

Greetings, La Porte Stakeholders!

Today is a great day to be a Bulldog! We have begun our second semester of learning and teaching. I ask that you help us by encouraging all students that you know to rejoin us. Also, I am requesting that you remain vigilant in maintaining your health, particularly with the onset of the latest COVID variant. Health and safety are paramount at La Porte ISD, and we strongly encourage wearing masks, regular handwashing, and all other means to remain well.

As you know, good attendance coupled with quality teaching and student engagement is the formula for student success! In the fall semester, we kicked off a new campaign #Cool2BNSchool. We want our students in school each day as we work to ensure they are prepared to develop into critical thinkers, innovative learners, and our future leaders.

Great things are happening in La Porte ISD. The Spring Semester places our focus on the seriousness of preparing all students for the STAAR/EOC standardized assessments. While we have been busy mitigating the negative effects of COVID-19, we must remain laser-focused on ensuring that all students grow academically and reach their academic potential. We are committed to closing the learning gaps for our students while fostering their potential through the educational system. We all know that parents, teachers, and community partnerships are the key to building and sustaining a strong school system and a robust local economy.

If you have not seen the newly resurfaced softball and baseball fields at La Porte High School, you are in for a real treat, as they are among the most beautiful and functional in the area. As our teams begin playing, I invite you to come out and see some great student-athletes in action.

There are so many great things happening in La Porte ISD, and our success is inextricably linked to your support and input.

In your service,

Dr. Walter Jackson
Superintendent of Schools
La Porte ISD
