

# The Preschool: A Magical Beginning

By design our preschool is a home-like, secure, and loving place with a predictable rhythm throughout the day, season, and school year. Soft colors, fresh flowers, the beauty of nature, and natural toys fill the classroom. The preschool gently nurtures the development of imagination, verbal capacities, sequencing, sensory integration, social skills, and motor skills that are essential as the foundation for later learning and academic excellence. This is all achieved in a supportive atmosphere free from formal academics.
