Further, the show specifically reserves the right to have tissue, blood or urine laboratory analysis made on any animal entered for competition. The conclusions reached by the laboratory as to whether such animal has been administered a diuretic, unapproved growth stimulant or other unapproved medication, or has not been properly withdrawn from approved drugs shall be final and binding without recourse against the show or any of its officers. An exhibitor of an animal testing positive for any drug or medication or unapproved chemical may forfeit all rights and privileges to exhibit livestock in the future at the show.
