

The Campus

Our campus and buildings were carefully designed to take advantage of the ecological characteristics of the landscape and to support the principles of Waldorf education. Our five-acre campus is grass-based with fruit trees and beautiful ornamental plants to support the child's experience of the natural world. Each section of the school – preschool, kindergarten, elementary and middle school – features play areas and classrooms constructed to meet the educational, social, emotional, and physical needs of each age group.

Thank you to our amazing photographers, Robin Fadtke, Michelle Byars, & Daniel Ng, whose work is featured in this presentation.
