Why isn't Social Security Disability Insurance enough?

It could take over one year to receive approval for Social Security Disability Insurance (SSDI) benefits. Additionally, one of the decision points the Social Security Administration uses to determine if you meet their definition of disability is whether your disability is expected to last at least a year or result in your death. Disability Income Insurance can provide benefits while you wait for SSDI benefits to be approved and can supplement those benefits once approved.

Why would someone need both Short and Long Term Disability Income coverage?

Short and Long Term Disability coverage provide financial protection for different periods of time. Short Term Disability coverage is intended to provide financial protection for a disability lasting just a few weeks. Some disabilities last longer. Long Term Disability benefits begin after Short Term Disability has been exhausted. Depending on the terms of your plan, you may be eligible to receive Long Term Disability benefits until you are no longer disabled or reach Social Security Normal Retirement Age.

Why should I enroll through my employer?

- Insurance premiums are deducted from your paycheck.
- We will waive your premiums while you are receiving benefits from us.
- The cost of Disability Income Insurance through your employer is usually much lower than an individual disability policy.
