

The Lake Academic Boosters

have been in existence for over twenty years. The primary emphasis of the academic booster club during the early years involved sponsoring academic recognition programs for students in the Lake Local School District from grades five through 12. During recent years, LAB expanded its scope by awarding several scholarships for graduating seniors. The present leadership intends to

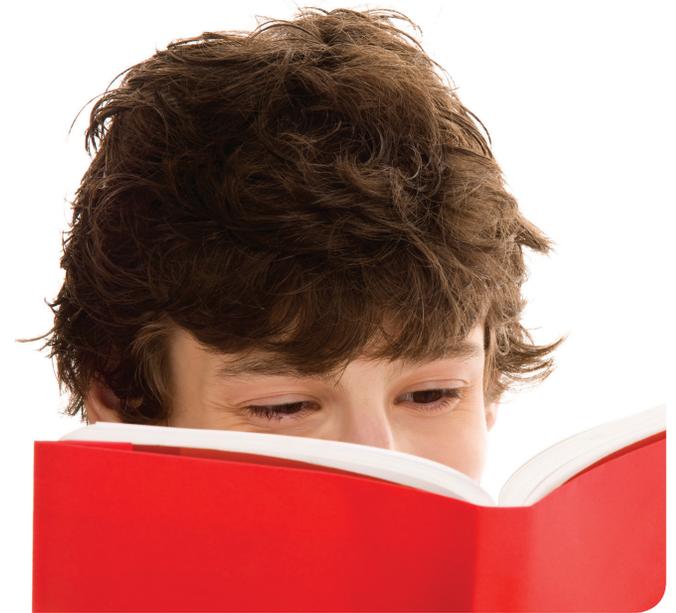

expand the role and function of the LAB to more effectively support academic programs in the Lake Local School District. Towards that purpose, LAB has established a Board of Directors charged with overseeing the operation of LAB and has established an affiliation with the Stark Community Foundation (SCF). The SCF will assist our efforts to create interest among others to become donors and serve as a steward of our assets. LAB intends to expand its purpose by establishing a permanent endowment fund to generate programs and opportunities for present and future Lake students. LAB will keep the mission, vision and values of Lake Local Schools in the forefront.

LAKE ACADEMIC BOOSTERS

What are the **Goals** of Lake Academic Boosters?

Student Recognition

LAB will continue to recognize students for exemplary academic performance.

From grade five through twelve certificates will be awarded to all honor roll students during annual recognition programs. During high school,

academic letters and pins will be provided during these programs.

Student Scholarships

LAB will issue scholarships for graduating seniors based upon exemplary academic performance.

Teacher Grants

LAB will award grants to teachers for implementing innovative programs for Lake students.

Through other grant sources Lake teachers have received funds to support early literacy,

technology in the classroom, support for student groups and organizations, science programming, and support for the arts. The LAB grant program will enhance these efforts and provide much needed funds to support innovation currently unavailable due to budgetary restrictions. Current funding sources and grant opportunities are diminishing.

Special Projects

The Lake Academic Booster Club will provide funding for student groups that primarily have an academic emphasis.

How Do Lake Academic Boosters Operate?

LAB consists of a board of community members who are concerned with promoting educational excellence at Lake Local Schools. Each board member term lasts two years and new positions are considered each year. Committees implement the work of the Academic Boosters and report directly to the Board. The committees are listed in the section to follow.

They Need Your Help

The Lake Academic Boosters are in great need of volunteers to serve as Board Members and Committee Members. The following committees are active: **Membership, Student Recognition, Scholarship, Fund Raising, and Special Events.** If interested in actively participating with the Academic Boosters, please send an email to: LAB@lakelocal.org including your name, area of interest (either as a board member or a specific committee), email address, and phone number. Or mail the completed panel at the right.
