APPLY FOR THE DE NEUMANN

MATHEMATICS SCHOLARSHIP

THE DE NEUMANN MATHEMATICS SCHOLARSHIP

The Royal Hospital School's founding mission of 'improving navigation' is deeply rooted in mathematics and navigational science, producing leaders in these fields for over 300 years. This tradition continues today amongst many of our alumni who have studied mathematics and gone on to apply it within roles in commerce, industry, science and technology.

Professor Bernard de Neumann (1943-2018) was a former RHS pupil who was passionate about the history and continuing relevance of mathematics at the school. In 2019, the school received a gift from his estate to support the continued development of the subject. Thanks to this gift, we are now able to support gifted young mathematicians by giving them the life-changing opportunity to join our sixth form.

Every two years, RHS offer a means-tested scholarship, of up to 100% of the day fee, to a child from either Essex or Suffolk who is intending to study mathematics and/or further mathematics at A Level.

Applicants should:

- Have a strong interest in mathematics (essential)
- Have competed in UKMT Mathematical Challenges (preferred)
- Be looking at a career in mathematics or engineering (desirable)
- Have a high predicted grade in mathematics and a strong reference (essential)
- Currently attend a state school (essential)

Candidates will sit a test covering GCSE Mathematics material plus attend an interview with the Head of Mathematics and the Head of Sixth Form.

"The De Neumann Scholarship has provided me with many opportunities, particularly growing my passion for Maths, Physics and Chemistry, leading me to apply for aeronautical engineering courses at university. But it's more than just the academics, I have had new experiences that I wouldn't get anywhere else, especially on the sports field."

Owen, Year 13 current De Neumann Scholar.

**THIS AWARD WILL NEXT BE AVAILABLE FOR ENTRY IN 2024.
APPLICATIONS WILL CLOSE IN JANUARY 2024 WITH ASSESSMENT
TESTING TAKING PLACE IN FEBRUARY 2024.**
