Dear Parent(s)/Guardian(s):

The Pennsylvania School Code requires “all children of school age in the Commonwealth, upon original entry into school, while in the third grade and while in the seventh grade shall be given a dental examination.” A private dental form can be found under “*additional info*” for your dentist to complete and then return to the school nurse, or a copy of your dentist’s report is acceptable.

If your child has had a dental examination in the school year *prior* to the designated grade level, the school will accept a form from that date providing it is within one year of the start of the designated grade level. Another option is for your child to have a dental examination done at school. Parents are welcome to attend. Please indicate your choice by signing and returning the permission form at the bottom of this letter.

The school dentist will be completing exams at the schools yearly, generally in February or March. If you have any questions, please call the school nurse. Thank you for your cooperation.

Sincerely,

Health Room Nurses

\_\_\_\_\_ I **DO** give my permission for my child to have the dental inspection done at school by the school appointed dentist during the current school year. Note on the reverse side any special conditions you wish to call to the attention of the examining dentist.

\_\_\_\_\_ I **DO NOT** give my permission for my child to have the dental inspection done at school. I have a dental appointment scheduled for my child on \_\_\_\_\_ and will return the form at that time.
