognized as revenue in the year they are levied, and grant revenues are recognized as soon as all eligibility requirements are met. Revenues not earned are reported as unearned revenue.

The governmental fund financial statements are reported using the current financial resources measurement focus and modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the School Board considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when the payment is due.

The proprietary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred. Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The operating revenues of the proprietary funds are employer contributions and insurance premiums. The operating expenses for the proprietary funds include the cost of insurance premiums, claims, and administrative expenses. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The fiduciary fund financial statements have no measurement focus, but do employ the accrual basis of accounting.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

C. Basis of Accounting - Measurement Focus (Continued)

The following practices in recording revenues and expenditures have been used for the governmental funds:

Revenues

Federal and state entitlements, which include state equalization and state revenue sharing, are recorded as unrestricted grants-in-aid when available and measurable. For this purpose, the School Board considers all revenues to be available if they are collected within sixty days of the end of the current fiscal period. Federal and state grants which are restricted as to the purpose of the expenditures are recorded when the reimbursable expenditures have been made. Ad valorem taxes are recorded in the year the taxes are due and payable. Ad valorem taxes are assessed on a calendar year basis, based on the assessed value on January 1st, become due on November 15th of each year, and become delinguent on December 31st. An enforceable lien attaches to the property as of November 15th. The taxes recognized in fiscal year 2020 were levied by the School Board on May 16, 2019. However, before the taxes can be collected, the tax rolls must be submitted to the State Tax Commission for approval. The taxes are generally collected in December, January, and February of the fiscal year. Property tax revenues are accrued at fiscal year-end to the extent that they have been collected and are unremitted by the St. Tammany Parish Tax Collector's Office. Such amounts are measurable and available to finance current operations. Sales and use tax revenues are recorded in the month in which the School Board considers them available to finance current year obligations and are collected by the St. Tammany Parish Tax Collector. Interest income on time deposits and revenues from rentals, leases, and royalties are recorded when earned. Substantially all other revenues are recorded when received.

Expenditures

Salaries are recorded as expenditures when incurred. Nine-month employee salaries are incurred over a nine-month period but paid over a twelve-month period generally, except in cases where the employee opted to be paid over nine months. Compensated absences are recognized as expenditures when leave is actually taken or when employees (or heirs) are paid for accrued leave upon retirement or death, while the cost of earned leave privileges not requiring current resources is recorded as a liability on the government-wide financial statements. Commitments under construction contracts are recognized as expenditures when earned by the contractor. Principal and interest on general long-term obligations are not recognized until due. All other expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Prepaids

Prepaid expenditures are recorded in the year that the expenditure is accrued using the consumption method.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

D. Budget Practices

The proposed budgets for fiscal year 2019-2020 were completed and made available for public inspection at the School Board office on August 7, 2019. A public hearing was held on August 22, 2019 for suggestions and comments from taxpayers. The proposed fiscal year 2019-2020 budgets were formally adopted by the School Board on September 12, 2019 and the final amendment was adopted on November 12, 2020. The budgets, which included proposed expenditures and the means of financing them, for the General, Special Revenue, Debt Service, and Capital Projects Funds, were published in the official journal ten (10) days prior to the public hearings. The budget and amendments are reported on the General Fund budgetary comparison schedule in the required supplementary information section of this report.

The budgets for all funds for the fiscal year 2019-2020 were prepared on a modified accrual basis, consistent with U.S. GAAP.

Formal budgetary accounts are integrated into the accounting system during the year as a management control device, including the recording of encumbrances. Appropriations are valid only for the year in which they are made, and any part of such appropriation which is not encumbered or expensed lapses at the end of the year. Current year transactions which are directly related to the prior year's budget are not included in the budget for the current year.

The Superintendent is authorized to transfer budget amounts between individual budget lines in a fund; however, any supplemental appropriations that amend the total expenditures of any fund require Board approval.

As required by state law, when actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments.

Because the budgets are prepared on a modified accrual basis, no differences in budget basis and U.S. GAAP basis occurs. Additional information on the original and final budgets can be found in the budgetary comparison schedules in the required supplementary information and other supplementary information sections of this report.

E. Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded, is employed by all funds during the year as a budgetary tool. Encumbrances outstanding at year-end are liquidated.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

F. Cash, Cash Equivalents, and Investments

For purposes of the statement of cash flows, all highly liquid investments with an original maturity of three months or less at date of acquisition are considered to be cash equivalents in the internal service funds. Investments are stated at cost or fair value, depending on the type of investment.

G. Receivables

Intergovernmental receivables consist of receivables for reimbursement of expenditures under various state and federal programs and grants. All amounts are expected to be collected within the next twelve months.

Other receivables include all trade and other receivables considered to be receivable within one year. The balance in other receivables consists primarily of amounts billed to Medicaid, which total \$420,998 as of June 30, 2020. No allowance for uncollectible accounts has been established as all receivables are considered collectible.

H. Short-Term Interfund Receivables/Payables

During the normal course of operations, numerous transactions occur between funds for goods provided or services rendered. Activities between the funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/due from other funds" (i.e., the current portion) or "advances to/from other funds" (i.e., the non-current portion). These receivables and payables, as well as short-term interfund loans, are classified as due from other funds or due to other funds. Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

I. Inventory

Inventory of the School Food Service Special Revenue Fund consists of food purchased by the School Board and commodities granted by the United States Department of Agriculture through the Louisiana Department of Education. The commodities are recorded as revenues and expenditures when consumed. The purchased food is recorded as expenditures when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements. All inventory items purchased are valued at cost (first-in, first-out), and donated commodities are assigned values based on information provided by the United States Department of Agriculture.

J. Restricted Assets

Restricted assets represent cash held in separate bank accounts that is restricted according to applicable bond and loan indenture agreements or as required by Louisiana Revised Statutes for debt service funds.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

K. Capital Assets

Purchases of land, land improvements, buildings and improvements, and furniture and equipment are recorded as expenditures in the governmental funds. In the government-wide financial statements, capital assets are recorded at historical cost or estimated historical cost, if actual historical cost is not available. Donated capital assets are valued at their acquisition value on the date of donation. Approximately 95% of capital assets are valued at historical cost, while the remaining 5% are valued at estimated cost, based on the historical cost of like items. Capital assets are defined by the School Board as assets with an initial individual cost of more than \$5,000.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized over the remaining useful lives of the assets.

In the government-wide financial statements, capital assets are depreciated over their estimated useful lives (excluding any applicable salvage value). Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Straight-line depreciation is used based on the following estimated useful lives:

Assets	Years	_
Land	-	
Land Improvements	20	
Buildings and Improvements:		
Fixed Buildings and Improvements	30	
Temporary Buildings (Portables)	20	
Furniture and Equipment:		
Heavy Equipment	10	
Office Equipment	5 - 10	
Furniture and Fixtures	5	

L. Long-Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, if material, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs, with the exception of prepaid insurance, are recognized as expenditures when the liability is incurred.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position and changes in fiduciary net position of the defined benefit pension plans in which the School Board participates have been determined on the same basis as they are reported by the respective defined benefit pension plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Compensated Absences

All 12-month non-school administrative employees earn from 10 to 20 days of vacation leave each year, depending on length of service with the School Board. A maximum of five days of vacation leave may be carried forward to the next calendar year. Upon termination, earned vacation leave is paid to the employee at the employee's current rate of pay.

All School Board employees earn from 10 to 13 days of sick leave each year, depending upon the number of months employed. Sick leave can be accumulated without limitation. Upon retirement, a maximum of 25 days of unused sick leave is paid to the employee at the employee's current rate of pay, and all unused sick leave is used in the retirement benefit computation as earned service.

Any employee with a teaching certificate is entitled, subject to approval by the School Board, to one semester of sabbatical leave after three years of continuous service or two semesters of sabbatical leave after six or more years of continuous service.

Leave may be granted for medical purposes and professional and cultural improvement. All employees are eligible for extended sick leave of up to 90 days in each six-year period of employment which may be used for personal illness or illness of an immediate family member providing that the employee has no remaining regular sick leave balance. The employee on extended sick leave is paid 65% of their salary at the time the extended sick leave begins.

The cost of compensated absence privileges (unused sick leave) is recognized as current year expenditures in the General Fund when leave is actually taken or when employees are paid for accrued leave upon retirement or death. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

At June 30, 2020, employees of the School Board have accumulated and vested \$21,203,226 of compensated absence benefits in salary and salary-related payments.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

O. Sales and Use Taxes

On June 25, 1966, the voters of St. Tammany Parish approved a one percent sales and use tax which, after payment of necessary costs and expenses of collecting the tax, is dedicated for payments of salaries of teachers and other school personnel and for other operating expenses. This was a permanent tax. On September 18, 1976, the voters of St. Tammany Parish approved an additional one percent sales tax to be levied on behalf of the St. Tammany Parish School Board for a period of 15 years. The proceeds are dedicated for the purposes of capital improvements, maintenance, and operating expenses of the School Board. In April 2004, the voters of the Parish designated this additional sales tax as permanent. The sales and use taxes are collected by the St. Tammany Parish Tax Collector for a percentage of the monthly collections.

P. Net Position - Government-Wide Financial Statements

In the government-wide and proprietary fund statements, equity is classified as net position and displayed in three components.

- Net Investment in Capital Assets Consists of the historical cost of capital assets, including any restricted capital assets, net of accumulated depreciation and capital-related borrowings.
- Restricted Consists of assets that have constraints that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or constraints imposed by law through constitutional provisions or enabling legislation.
- Unrestricted Consists of all other amounts included in net position.

When both restricted and unrestricted resources are available for use, it is the School Board's policy to use restricted resources first, then unrestricted resources as they are needed.

Q. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources that represents a consumption of net position that applies to future period(s) and will not be recognized as an outflow of resources (expense) until then. The School Board has three items that meet this criterion - deferrals related to pension plans, other postemployment benefits, and an unamortized loss on a bond defeasance.

Unamortized amounts are reported as deferred outflows of resources and amortized amounts are reported as a component of pension expense, other postemployment benefit expense, or interest expense.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources that represents an acquisition of net position that applies to future period(s) and will not be recognized as inflow of resources (revenue) until that time. The School Board has two items that meet this criterion - deferrals related to pensions and to other postemployment benefits.

Notes to Basic Financial Statements

Note 1. Summary of Significant Accounting Policies (Continued)

R. Fund Equity - Fund Financial Statements

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable Fund Balance Amounts that cannot be spent either because they
 are in nonspendable form or because they are legally or contractually required to
 be maintained intact.
- Restricted Fund Balance Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- Committed Fund Balance Amounts that can be used only for specific purposes determined by a formal action of the School Board members. The Board is the highest level of decision-making authority for the School Board. Commitments may be established, modified, or rescinded only through resolutions approved by Board members.
- Assigned Fund Balance Amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. Under the School Board's adopted policy, only Board members may assign amounts for specific purposes.
- Unassigned Fund Balance All other spendable amounts. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the School Board considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School Board considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board members have provided otherwise in their commitment or assignment actions. In the General Fund, the School Board maintains a committed fund balance in the amount of \$20,854,282 to maintain "AA" bond rating and for financial stability.

S. Claims and Judgments

The School Board provides for losses and anticipated expenses resulting from claims and judgments including claim adjustment expenses, salvage, and subrogation. Losses resulting from claims and judgments are estimated by utilizing a case-by-case review of all claims in accordance with Governmental Accounting Standards Board Codification Section C50. The liability for such losses is recorded in the internal service funds. Incurred but not reported claims as of June 30, 2020, have been considered in determining the accrued liability.

Notes to Basic Financial Statements

Note 2. Ad Valorem Taxes

The following is a summary of authorized and levied parish wide ad valorem taxes for the fiscal year ended June 30, 2020:

	Mills	Fiscal Year of Expiration
Constitutional	3.65	N/A
Additional Support	7.53	2023
Constructing, Maintaining, and Operating	3.30	2023
Improving, Maintaining, and Operating	34.03	2023
School Security	2.00	2029
Bond and Interest - District No. 12	13.90	N/A
Total Millage	64.41	

Note 3. Cash, Cash Equivalents, and Investments

Deposits

For reporting purposes, cash and cash equivalents include savings, demand deposits, time deposits, and certificates of deposit. Deposits in bank accounts are stated at cost, which approximates market. Further, the School Board may invest in time certificates of deposit in state banks organized under the laws of Louisiana, national banks having their principal office in the State of Louisiana, savings accounts or shares of savings and loan associations and savings banks, and share accounts and share certificate accounts of federally or state chartered credit unions. Cash balances of all funds are combined.

Interest earned on deposits is distributed to the individual funds based on the invested balances of the participating funds during the year. Interest is recorded when earned.

Under state law, the bank balances of these deposits must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal or exceed the amount on deposit with the fiscal agent. These pledged securities must be held in the name of the School Board or the pledging fiscal agent bank in a holding or custodial bank in the form of safekeeping receipts held by the state treasury.

Notes to Basic Financial Statements

Note 3. Cash, Cash Equivalents, and Investments (Continued)

Deposits (Continued)

At June 30, 2020, the School Board's carrying value of its deposits, excluding fiduciary cash balances and including restricted cash and cash equivalents, was \$269,211,801, and the bank balance was \$271,547,428. Of the bank balance, \$271,547,428 was covered by federal depository insurance or secured by bank owned securities specifically pledged to the School Board and held in joint custody by an independent custodian bank or trust department. Custodial risk is the risk that in the event of bank failure, the School Board's deposits may not be recovered. At June 30, 2020, none of the School Board's deposits were exposed to custodial credit risk as uninsured deposits were collateralized with securities held by a pledging bank's trust department, but not in the School Board's name.

Restricted cash and cash equivalents are reported on the statement of net position and governmental funds - balance sheet in the amount of \$59,982,488 for the year ended June 30, 2020. These restricted assets represent certain proceeds of bonds and loans including debt service funds of the School Board, and their use is limited by applicable bond/loan covenants and Louisiana Revised Statutes.

In addition, at June 30, 2020, the individual schools held cash, cash equivalents, and investments of \$8,526,202 in various accounts. The balances of these accounts are collateralized with either Federal Deposit Insurance Corporation (FDIC) insurance and/or pledged securities in the School Board's name. Because these accounts are not assets of the School Board but are agency funds, the balances are not reflected in the fund financial statements or the government-wide financial statements, but are reported in the statement of fiduciary assets and liabilities.

Investments

Cash balances of the School Board's funds are pooled and invested to the extent possible in authorized investments. Interest earned on invested cash is distributed to the various funds on the basis of actual invested cash balances of the participating funds during the year.

The School Board's investments in certificates of deposit are valued at cost, which closely approximates fair value. Investments in government-sponsored enterprises and U.S. Treasuries are reported at fair value.

Under state law, the School Board may invest in United States bonds, treasury notes and bills, or certificates and time deposits of state banks organized under Louisiana law, and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in the Louisiana Asset Management Pool (LAMP), a non-profit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool rated "AAA". Investments are stated at cost, which approximates fair value, and is the same as the value of the pool shares.

Notes to Basic Financial Statements

Note 3. Cash, Cash Equivalents, and Investments (Continued)

Investments (Continued)

Investments of \$950,000 in certificates of deposits and treasuries were held in the proprietary funds at June 30, 2020. Restricted investments of \$21,990,060 were reported on the statement of net position and governmental funds - balance sheet for the year ended June 30, 2020.

At June 30, 2020, the School Board's investments were as follows:

		r	/laturiti	es in Yea	rs			Reported Amount/
	Le	Less than One One to Five		Five to Ten		Fair Value		
Certificates of Deposits	\$	950,000	\$	-	\$	-	\$	950,000
US Treasuries		21,990,060		-		-		21,990,060
Total	\$	22,940,060	\$	_	\$	-	\$	22,940,060

Interest Rate Risk. Interest rate risk is the risk applicable to debt instruments with fair values that are sensitive to changes in interest rates. One indicator of the measurement of interest rate risk is the dispersion of maturity dates of debt instruments. The above table shows the School Board's investments and maturities in actively managed accounts at June 30, 2020. The School Board does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Custodial Credit Risk. The School Board has no investments that are exposed to custodial credit risk.

Credit Risk. State law limits investments to the following:

- 1. Direct United States Treasury obligations
- Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America
- 3. Bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by U.S. government instrumentalities, which are federally sponsored
- 4. Direct security repurchase agreements of any federal book-entry only securities
- 5. Time certificates of deposit of any bank domiciled or having a branch office in the State of Louisiana, savings accounts or shares of savings and loan associations and savings banks
- 6. Mutual or trust fund institutions which are registered with the Securities and Exchange Commission and which have underlying investments consisting solely of and limited to securities of the United States government or its agencies

Notes to Basic Financial Statements

Note 3. Cash, Cash Equivalents, and Investments (Continued)

Investments (Continued)

- 7. Guaranteed investment contracts issued by a bank, financial or insurance company, or other entity having one of the highest short-term rating categories of either Standard & Poor's Corporation or Moody's Investors Service
- 8. Investment grade commercial paper of domestic United States corporations
- 9. LAMP

The School Board's investment policy complies with state law and does not further limit its investment choices.

Concentration of Credit Risk. The School Board places no limit on the amount the School Board may invest in any one issuer. All School Board investments are certificates of deposit, government-sponsored enterprises, or U.S. Treasuries.

Fair Value Measurement

The School Board categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets that a government can access at the measurement date; Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset, either directly or indirectly; and Level 3 inputs are unobservable inputs for an asset.

The following table sets forth by level within the fair value hierarchy the School Board's assets at fair value as of June 30, 2020:

	Total at			Fair Va	r Value Measurement Using:					
June 30		ıne 30, 2020	30, 2020 Level 1			Level 2		Level 3		
US Treasuries	\$	21,990,060	\$	21,990,060	\$	-	\$	-		
Total	\$	21,990,060	\$	21,990,060	\$	-	\$	-		

The US Treasury securities of \$21,990,060 are valued using quoted market prices (Level 1 inputs).

Notes to Basic Financial Statements

Note 4. Interfund Receivables, Payables, and Transfers

As of June 30, 2020, individual balances due to/due from other funds were as follows:

Receivable Fund	able Fund Payable Fund		
General* Non-Major Governmental	Non-Major Governmental General*	\$ 5,181,066 15,554,866	
Total Governmental Funds		20,735,932	
Internal Service	General*	1,000,000	
Total		\$ 21,735,932	

^{*} Indicates major fund.

The School Board's lending/borrowing activities referred to as "due to/due from" are further explained in the Summary of Significant Accounting Policies (Note 1H).

The General Fund loaned money to various funds for the payment of expenditures prior to receipt of funds from federal, state, and local sources through reimbursement. All interfund lending was for normal operating activities.

For the year ended June 30, 2020, individual transfers were as follows:

			T	ransfers In	
			ı	Non-Major	
	(General* Governmental		Total	
Transfers Out

^{*} Indicates major fund.

The School Board transfers funds between funds as part of the normal operating of fund activity throughout the year to account for payment of expenditures and receipt of revenues. The General Fund transfers Minimum Foundation Program (MFP) monies to the School Food Service Fund and general revenues to the capital projects funds and to various other funds throughout the year as the budget prescribes. All other transfers were for normal operating activities.

Notes to Basic Financial Statements

Note 6. Risk Management

Workers' Compensation

The School Board has had a risk management program for workers' compensation since 1988. Premiums are paid into the Workers' Compensation Internal Service Fund by all funds from which salaries are paid, and are available to pay claims, claim reserves, and administrative costs of the program. During fiscal year 2020 a total of \$3,989,118 was incurred in benefits and administrative costs. The School Board is self-insured for up to \$1,000,000 per claim. However, an excess coverage insurance policy covers individual claims in excess of \$1,000,000.

An amount for self-insurance losses of \$4,469,244 has been accrued as a liability based upon an actuary's estimate as of June 30, 2020. Interfund premiums are based primarily upon the individual funds' claims experience and are reported as expenditures in the individual funds. There were no significant reductions in insurance coverage from the prior year.

Risk Management

The School Board is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and natural disasters. During fiscal year 1990, the School Board established a Risk Management Fund (an internal service fund) to account for and finance its uninsured risk of loss. Under this program, the Risk Management Fund provides coverage up to a maximum of \$250,000 for each general liability claim and \$1,000,000 for each property damage claim and \$5,000,000 for each property damage claim due to a named storm. The School Board purchases commercial insurance for claims in excess of coverage provided by the fund. In 2020, the School Board paid claims in the amount of \$523,511 in excess of the \$250,000 maximum. The General Fund makes payments to the Risk Management Fund based on estimates of the amounts needed to pay claims and to accumulate funds for future catastrophic losses. At June 30, 2020, \$3,746,381 of fund equity was available for future catastrophic losses. Claim liabilities were \$975,462, based on an actuary's estimate at June 30, 2020. There were no significant reductions in insurance coverage from the prior year.

Health/Life Insurance

In 2007, the School Board became self-insured for health care benefits offered to its employees and retirees. The plan is managed by a third-party administrator and excess cost coverage is purchased by the School Board to limit its liability.

The Health/Life Insurance Fund was closed in fiscal year 2013. The claims activity is accounted for in the General Fund.

The School Board continues to carry commercial insurance for all other risks of loss, including employee health and accident insurance. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage from the prior year.

Notes to Basic Financial Statements

Note 6. Risk Management (Continued)

Claims

Changes in the claims liability amount in the previous fiscal year and balances expected to be paid in the next year are as follows:

	Beginning Balance	Claims and Changes in Estimates	Payments and Claims	Ending Balance	_	ue Within One Year
Workers' Compensation						
2018-2019	5,892,424	2,393,559	3,492,976	4,793,007

Total					\$	9,328,116

Note 7. Changes in Long-Term Obligations

The following is a summary of the long-term obligation transactions for the year ended June 30, 2020:

	Balance June 30, 2019	Additions	Deductions	Balance June 30, 2020	Due Within One Year
General Obligation Bonds	\$ 234,795,000	\$ 40,620,000	\$ (26,085,000)	\$ 249,330,000	\$ 21,160,000
Capital Lease	960,852	-	(151,178)	809,674	154,655
Unamortized Premium	22,517,205	2,844,553	(2,083,984)	23,277,774	-
Unamortized Discount	(595,781)	(33,720)	50,545	(578,956)	-
Qualified School Construction Bonds	2,000,000	-	(333,333)	1,666,667	333,333
Compensated Absences	18,314,045	15,134,585	(12,245,404)	21,203,226	12,245,404
Total Long-Term Liabilities	\$ 277,991,321	\$ 58,565,418	\$ (40,848,354)	\$ 295,708,385	\$ 33,893,392

In July 2008, the School Board was authorized to issue \$67,000,000 in general obligation bonds with a final maturity date of March 1, 2028. These bonds were the first installment issue of the total \$167,000,000 approved by the citizens of St. Tammany Parish via the election on March 8, 2008. The bond proceeds were to be used to finance \$15,000,000 in technology, \$2,100,000 in security cameras, and \$149,900,000 in capital improvements for new construction and improvements to existing facilities. In June 2008, the School Board received a good faith deposit for this bond issue in the amount of \$670,000 which was included in bonds payable in the financial statements for the year ended June 30, 2008. The remaining bond proceeds of \$66,330,000 were received in July 2008.

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

In December 2009, the School Board was authorized to issue \$5,000,000 in Qualified School Construction Bonds with a final maturity of December 16, 2024. The Department of Education gave the School Board a \$5,000,000 allocation of the national qualified school construction bonds. These bond proceeds will be used for construction, rehabilitation, and repair of schools.

In October 2010, the School Board was authorized to issue \$20,000,000 in general obligation bonds with a final maturity date of March 1, 2030. These bonds are the fourth installment issue of the total \$167,000,000 issue. The bond proceeds were received in January 2011.

In June 2011, the School Board was authorized to issue \$10,000,000 in general obligation bonds with a final maturity date of April 1, 2031. These bonds are the fifth installment issue of the total \$167,000,000 issue. The bond proceeds were received in August 2011.

In April 2012, the School Board approved the redemption of the 2002 bonds in the amount of \$8,345,000. Excess cash in the debt service fund was utilized for this redemption.

In April 2012, the School Board issued \$9,330,000 in general obligation bonds (2012 Issue) with a final maturity date of April 1, 2016. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund the remainder of the 2002 bonds in the amount of \$9,345,000. The interest rate for the 2012 bonds ranges from 1.33% to 1.34%. The interest rate on the 2002 bonds ranged from 4.00% to 5.00%. The \$9,345,000 is considered defeased.

By redeeming \$8,345,000 and refunding \$9,345,000 of the 2002 bonds, the School Board will save approximately \$3.2 million in future interest and principal payments, resulting in an economic gain of approximately \$2.4 million.

In May 2012, the School Board issued \$18,900,000 in general obligation bonds (2012A Issue) with a final maturity date of March 1, 2024. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund the remainder of the 2004 bonds in the amount of \$18,975,000. The interest rate for the 2012A bonds ranges from 3.00% to 5.00%. The interest rate on the 2004 bonds ranged from 4.00% to 4.875%. The \$18,975,000 is considered defeased.

By refunding \$18,975,000 of the 2004 bonds, the School Board will save approximately \$1.2 million in future interest and principal payments, resulting in an economic gain of approximately \$1.0 million.

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

In March 2013, the School Board issued \$18,030,000 in general obligation bonds (2013 Issue) with a final maturity date of March 1, 2025. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund \$18,850,000 of the 2005 bonds. The interest rate for the 2013 bonds ranges from 3.0% to 5.0%. The interest rate on the 2005 bonds ranged from 3.25% to 5.0%. The \$18,850,000 is considered defeased.

By refunding \$18,850,000 of the 2005 bonds, the School Board will save approximately \$1.2 million in future interest and principal payments, resulting in an economic gain of approximately \$1.1 million.

On August 20, 2013, the School Board issued \$20,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2013 Series is the first issue under the \$135,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2013. The interest rate on the bonds varies from 3.0% to 5.0%, and the maturity date is April 1, 2033.

In March 2014, the School Board issued \$12,090,000 in refunding bonds (2014 Issue) with a final maturity date of March 1, 2026. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund \$12,500,000 of the 2006 bonds. Interest rate for the 2014 bonds ranges from 3.0% to 5.0%. The interest rate on the 2006 bonds ranged from 3.25% to 5.0%. The \$12,500,000 is considered defeased.

By refunding \$12,500,000 of the 2006 bonds, the School Board's net savings is approximately \$504,361. The present value of net savings is approximately \$424,618.

On November 25, 2014, the School Board issued \$30,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2014 Series is the second issue under the \$135,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2013.

The interest rate on the bonds varies from 2.0% to 5.0%, and the maturity date is March 1, 2034.

In March 2015, the School Board issued \$34,765,000 in refunding bonds (2015 Issue) with a final maturity date of March 1, 2028. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund \$37,100,000 of the 2008 bonds. The interest rate for the 2015 bonds ranges from 1.5% to 5.0%. The interest rate on the 2008 bonds ranged from 4.75% to 5.0%. The \$37,100,000 is considered defeased.

By refunding \$37,100,000 of the 2008 bonds, the School Board will save approximately \$2.9 million in future interest and principal payments, resulting in an economic gain of approximately \$2.7 million.

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

In March 2015, the School Board issued \$30,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2015 Series is the third issue under the \$135,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2013. The interest rate on the bonds varies from 2.0% to 4.5%, and the maturity date is March 1, 2035.

On August 10, 2016, the School Board issued \$9,890,000 in general obligation refunding bonds. The bond proceeds less the issuance costs were deposited into an irrevocable trust to be used to refund \$10,000,000 of the callable Series 2009 general obligation bonds maturing March 1, 2020 to March 1, 2029. The interest rate on the bonds varies from 2.00% to 4.00%, and the maturity date is March 1, 2029. The \$10,000,000 is considered defeased.

By refunding \$10,000,000 of the 2009 bonds, the School Board will save approximately \$870,000 in future interest and principal payments, resulting in an economic gain of approximately \$600,000.

On September 28, 2016, the School Board issued \$30,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2016 Series is the fourth issue under the \$135,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2013. The interest rate on the bonds varies from 2.25% to 5.00%, and the maturity date is March 1, 2036.

In July 2017, the School Board issued \$12,175,000 in general obligation refunding bonds. The bonds were issued for the purpose of refunding the callable maturities of the general obligation Series 2010 bonds dated May 1, 2010 and maturing March 1, 2021 to March 1, 2030. The interest rates on the bonds vary from 2.625% to 5.0%, and the maturity date is March 1, 2030.

By refunding \$12,500,000 of the 2010 bonds, the School Board will save approximately \$951,628. The present value of net savings is approximately \$806,660.

In August 2017, the School Board issued \$9,155,000 in general obligation refunding bonds. The bonds were issued for the purpose of refunding the callable maturities of the general obligation Series 2011 bonds dated January 1, 2011 and maturing March 1, 2022 to March 1, 2030. The interest rates on the bonds vary from 3.0% to 5.0%, and the maturity date is March 1, 2030.

By refunding \$9,495,000 of the 2011 bonds, the School Board will save approximately \$559,966. The present value of net savings is approximately \$463,295.

In August 2017, the School Board issued \$25,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2017 Series is the fifth issue under the \$135,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2013. The interest rates on the bonds vary from 2.0% to 5.0%, and the maturity date is March 1, 2037.

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

In November 2017, the School Board issued \$25,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. These bonds are the sixth installment issue of the total \$167,000,000 approved by the citizens of St. Tammany Parish via the election on March 8, 2008. The interest rates on the bonds vary from 2.0% to 5.0%, and the maturity date is March 1, 2037.

In July 2019, the School Board issued \$35,000,000 in general obligation bonds to fund various capital projects. The bonds are secured by and payable from ad valorem taxes. This 2019 Series is the first issue under the \$175,000,000 in general obligation bonds authorized at an election held in the Parish on May 4, 2019. The interest rate on the bonds varies from 2.625% to 5.00%, and the maturity date is March 1, 2039.

In December 2019, the School Board issued \$5,620,000 in general obligation refunding bonds. The bonds were issued for the purpose of refunding the callable maturities of the general obligation Series 2011A bonds dated August 1, 2011 and maturing April 1, 2022 to April 1, 2031. The interest rates on the bonds vary from 1.95% to 2.85%, and the maturity date is April 1, 2031.

By refunding \$5,275,000 of the 2011A bonds, the School Board will save approximately \$227,352. The present value of net savings is approximately \$195,338.

A schedule of the individual issues outstanding as of June 30, 2020 is as follows:

	Original Issue	Interest Rate	Payment Due	Interest to Maturity	Principal Outstanding
General Obligation Bonds:					
2011	\$ 20,000,000	2.0-4.75%	2011-2030	\$ 42,200	\$ 1,055,000
2011A	10,000,000	2.0-4.125%	2013-2031	15,750	525,000
2012A Refunding	18,900,000	3.0-4.50%	2014-2024	852,100	8,555,000
2013A	20,000,000	3.0-5.0%	2014-2033	3,828,750	13,000,000
2013 Refunding	18,030,000	3.0-5.0%	2013-2025	1,219,700	10,210,000
2014 Refunding	12,090,000	3.0-5.0%	2017-2026	1,077,100	7,255,000
2014	30,000,000	2.0-5.0%	2015-2034	5,615,625	21,000,000
2015 Refunding	34,765,000	1.5-5.0%	2019-2028	6,828,250	29,120,000
2015	30,000,000	2.0-5.0%	2016-2035	7,335,000	22,500,000
2016 Refunding	9,890,000	2.0-4.0%	2018-2029	1,538,850	8,820,000
2016	30,000,000	2.25-5.0%	2017-2036	6,288,750	24,000,000

50

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

All principal and interest requirements on the general obligation bonds are funded in accordance with Louisiana law by the annual ad valorem tax levy on taxable property within the Parish. The Qualified School Construction Bonds are to be repaid from constitutional ad valorem tax revenues in the General Fund. At June 30, 2020, the School Board has accumulated \$29,610,145 in the General Obligation Bonds Debt Service Fund for future debt service requirements.

The general obligation and Qualified School Construction Bonds are due as follows:

Year Ending June 30,	Principal Payments	Interest Payments	Total
2021	\$ 21,493,333	\$ 10,239,885	\$ 31,733,218
2022	21,813,334	9,339,165	31,152,499
2023	22,208,333	8,414,065	30,622,398
2024	22,593,333	7,505,895	30,099,228
2025	20,673,334	6,468,745	27,142,079
2026-2030	79,175,000	19,875,201	99,050,201
2031-2035	46,980,000	7,452,465	54,432,465
2035-2039	16,060,000	1,057,987	17,117,987
Total	\$ 250,996,667	\$ 70,353,408	\$ 321,350,075

In accordance with R.S. 39:562, the School Board is legally restricted from incurring long-term bonded debt funded solely by ad valorem taxes in excess of 35% of the assessed value of taxable property. At June 30, 2020, the statutory limit is \$931,714,217 and the legal debt margin is \$708,601,747. Outstanding bonded debt payable from ad valorem taxes at June 30, 2020 totaled \$249,330,000.

Capital Lease

In October 2015, the School Board leased 20 school buses for \$1,567,575 used in its operation under an agreement that is classified as a capital lease. The lease agreement expires on October 30, 2024. The interest rate on the lease is 2.3%. The following is an analysis of the leased buses under capital lease as of June 30, 2020:

Net Equipment Under Capital Lease	\$ 78,350
Less: Accumulated Depreciation	(1,489,225)
Equipment Under Capital Lease Furniture and Equipment	\$ 1,567,575

51

Notes to Basic Financial Statements

Note 7. Changes in Long-Term Obligations (Continued)

Capital Lease (Continued)

Future minimum lease payments for all capital lease obligations are as follows as of June 30, 2020:

Year Ending June 30,	Total		
2021	\$	173,278	
2022		173,278	
2023		173,278	
2024		173,278	
2025		173,278	
Total Future Minimum Lease Payments		866,390	
Less Amount Representing Interest		(56,716)	
Present Value of Future Minimum Lease Payments		809,674	
Less Current Principal Obligation		(154,655)	
Total	\$	655,019	

Note 8. Defeased Debt

The School Board defeased the general obligation bonds listed in the table below. An irrevocable trust fund was created for each defeasance. New debt was issued and the proceeds were used to purchase U.S. Government Securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt is considered defeased and, therefore, removed as a liability of the School Board.

Notes to Basic Financial Statements

Note 8. Defeased Debt (Continued)

As of June 30, 2020, the following outstanding bonds are considered defeased:

			0	utstanding	Defeasance	Maturity Date
Ge	neral Obligat	ion Bonds:				
\$	30,000,000	2004 Series	\$	8,745,000	May 1, 2012	March 1, 2024
\$	18,850,000	2005 Series		10,655,000	March 14, 2013	March 1, 2025
\$	12,500,000	2006 Series		7,500,000	March 13, 2014	March 1, 2026
\$	67,000,000	2008 Series		31,020,000	March 24, 2015	March 1, 2028
\$	20,000,000	2009 Series		9,000,000	July 12, 2016	March 1, 2029
\$	20,000,000	2010 Series		12,500,000	July 27, 2017	March 1, 2030
\$	20,000,000	2011 Series		9,495,000	September 6, 2017	March 1, 2030
\$	10,000,000	2011A Series		5,275,000	December 11, 2019	April 1, 2031
			\$	94,190,000		

Note 9. Tax Arbitrage Rebate

Under the Tax Reform Act of 1986, interest earned on debt proceeds in excess of interest expense prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). For fiscal year 2020, no arbitrage was due to the IRS.

Note 10. Retirement Plans

Plan Descriptions

Substantially all employees of the School Board are provided with pensions through costsharing multiple-employer defined benefit pension plans administered by the Teachers' Retirement System of Louisiana (TRSL), Louisiana School Employees' Retirement System (LSERS), or Louisiana State Employees' Retirement System (LASERS). The authority to establish and amend the benefit terms of TRSL, LSERS, and LASERS was granted to the respective Board of Trustees and the Louisiana Legislature by Title 11 of the Louisiana Revised Statutes. TRSL, LSERS, and LASERS each issue publicly available financial reports that can be obtained at www.trsl.org, www.lsers.net, and www.lasersonline.org, respectively.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided

Teachers' Retirement System of Louisiana (TRSL)

TRSL provides retirement, deferred retirement option (DROP), disability, and survivor benefits through three membership plans.

Regular Plan

Eligibility for retirement is determined by the date the member joined TRSL.

Members hired prior to July 1, 1999:

Benefit factor	2.0%
Eligibility	At least age 60 with at least 5 years of service credit, or
	Any age with at least 20 years of service credit

Benefit factor	2.5%
Eligibility	At least age 65 with at least 20 years of service credit, or
	At least age 55 with at least 25 years of service credit, or
	Any age with at least 30 years of service credit

Members joining TRSL between to July 1, 1999 and December 31, 2010:

Benefit factor	2.5%
Eligibility	At least age 60 with at least 5 years of service credit, or
	At least age 55 with at least 25 years of service credit, or
	Any age with at least 20 years of service credit (actuarially
	reduced), or
	Any age with at least 30 years of service credit

Members first eligible to join TRSL and hired between to January 1, 2011 and June 30, 2015:

Benefit factor	2.5%
Eligibility	At least age 60 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

Members first eligible to join TRSL and hired on or after July 1, 2015:

Benefit factor	2.5%
Eligibility	At least age 62 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

Plan A

Plan A is closed to new entrants.

Plan A members of TRSL:

Benefit factor	3.0%
Eligibility	At least age 60 with at least 5 years of service credit, or
	At least age 55 with at least 25 years of service credit, or
	Any age with at least 30 years of service credit

Plan B

Members of TRSL hired before July 1, 2015:

Benefit factor	2.0%
Eligibility	At least age 60 with at least 5 years of service credit, or
	At least age 55 with at least 30 years of service credit

Members first eligible to join TRSL and hired on or after July 1, 2015:

Benefit factor	2.0%
Eligibility	At least age 62 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially
	reduced)

For all plans, retirement benefits are based on a formula which multiplies the final average compensation by the applicable benefit factor, and by the years of creditable service. For Regular Plan and Lunch Plan B members whose first employment makes them eligible for membership in a Louisiana state retirement system on or after January 1, 2011, final average compensation is defined as the highest average 60-month period. For all other members, final average compensation is defined as the highest average 36-month period.

A retiring member is entitled to receive the maximum monthly benefit payable until the member's death. In lieu of the maximum monthly benefit, the member can elect to receive a reduced monthly benefit payable in the form of a Joint and Survivor Option, or a monthly benefit (maximum or reduced Joint and Survivor Option) with a lump sum that can't exceed 36 months of the members' maximum monthly benefit amount.

Effective July 1, 2009, members can make an irrevocable election at retirement to receive an actuarially reduced monthly benefit which increases 2.5% annually, beginning on the first retirement anniversary date, but not before age 55 or before the retiree would have attained age 55 in the case of a surviving spouse. This option can be chosen in combination with the above options.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

In lieu of terminating employment and accepting a service retirement, an eligible member can begin participation in the Deferred Retirement Option Program (DROP) on the first retirement eligibility date for a period not to exceed three years. A member has a 60 day window from his first eligible date to participate in the program in order to participate for the maximum number of years. Delayed participation reduces the three year maximum participation period. During participation, benefits otherwise payable are fixed, and deposited in an individual DROP account.

Upon termination of DROP, the member can continue employment and earn additional benefit accruals to be added to the fixed pre-DROP benefit. Upon termination of employment, the member is entitled to the fixed benefit, an additional benefit based on post-DROP service (if any), and the individual DROP account balance which can be paid in a lump sum or an additional annuity based upon the account balance.

Disability benefits are available for active members whose first employment makes them eligible for membership in a Louisiana state retirement system before January 1, 2011, and who have five or more years of service credit are eligible for disability retirement benefits if certified by the State Medical Disability Board (SMDB) to be disabled from performing their job. All other members must have at least 10 years of service to be eligible for a disability benefit. Calculation of the disability benefit as well as the availability of a minor child benefit is determined by the plan to which the member belongs and the date on which the member's first employment made them eligible for membership in a Louisiana state retirement system.

Survivor benefits are available for a surviving spouse with minor children of an active member with five years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) 50% of the member's benefit calculated at the 2.5% accrual rate for all creditable service. When a minor child(ren) is no longer eligible to receive survivor benefits, the spouse's benefit reverts to a survivor benefit in accordance with the provisions for a surviving spouse with no minor child(ren). Benefits for the minor child(ren) cease when he/she is no longer eligible.

Each minor child (maximum of 2) shall receive an amount equal to the greater of (a) 50% of the spouse's benefit, or (b) \$300 (up to 2 eligible children). Benefits to minors cease at attainment of age 21, marriage, or age 23 if enrolled in an approved institution of higher education.

A surviving spouse without minor children of an active member with 10 years of creditable service (2 years immediately prior to death) or 20 years of creditable service is entitled to a benefit equal to the greater of (a) \$600 per month, or (b) the option 2 equivalent of the benefit calculated at the 2.5% benefit factor for all creditable service.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

The Optional Retirement Plan (ORP) was established for academic employees of public institutions of higher education who are eligible for membership in TRSL. This plan was designed to provide certain academic and unclassified employees of public institutions of higher education an optional method of funding for their retirement.

The ORP is a defined contribution pension plan which provides for portability of assets and full and immediate vesting of all contributions submitted on behalf of the affected employees to the approved providers. These providers are selected by the TRSL Board of Trustees.

Monthly employer and employee contributions are invested as directed by the employee to provide the employee with future retirement benefits. The amount of these benefits is entirely dependent upon the total contributions and investment returns accumulated during the employee's working lifetime. Employees in eligible positions of higher education can make an irrevocable election to participate in the ORP rather than TRSL and purchase annuity contracts (fixed, variable or both) for benefits payable at retirement.

As fully described in Title 11 of the Louisiana Revised Statutes, TRSL allows for the payment of ad hoc permanent benefit increases, also known as cost-of-living adjustments that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Louisiana School Employees' Retirement System (LSERS)

LSERS provides retirement, deferred retirement option (DROP), disability benefits, and survivor's benefits. Membership is mandatory for all persons employed by a Louisiana parish or city school board who work more than 20 hours per week (or for part-time employees who have 10 years of creditable service in LSERS) as a school bus operator, school janitor, school custodian, school maintenance employee, school bus aide, monitor or attendant, or any other regular school employee who actually works on a school bus helping with the transportation of schoolchildren.

Members hired prior to July 1, 2010:

Benefit factor	3.33% if hired prior to July 1, 2006
	2.50% if hired between to July 1, 2006 and June 30, 2010
Average compensation	Based on highest successive 36 months of earnings if hired
	prior to July 1, 2006 (10% salary limit)
	Based on highest successive 60 months of earnings if hired
	between to July 1, 2006 and June 30, 2010 (10% salary limit)
Eligibility	At least age 60 with at least 10 years of service credit, or
	At least age 55 with at least 25 years of service credit, or
	Any age with at least 20 years of service credit (actuarially
	reduced)
	Any age with at least 30 years of service credit

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

Members first eligible to join LSERS and hired between to July 1, 2010 and June 30, 2015:

Benefit factor	2.50%
Average compensation	Based on highest successive 60 months of earnings (15% salary limit)
Eligibility	At least age 60 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

Members first eligible to join LSERS and hired on or after July 1, 2015:

Benefit factor	2.50%
Average compensation	Based on highest successive 60 months of earnings (15% salary limit)
Eligibility	At least age 62 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

The supplemental allowance was eliminated for members entering LSERS on or after July 1, 1986. Effective January 1, 1992, the supplemental allowance was reinstated to all members whose service retirement became effective after July 1, 1971.

A member of LSERS is eligible to retire and receive disability benefits if he has at least five years of creditable service, is not eligible for normal retirement and has become totally and permanently disabled and is certified as disabled by the Medical Board. A vested person with twenty or more years of creditable service, who has withdrawn from active service prior to the age at which he is eligible for retirement benefits, is eligible for a disability benefit until normal retirement age. A member who joins LSERS on or after July 1, 2006, must have at least ten years of service to qualify for disability benefits.

Upon the death of a member with five or more years of creditable service, LSERS provides benefits for surviving spouses and minor children. Under certain conditions outlined in the statutes, a spouse is entitled to 75% of the member's benefit.

Members of LSERS may elect to participate in the Deferred Retirement Option Plan (DROP) and defer the receipt of benefits. The election may be made only one time and the duration is limited to three years. Once an option has been selected, no change is permitted. Upon the effective date of the commencement of participation in the DROP Plan, active membership in the regular retirement plan of LSERS terminates. Average compensation and creditable service remain as they existed on the effective date of commencement of participation in LSERS. The monthly retirement benefits, that would have been payable had the person elected to cease employment and receive a service retirement allowance, are paid into the Deferred Retirement Option Plan Fund Account.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

LSERS maintains subaccounts within this account reflecting the credits attributed to each participant in the DROP program. Interest credited and payments from the DROP account are made in accordance with Louisiana Revised Statutes 11:1152(F)(3). Upon termination of participation in both the DROP program and employment, a participant may receive his DROP monies either in a lump sum payment from the account or systematic disbursements in a manner approved by the board.

LSERS also provides for deferred benefits for vested members who terminate before being eligible for retirement. Once the member reaches the appropriate age for retirement, benefits become payable.

Effective January 1, 1996, the state legislature authorized LSERS to establish an Initial Benefit Retirement Plan (IBRP) program. IBRP is available to members who have not participated in DROP and who select certain benefit options. Thereafter, these members are ineligible to participate in the DROP. The IBRP program provides both a one-time single sum payment of up to 36 months of a regular monthly retirement benefit, plus a reduced monthly retirement benefit for life. Interest credited and payments from IBRP account are made in accordance with R.S. 11:1152(F)(3).

Louisiana State Employees' Retirement System (LASERS)

LASERS provides retirement, deferred retirement option (DROP), disability, and survivor's benefits. The age and years of creditable service required in order for a member to retire with full benefits vary depending on the member's hire date, employer, and job classification.

Members hired prior to July 1, 2006:

Benefit factor	2.5%
Average compensation	Based on highest successive 36 months of earnings
Eligibility	At least age 60 with at least 10 years of service credit, or At least age 55 with at least 25 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced) Any age with at least 30 years of service credit

Members first eligible to join LASERS and hired between to July 1, 2006 and June 30, 2015:

Benefit factor	2.5%
Average compensation	Based on highest successive 60 months of earnings
Eligibility	At least age 60 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

59

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

Members first eligible to join LASERS and hired on or after July 1, 2015:

Benefit factor	2.5%
Average compensation	Based on highest successive 60 months of earnings
Eligibility	At least age 62 with at least 5 years of service credit, or
	Any age with at least 20 years of service credit (actuarially
	reduced)

The maximum annual retirement benefit cannot exceed the lesser of 100% of average compensation or a certain specified dollar amount of actuarially determined monetary limits, which vary depending upon the member's age at retirement. Judges, court officers, and certain elected officials receive an additional annual retirement benefit equal to 1.0% of average compensation multiplied by the number of years of creditable service in their respective capacity. As an alternative to the basic retirement benefits, a member may elect to receive their retirement throughout their life, with certain benefits being paid to their designated beneficiary after their death.

Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011. This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges.

Regular members and judges:

Benefit factor	Regular Plan - 2.5%, Judges - 3.5% with the extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992.
Average compensation	Based on highest successive 60 months of earnings
Eligibility	At least age 60 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

Hazardous duty members:

Benefit factor	3.33%
Average compensation	Based on highest successive 60 months of earnings
Eligibility	At least age 55 with at least 12 years of service credit, or Any age with at least 25 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

60

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the hazardous duty plan.

Act 226 of the 2014 Louisiana Regular Legislative Session established new retirement eligibility for members of LASERS hired on or after July 1, 2015, excluding hazardous duty plan members.

Regular members and judges under the new plan:

Benefit factor	Regular Plan - 2.5%, Judges - 3.5% with the extra 1.0% accrual rate based on all years of service as a judge.
Average compensation	Based on highest successive 60 months of earnings
Eligibility	At least age 62 with at least 5 years of service credit, or Any age with at least 20 years of service credit (actuarially reduced)

A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement for benefits varies depending upon the member's employer and service classification.

The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When a member enters DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than LASERS' realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends.

At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third-party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Benefits Provided (Continued)

Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than LASERS' realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

Active members with ten or more years of credited service who become disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees.

Certain eligible surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased Regular member hired before January 1, 2011 who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child. The deceased regular member hired on or after January 1, 2011, must have a minimum of five years of service credit regardless of when earned in order for a benefit to be paid to a minor child. The aforementioned minimum service credit requirements for a surviving spouse are 10 years, 2 years being earned immediately prior to death, and active state service at the time of death, or a minimum of 20 years of service credit regardless of when earned. A deceased member's spouse must have been married for at least one year before death.

As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of permanent benefit increases, also known as cost-of-living adjustments, that are funded through investment earnings when recommended by the Board of Trustees and approved by the State Legislature.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Contributions

Teachers' Retirement System of Louisiana (TRSL)

Contribution requirements of active employees are governed by Section 101-104 of Title 11 of the Louisiana Revised Statutes (R.S. 11:101-11:104) and may be amended by the Louisiana Legislature. Substantially all of the School Board employees participating in TRSL are included in the Regular Plan. Members are required by state statute to contribute 8.0% of their annual covered salaries and the School Board is required to make employer contributions based on an actuarially determined rate. The employer contribution rate for the fiscal year ended June 30, 2020 was 26.0% of annual covered payroll. The School Board's contributions paid to TRSL for the year ended June 30, 2020 was \$55,415,162.

Louisiana School Employees' Retirement System (LSERS)

Contribution requirements of active employees are governed by Act 81 of 1988 and may be amended by the Louisiana Legislature. Members are required by state statute to contribute 7.5% of their annual covered salaries if hired before July 1, 2010 (closed plan) and 8.0% of their annual covered salaries if hired on or after July 1, 2010, and the School Board is required to make employer contributions based on an actuarially determined rate. The employer contribution rate for the fiscal year ended June 30, 2020 was 29.4% of annual covered payroll. The School Board's contributions paid to LSERS for the year ended June 30, 2020 was \$7,556,167.

Louisiana State Employees' Retirement System (LASERS)

Contribution requirements of active employees are governed by Section 401 of Title 11 of the Louisiana Revised Statutes (R.S. 11:401) and may be amended by the Louisiana Legislature. Substantially all of the School Board employees participating in LASERS are included in the Regular Plan. Members are required by state statute to contribute 7.5% of their annual covered salaries if hired before July 1, 2006 (closed plan) and 8.0% of their annual covered salaries if hired after July 1, 2006, and the School Board is required to make employer contributions based on an actuarially determined rate. The employer contribution rate for the fiscal year ended June 30, 2020 was 40.70% of annual covered payroll. The School Board's contributions paid to LASERS for the year ended June 30, 2020 was \$227,511.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The following table reflects the School Board's reported net pension liability, pension expense, proportion share of the net pension liability and changes in proportion as of June 30, 2020.

	TRSL	LSERS	LASERS	Total
Net Pension Liability	\$ 455,860,011	\$ 59,743,180	\$ 2,160,288	\$ 517,763,479
Pension Expense	\$ 46,003,831	\$ 10,144,541	\$ 511,032	\$ 56,659,404
Proportion of Net Pension Liability	4.59%	8.53%	0.03%	
Change in Proportion Increase (Decrease)	(0.06%)	0.05%	0.01%	

The net pension liabilities were measured as of June 30, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The School Board's proportion of the net pension liability for TRSL and LASERS was based on a projection of the School Board's projected contribution effort to the pension plan relative to the projected contribution effort of all participating employers, actuarially determined. The School Board's proportion of the net pension liability of LSERS was based on the School Board's historical contributions.

At June 30, 2020, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for its participation in TRSL:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between Expected and Actual Experience	\$	-	\$	14,245,782
Changes of Assumptions	32	2,407,987		-
Net Difference between Projected and Actual Earnings on Pension Plan Investments		-		16,871,857
Changes in Proportion and Differences between Employer and Non-Employer Contributions and Proportionate Share of Contributions	;	3,920,464		6,973,543
Employer Contributions Subsequent to the Measurement Date	5	5,415,162		
Total	\$ 9 [.]	1,743,613	\$	38,091,182

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

At June 30, 2020, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for its participation in LSERS:

	Deferred Outflows of Resources		ı	Deferred nflows of esources
Differences between Expected and Actual Experience	\$	-	\$	1,489,080
Changes of Assumptions		1,731,998		-
Net Difference between Projected and Actual Earnings on Pension Plan Investments		2,298,349		-
Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions		480,866		52,743
Employer Contributions Subsequent to the Measurement Date		7,556,167		-
Total	\$	12,067,380	\$	1,541,823

At June 30, 2020, the School Board reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources for its participation in LASERS:

	Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between Expected and Actual Experience	\$	13,265	\$	4,489
Changes of Assumptions		18,512		-
Net Difference between Projected and Actual Earnings on Pension Plan Investments		74,635		-
Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions		205,103		-
Employer Contributions Subsequent to the Measurement Date		227,511		
Total	\$	539,026	\$	4,489

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

Deferred outflows of resources related to pensions resulting from employer contributions subsequent to the measurement date for TRSL, LSERS, and LASERS of \$55,415,162, \$7,556,167, and \$227,511, respectively, will be recognized as a reduction of the net pension liability during the year ended June 30, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (benefit) as follows:

Year Ending				
June 30,	TRSL	LSERS		LASERS
2020	\$ 1,456,589	\$ 2,090,508	\$	280,237
2021	(9,030,187)	(951,223)		(21,721)
2022	2,176,265	1,047,631		20,534
2023	 3,634,602	782,474		27,976
Total	\$ (1,762,731)	\$ 2,969,390	\$	307,026

Actuarial Assumptions

The total pension liability in the June 30, 2019 actuarial valuations for TRSL, LSERS, and LASERS were determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Assumptions	TRSL	LSERS	LASERS
Inflation	2.50%	2.50%	2.50%
Salary Increases	3.30% - 4.80%	3.25%	2.80% - 14.00%
Investment Rate of Return (Net of Investment Expense)	7.55%*	7.00%*	7.60%*
Dates of Experience Study	2013 - 2017	2013 - 2017	2014 - 2018
Mortality Rates	RP-2014 Sex Distinct Mortality Table	RP-2014 Sex Distinct Mortality Table	RP-2014 Combined Healthy Mortality Table
inortainty reactor	RP-2014 Disabled Lives Mortality Table	RP-2014 Disabled Lives Mortality Table	RP-2000 Disabled Retiree Table

^{*}Net of Investment Expense

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Actuarial Assumptions

The long-term expected rate of return on pension plan investments of TRSL and LASERS were determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

The long-term expected rate of return on pension plan investments of LSERS was determined using a triangulation method which integrated the CAPM pricing model (top-down), a treasury yield curve approach (bottom-up) and an equity building-block model (bottom-up). Risk return and correlations are projected on a forward looking basis in equilibrium, in which best-estimates of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and expected real rates of return of TRSL, LSERS, and LASERS for each major asset class of as of June 30, 2019 are summarized in the following tables:

Teachers' Retirement System of Louisiana (TRSL):

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Domestic Equity	27.0%	4.60%
International Equity	19.0%	5.70%
Domestic Fixed Income	13.0%	1.69%
International Fixed Income	5.5%	2.10%
Private Equity	25.5%	8.67%
Other Private Assets	10.0%	3.65%
Total	100.0%	

67

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Actuarial Assumptions (Continued)

Louisiana School Employees' Retirement System (LSERS):

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Arithmetic)
Fixed Income	26.0%	1.07%
Equity	39.0%	2.93%
Alternative	17.0%	1.43%
Real Estate	12.0%	0.73%
Real Assets	6.0%	0.60%
Total	100%	

Louisiana State Employees' Retirement System (LASERS):

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return (Geometric)
Cash	0.0%	0.24%
Domestic Equity	23.0%	4.83%
International Equity	32.0%	5.83%
Domestic Fixed Income	6.0%	2.79%
International Fixed Income	10.0%	4.49%
Alternative Investments	22.0%	8.32%
Risk Parity	7.0%	5.06%
Total	100%	

Discount Rate

The discount rate used to measure the total pension liability of TRSL, LSERS, and LASERS was 7.55%, 7.00%, and 7.60%, respectively. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that employer contributions from participating employers will be made at contractually required rates, approved by PRSAC, taking into consideration the recommendation of the actuary. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Notes to Basic Financial Statements

Note 10. Retirement Plans (Continued)

Sensitivity of the School Board's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School Board's proportionate share of the net pension liability of TRSL, LSERS, and LASERS as of June 30, 2020 using the current discount rate of 7.55%, 7.00%, and 7.60%, respectively, as well as what the School Board's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower or one percentage-point higher than the current rate:

		Current	
	1.0% Decrease	Discount Rate	1.0% Increase
Teachers' Retirement System of Louisiana	\$ 606,814,906	\$ 455,860,011	\$ 328,628,083
Louisiana School Employees' Retirement System	80,963,980	59,743,180	41,602,370
Louisiana State Employees' Retirement System	2,726,559	2,160,288	1,681,979

Support of Non-Employer Contributing Entities

Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. The School Board recognizes revenue in an amount equal to their proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended June 30, 2020, the School Board recognized revenue as a result of support received from non-employer contributing entities of \$1,876,330 for its participation in TRSL. LSERS and LASERS do not receive support from non-employer contributing entities and as a result no revenue was recorded for the participation in LSERS or LASERS for the year ended June 30, 2020.

Pension Plan Fiduciary Net Position

Detailed information about the pension plans fiduciary net position is available in the separately issued financial reports for TRSL, LSERS, and LASERS and can be obtained on the plan's respective website or on the Louisiana Legislative Auditor's website: www.lla.la.gov.

Payables to the Pension Plans

At June 30, 2020, the School Board reported a payable of \$12,001,652, \$1,164,997, and \$39,877 for the outstanding amount of contributions due to TRSL, LSERS, and LASERS, respectively.

Notes to Basic Financial Statements

Note 11. Changes in Agency Deposits Due to Others

A summary of changes in the School Activity Agency Fund's deposits due to others is as follows:

Balance, End of Year	\$ 8,275,831
Deductions	 (10,269,812)
Additions	10,938,885
Balance, Beginning of Year	\$ 7,606,758

Note 12. Litigation and Claims

At June 30, 2020, the School Board was a defendant in lawsuits principally arising from the normal course of operations. The School Board's legal counsel has reviewed the School Board's claims and lawsuits, which are primarily personal injury claims, in order to evaluate the likelihood of an unfavorable outcome to the School Board and to arrive at an estimate, if any, of the amount or range of potential loss to the School Board.

As a result of the review, the various claims and lawsuits have been categorized into "probable", "reasonably possible", or "remote", as defined by the Governmental Accounting Standards Board.

Amounts of claims classified as "probable" have been accrued in the claims liability and the liability for self-insurance losses, as explained in Note 6. It is the opinion of the School Board, after conferring with legal counsel, that the liability, if any, which might arise from these lawsuits, except for amounts accrued in the financial statements, would not have a material adverse effect on the School Board's financial position.

The School Board participates in a number of federal financial assistance programs. Although the grant programs have been audited in accordance with the Single Audit Act through June 30, 2020, these programs are still subject to financial and compliance audits and resolution of previously identified questioned costs. The amount, if any, of expenditures that may be disallowed by the granting agencies cannot be determined at this time, although the School Board expects such amounts, if any, to be immaterial.

Notes to Basic Financial Statements

Note 13. Hurricane Katrina

On August 29, 2005, Hurricane Katrina devastated the Gulf Coast area. The hurricane significantly damaged much of the Parish's taxable property, particularly in the southeastern quadrant. The School Board also received damage in excess of \$120 million to its facilities.

The School Board continues to work with FEMA and the Department of Housing and Urban Development to recover funds needed to repair and rebuild its damaged facilities. As of June 30, 2020, the School Board spent in excess of \$139 million on repair costs. Most of the repairs have been substantially completed including the rebuilding of Salmen High School and the Brooks Curriculum Center. There are sufficient funds available to cover all losses.

Note 14. Concentration of Revenue

For the year ended June 30, 2020, the School Board received 48.7% of its revenue from local sources, 44.8% of its revenue from the State of Louisiana, and 6.5% of its revenue from the federal government. Ad valorem tax revenue accounts for 54.8% of the total local source revenue. Ad valorem millages will expire on December 31, 2022, as discussed in Note 2.

Note 15. Operating Leases

The School Board leases buildings and other equipment under non-cancelable operating leases. Total costs for such leases were \$1,011,496 for the year ended June 30, 2020.

The future minimum lease payments for these leases are as follows:

Year Ending June 30,	Amount		
2021	\$ 961,622		
2022	253,173		
2023	243,087		
2024	242,881		
2025	242,881		
Thereafter	485,761_		
Total	\$ 2,429,405		

Notes to Basic Financial Statements

Note 16. Fund Equity

At June 30, 2020, the governmental fund equities are classified as follows:

						Other	
		Seneral		2019	Go	overnmental	
		Fund	C	onstruction		Funds	Total
Nonspendable for:							
Inventory	\$	-	\$	-	\$	985,977	\$ 985,977
Prepaid Items		175,401		-		632	176,033
Total Nonspendable		175,401		-		986,609	1,162,010
Restricted for:							
Debt Service		-		-		29,610,145	29,610,145
Construction		-		35,592,288		23,870,755	59,463,043
Operational Purposes		-		-		22,167,222	22,167,222
Total Restricted		-		35,592,288		75,648,122	111,240,410
Committed for:							
Bond Rating		20,854,282		_		_	20,854,282
Special Programs		-		-		12,696,867	12,696,867
Total Committed		20,854,282		-		12,696,867	33,551,149
Assigned for:							
Construction		-		_		17,448,214	17,448,214
Local Priorities	1	01,455,839		-		-	101,455,839
Total Assigned	1	01,455,839		-		17,448,214	118,904,053
Total Unassigned		-		-		(540,680)	(540,680)
Total Fund Balance	\$ 1	22,485,522	\$	35,592,288	\$	106,239,132	\$ 264,316,942

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable Fund Balance Amounts that cannot be spent either because they
 are in nonspendable form or because they are legally or contractually required to
 be maintained intact.
- Restricted Fund Balance Amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

Notes to Basic Financial Statements

Note 16. Fund Equity (Continued)

- Committed Fund Balance Amounts that can be used only for specific purposes
 determined by a formal action of the School Board members. The Board is the
 highest level of decision-making authority for the School Board. Commitments
 may be established, modified, or rescinded only through resolutions approved by
 board members. In the General Fund, the School Board maintains a committed
 fund balance in the amount of \$20,854,282 to maintain "AA" bond rating and for
 financial stability.
- Assigned Fund Balance Amounts that do not meet the criteria to be classified as restricted or committed, but that are intended to be used for specific purposes. Under the School Board's adopted policy, only board members may assign amounts for specific purposes. In the General Fund, the School Board has assigned fund balance in the amount of \$101,455,839 for local priorities, which is defined as salaries and benefits and other instructional purposes.
- Unassigned Fund Balance All other spendable amounts. A negative unassigned fund balance may be reported in other governmental funds if expenditures incurred for specific purposes exceeded the amounts restricted, committed, or assigned to those purposes.

Note 17. Other Postemployment Benefits (OPEB)

General Information about the OPEB Plan

Plan Description - The St. Tammany Parish School Board (the School Board) provides certain continuing health care and life insurance benefits for its retired employees. The St. Tammany Parish School Board's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the School Board. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the School Board. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 Postemployment Benefits Other Than Pensions-Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria-Defined Benefit.

Benefits Provided - Medical benefits are provided to employees upon actual retirement. Most employees are covered by the Teachers' Retirement System of Louisiana (TRSL), whose retirement eligibility (DROP entry) provisions as follows: 30 years of service at any age; age 55 and 25 years of service; or, age 60 and 5 years of service. Employees hired on and after January 1, 2011 may not retire prior to age 60 without actuarial reduction in benefits. The remainder of employees are covered by the Louisiana School Employees' Retirement System (LSERS) whose retirement (DROP entry) eligibility provisions are the same as TRSL except that they are also eligible to retire at age 60 and 10 years of service. TRSL eligibility provisions were used for all employees.

Notes to Basic Financial Statements

Note 17. Other Postemployment Benefits (OPEB) (Continued)

General Information about the OPEB Plan (Continued)

Basic and Supplemental life insurance coverage is provided to retirees according to three schedules (based on age brackets) and also based on the annual earnings at time of retirement. The three age brackets are below age 65, age 65 through age 69 and greater than or equal to age 70. Basic life amounts are \$5,000, \$4,000, and \$3,000, respectively, for the three age brackets and the salary related schedules have maximum amounts of Basic plus supplemental coverage of \$50,000, \$38,000 and \$25,000, respectively. Accidental Death and Dismemberment (AD&D) coverage ceases at age 70.

Employees Covered by Benefit Terms - At June 30, 2019, the following employees were covered by the benefit terms:

Inactive Employees or Beneficiaries Currently	
Receiving Benefit Payments	2,836
Inactive Employees Entitled to but Not Yet	
Receiving Benefit Payments	-
Active Employees	4,486
Total	7,322

Total OPEB Liability

The School Board's total OPEB liability of \$431,851,218 was measured as of June 30, 2019 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs - The total OPEB liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.50%

Salary increases 4.0%, including inflation

Discount rate 3.50% annually (Beginning of Year to Determine ADC)

2.21% annually (As of End of Year Measurement Date)

Healthcare Cost Trend Rates 5.5% annually for 10 years, 4.5%

Mortality SOA RP-2000 Table

The discount rate was based on the Bond Buyers' 20 Year General Obligation municipal bond index as of June 30, 2019, the end of the applicable measurement period.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of ongoing evaluations of the assumptions from July 1, 2009 to June 30, 2019.

Notes to Basic Financial Statements

Note 17. Other Postemployment Benefits (OPEB) (Continued)

Changes in the Total OPEB Liability

Balance, Beginning of Year	\$ 396,492,383
Changes for the Year

Interest	13,464,975
Differences between Expected and	
Actual Experience	(9,528,266)
Changes in Assumptions	48,774,504
Benefit Payments and Net Transfers	 (23,557,610)
Net Changes	 35,358,835
Balance, End of Year	\$ 431,851,218

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate - The following presents the total OPEB liability of the School Board, as well as what the School Board's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.21%) or 1-percentage-point higher (3.21%) than the current discount rate:

	Current			
	1.0% Decrease (1.21%)	Discount Rate (2.21%)	1.0% Increase (3.21%)	
Total OPEB Liability	\$ 803,591,768	\$ 431,851,218	\$ 575,899,352	

Sensitivity of the Total OPEB liability to Changes in the Healthcare Cost Trend Rates - The following presents the total OPEB liability of the School Board, as well as what the School Board's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.5%) or 1-percentage-point higher (6.5%) than the current healthcare trend rates:

	Current			
	1.0% Decrease	Trend Rate	1.0% Increase	
	(4.5%)	(5.5%)	(6.5%)	
Total OPEB Liability	\$ 595,957,323	\$ 431,851,218	\$ 777,698,027	

Notes to Basic Financial Statements

Note 17. Other Postemployment Benefits (OPEB) (Continued)

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2020, the School Board recognized OPEB expense of \$26,119,391. At June 30, 2020, the School Board reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Deferred Outflows of Inflows of Resources Resources		Inflows of	
Differences between Expected and				
Actual Experience	\$	-	\$	20,223,198
Changes in Assumptions		39,019,603		
Total	\$	39,019,603	\$	20,223,198

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	Amount		
2021	\$ 6,449,184		
2022	6,449,184		
2023	6,449,184		
2024	6,449,184		
2025	(1,400,064)		
Thereafter	(5,600,267)_		
Total	\$ 18,796,405		

Note 18. Tax Abatements

The St. Tammany Parish School Board is affected by the Louisiana Industrial Ad Valorem Tax Exemption Program (ITEP), which is an original state incentive program which offers an attractive tax incentive for manufacturers within the state. The program abates, up to ten years, local ad valorem property taxes on a manufacturer's new investment and annual capitalized additions related to the manufacturing site. This exemption is granted per contract with the Louisiana Department of Economic Development and will specify the buildings and/or personal property items covered under the exemption. For the year ended June 30, 2020, the School Board has forgone \$1,629,536 in ad valorem taxes due to this abatement program.

Notes to Basic Financial Statements

Note 18. Tax Abatements (Continued)

The Restoration Tax Abatement Program (RTA) is an incentive created for municipalities and local governments to encourage the expansion, restoration, improvement, and development of existing structures in downtown development districts, economic development districts and historical districts. The RTA program provides an up to ten-year abatement of ad valorem property taxes on the renovations and improvements of existing commercial structures and owner-occupied residences. The abatement of ad valorem property taxes is on the increased value of the property from the restoration, improvement, development, or expansion of an existing structure. For the year ended June 30, 2020, the School Board has forgone \$1,630,006 in ad valorem taxes due to this abatement program.

Note 19. Impact of Recently Issued Accounting Pronouncements

GASB Statement No. 84, Fiduciary Activities

The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019.

GASB Statement No. 87, Leases

The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The requirements of this Statement are effective for financial statements for reporting periods beginning after June 15, 2021.

GASB Statement No. 89, Accounting for Interest Cost Incurred before the End of a Construction Period

The objectives of this Statement are to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and to simplify accounting for interest cost incurred before the end of a construction period. This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020.

Management is currently evaluating the effects of the new GASB pronouncements scheduled for implementation for fiscal year ending June 30, 2021.

Notes to Basic Financial Statements

Note 20. Prior Period Adjustment

The governmental-wide financial statement include a prior period adjustment increasing net position by \$17,349,798, which relates to the correction of certain OPEB-related calculations. Accordingly, the balance of deferred inflows of resources related to net OPEB liability was decreased by the same amount. See Note 17 for further details regarding the School Board's net OPEB liability and related balances as of and for the year ended June 30, 2020.

Note 21. Risks and Uncertainties

On January 30, 2020, the World Health Organization declared the coronavirus outbreak a "Public Health Emergency of International Concern", and on March 11, 2020, declared it to be a pandemic. Actions taken around the world to help mitigate the spread of the coronavirus include restrictions on travel, quarantines in certain areas, and forced closures for certain types of public places and businesses. The coronavirus and actions taken to mitigate the spread of it have had, and are expected to continue to have, an adverse impact on the economies and financial markets of many countries and localities. Travel restrictions have significantly impacted the State of Louisiana, which relies heavily on tourism as a contributor to its economy.

As of June 30, 2020, the School Board has not experienced any decreases in revenues as a result of the coronavirus pandemic. However, a decrease in State revenues and a result of reduced tourism revenues may affect funding for public schools in future periods. On March 27, 2020, The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) was enacted to – amongst other provisions – provide emergency assistance for individuals, families, and businesses affected by the coronavirus pandemic. Funds from the CARES Act are passed through to Louisiana school districts through the Elementary and Secondary School Emergency Relief Fund grant. These funds are expected to assist the School Board in funding distance learning measures and with potential reduced state funding in the coming school year.

Note 22. Subsequent Event

In July 2020, the School Board issued \$11,800,000 in general obligation refunding bonds. The bonds were issued for the purpose of refunding the callable maturities of the general obligation Series 2013 bonds dated October 1, 2013 and maturing April 1, 2024 to April 1, 2033. The bonds are secured by and payable from ad valorem taxes. The interest rate on the bonds varies from 0.50% to 2.06%, and the maturity date is April 1, 2033.

^{*} Contribution deficiency in Teachers' Retirement System of Louisiana resulted from contributions received from non-employer contributing entities during the years ended June 30, 2020, 2019, 2018, 2017, 2016 and 2015, of \$2,965,052, \$2,889,955, \$2,843,203 \$2,800,251, \$2,691,527, and \$2,587,300 respectively. See notes to required supplementary information and independent auditor's report.

Notes to Required Supplementary Information For the Year Ended June 30, 2020

Note 1. Budgets

General Budget Practices

The proposed budgets for fiscal year 2019-2020 were completed and made available for public inspection at the School Board office on August 7, 2019. A public hearing was held on August 22, 2019, for suggestions and comments from taxpayers. The proposed fiscal year 2019 - 2020 budgets were formally adopted by the School Board on September 12, 2019, and final amendment was adopted on November 12, 2020. The budgets, which included proposed expenditures and the means of financing them, for the General, Special Revenue, Debt Service, and Capital Projects Funds, were published in the official journal ten days prior to the public hearings.

Formal budgetary accounts are integrated into the accounting system during the year as a management control device, including the recording of encumbrances. Appropriations are valid only for the year in which made, and any part of such appropriation which is not encumbered or expensed lapses at the end of the year. Current year transactions that are directly related to the prior year's budget are not re-budgeted in the current year.

The Superintendent is authorized to transfer budget amounts between budget lines in a fund; however, any supplemental appropriations that amend the total expenditures of any fund require Board approval. As required by state law, when actual revenues within a fund are failing to meet estimated annual budgeted revenues by five percent or more, and/or actual expenditures within a fund are exceeding estimated budgeted expenditures by five percent or more, a budget amendment to reflect such changes is adopted by the School Board in an open meeting. Budgeted amounts included in the financial statements include the original adopted budget and all subsequent amendments. Amendments to the budget reflect changes in revenue sources determined after the budget was initially approved. No other significant changes occurred.

Budget Basis of Accounting

The budgets for the General and Special Revenue Funds for fiscal year 2020 were prepared on the modified accrual basis of accounting, consistent with U.S. GAAP.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts, and other commitments are recorded, is employed by the General Fund and Capital Projects Funds.

Encumbrances outstanding at year-end lapse and are re-encumbered the following year.

Notes to Required Supplementary Information (Continued) For the Year Ended June 30, 2020

Note 2. Pension Plan

Changes of Benefit Terms

A member joining TRSL, LSERS, or LASERS on or after July 1, 2015 is eligible for normal retirement if he has at least five years of creditable service and is at least age sixty-two, or twenty years of creditable service regardless of age with an actuarially reduced benefit. The retirement age prior to the change in benefit terms was age sixty.

During the reporting period 2015, a 1.5% cost-of-living adjustment was granted by TRSL and LASERS.

During the reporting period 2017, a cost-of-living adjustment was granted by TRSL of 1.5% and LSERS of 1.9%.

There were no changes in benefit terms for any of the remaining years presented.

OTHER SUPPLEMENTARY INFORMATION

Description of Non-Major Funds

Special Revenue Funds:

ESSA - This fund is used to account for federal grants received and the program expenditures under the Every Student Succeeds Act.

<u>IDEA</u> - This fund is used to account for federal grants received and the program expenditures under the Individuals with Disabilities Education Act.

<u>Vocational Education</u> - This fund is used to account for federal grants received and the related expenditures for vocational education.

<u>Miscellaneous Programs</u> - This fund is used to account for federal, state, and local grants received and the program expenditures related to various programs.

<u>8G</u> - This fund is used to account for state grants received and the program expenditures related to 8G Funding.

<u>School Food Service</u> - This fund is used to account for the revenue and expenditures related to the School Board's student lunch and breakfast programs.

<u>Katrina</u> - This fund accounts for the Federal Emergency Management Agency (FEMA) revenue and expenditures relating to the recovery from Hurricane Katrina.

<u>School Security</u> - This fund is used to account for all school security services including salaries and benefits of the security coordinator, security officers, and the mental health providers at each school and all related expenses for these positions. This fund also accounts for the school resource officers (SROs) and SRO details at each school in the district.

Debt Service Fund:

<u>Debt Service Fund</u> - Established to meet requirements of bond ordinances and is used to account for the accumulation of resources for and the payment of long-term debt principal, interest, and related costs.

Capital Projects Funds:

2008 Construction Fund - This fund accounts for the expenditures of the \$167 million in general obligation bonds approved by the voters to finance \$15 million in technology, \$2.1 million in security cameras, and \$149.9 million in capital improvements for new construction and improvements to existing facilities.

2013 Construction Fund - This fund accounts for the expenditures of the \$135 million in general obligation bonds approved by the voters to finance capital improvements for new construction and improvements to existing facilities.

Description of Non-Major Funds (Continued)

<u>Re-Roofing Construction</u> - This fund is used to account for the capital expenditures for various roofing projects throughout the Parish.

<u>Parish Wide Construction</u> - This fund is used to account for the capital expenditures for various construction projects throughout the Parish not specifically funded through bond issues.

Internal Service Funds:

<u>Workers' Compensation</u> - This fund is used to account for the expenditures for workers' compensation claims for school board employees.

<u>Risk Management</u> - This fund is used to account for the expenditures for general and auto liability claims for the School Board.

Fiduciary/Agency Fund:

<u>School Activity</u> - This fund is used to account for the various individual schools' student activity funds.

STATISTICAL SECTION

This part of the St. Tammany Parish School Board's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School Board's overall financial health.

Contents	<u>Tables</u>
Financial Trends	1 - 4
These schedules contain trend information to help the reader understand how the School Board's financial performance and well-being have changed over time.	
Revenue Capacity	5 - 10
These schedules contain information to help the reader assess the School Board 's most significant local revenue sources.	
Debt Capacity	11 - 15
These schedules present information to help the reader assess the affordability of the School Board's current levels of outstanding debt and the School Board's ability to issue additional debt in the future.	
Demographic and Economic Information	16 - 17
These schedules offer demographic and economic indicators to help the reader understand the environment within which the School Board's financial activities take place.	
Operating Information	18 - 23
These schedules contain service and infrastructure data to help the reader understand how the information in the School Board's financial report relates to the services the School Board provides and the activities it performs.	

Sources: Unless otherwise noted, the information in these tables is derived from the comprehensive annual financial reports for the relevant year.

*Actual Valuation (Market Value) as Compared to Assessed Valuation

Residential properties are assessed at 10% of fair market value; other property and electric cooperative properties, excluding land, are to be assessed at 15%; and public service properties, excluding land, are to be assessed at 25% of fair market value. The overall assessed value is estimated to be 11% of actual market value.

Source: Comprehensive Annual Report and most current financial statements for each governmental entity

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the Parish. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government. The percentage overlap is calculated by dividing the amount of the revenue base from which the debt will be repaid contained within the overlapping area by the total revenue base of the overlapping government.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

To the Members of the St. Tammany Parish School Board Covington, LA

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Tammany Parish School Board (the School Board), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements, and have issued our report thereon dated December 14, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School Board's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School Board's internal control. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School Board's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*. The results of our tests disclosed an other matter that is required to be reported under *Government Auditing Standards* and which is described in the accompanying schedule of findings and questioned costs as item 2020-001.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School Board's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE; AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY THE UNIFORM GUIDANCE

Independent Auditor's Report

To the Members of the St. Tammany Parish School Board Covington, LA

Report on Compliance for Each Major Federal Program

We have audited St. Tammany Parish School Board's (the School Board) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the School Board's major federal programs for the year ended June 30, 2020. The School Board's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School Board's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School Board's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the School Board's compliance.

Opinion on Each Major Federal Program

In our opinion, the School Board complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Report on Internal Control Over Compliance

Management of the School Board is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the School Board's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School Board's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the School Board as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the School Board's basic financial statements. We issued our report thereon dated December 14. 2020, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Notes to Schedule of Expenditures of Federal Awards For the Year Ended June 30, 2020

Note 1. General

The accompanying schedule of expenditures of federal awards presents the activity of all federal awards programs of the St. Tammany Parish School Board (the School Board). The School Board reporting entity is defined in the notes to the financial statements for the year ended June 30, 2020. All federal awards received directly from federal agencies are included on the schedule as well as federal awards passed through other government agencies. The following programs are considered major federal programs of the School Board for single audit purposes:

Name of Federal Program or Cluster	CFDA Number
Title I	84.010A
Title II	84.367A
Covid-19 - Elementary and Secondary School	
Emergency Relief Fund (CARES Act)	84.425D

Note 2. Basis of Accounting

The schedule of expenditures of federal awards is presented using the modified accrual basis of accounting, which is described in the notes to the School Board's basic financial statements for the year ended June 30, 2020. Commodities received, which are non-cash revenue, are valued at prices provided by the U.S. Department of Agriculture. Any received but unused commodities are recorded as deferred revenue until used.

Note 3. Relationship to General Purpose Financial Statements

Federal award revenues are reported in the School Board's financial statements as follows:

General Fund	\$ 582,162
Special Revenue Funds	 33,378,693
Subtotal Federal Sources	33,960,855
Carryover Expenditures	 1
Total Reported on Schedule of Expenditures of Federal Awards	\$ 33,960,856

Notes to Schedule of Expenditures of Federal Awards (Continued) For the Year Ended June 30, 2020

Note 4. Relationship to Federal Financial Reports

Amounts reported in the schedule of expenditures of federal awards agree with the amounts reported in the related federal financial reports, except for the amounts in reports submitted as of a date subsequent to June 30, 2020, which will differ from the schedule by the amount of receivables as of June 30, 2020, liquidated to the dates of the reports.

Note 5. Indirect Cost Rate

The St. Tammany Parish School Board uses an indirect cost rate negotiated and approved by the Louisiana Department of Education, and has not elected to use the 10% de minimis indirect cost rate as provided for in Section 200.414 of the Uniform Guidance.

C. Federal Awards Findings and Questioned Costs

None.

D. Other Matter

2020-001 Self-Reported Misappropriation of Assets

Condition: Cash portions of school deposits from after-care and other student

activities at one school were discovered to have been redirected to a hospitality account or otherwise misappropriated. The redirecting or misappropriation of the cash was concealed through altering of deposit documentation by the school bookkeeper at the request of the principal. Upon investigation of several years of deposits, the School Board estimates (1) the value of deposits redirected or misappropriated totaled \$31,450.84, (2) total deposits into the hospitality account over the same time period were \$24,024.01, and (3) the difference between redirected school cash and deposits to the hospitality account, the balance of which

remains unaccounted for, totaled \$7,426.83.

Criteria: Controls should be designed in such a way as to provide for the prevention

or timely detection of misappropriation of assets.

Cause: Although the School Board has appropriate policies, procedures and

controls in place and make a practice of regular, ongoing review of school deposits, the altering of deposit documentation made the activity more difficult to detect. Furthermore, the review does not incorporate a comparison of deposits to an original log or list kept by the after-care

director.

Effect: Misappropriations over several years from school activity funds totaling

\$31,450.84 were not prevented or detected in a timely manner.

Recommendation: We recommend the School Board continue training for school administrators

and bookkeepers, especially regarding School Board policies and procedures for deposits, appropriate uses of public funds, proper treatment of hospitality accounts, and reporting potential violations to management. We further recommend the School Board have after-care directors for all schools keep a receipt log or a copy of the deposit documentation, which lists the total value of checks and cash collected, for each deposit. This will allow the central office review to compare the bank

deposits with the after-care records.

Summary Schedule of Prior Audit Findings For the Year Ended June 30, 2020

St. Tammany Parish School Board Management Response

The newly appointed school-based administrator implemented procedures in September 2020 to ensure that all cash and checks received will be deposited into the school bank account and will be accounted for properly. The newly appointed bookkeeper for the school has been trained on proper procedures for all school deposits and record retention. Record retention policies have been explained to all school employees. The school's hospitality account was closed by the former Principal in August 2020. The School Board's Internal Auditor and School Accountant will perform additional procedures to ensure that the school complies with all School District policies.
