

School Council Meeting – Spring 1

Our super School Councillors attended their first meeting of the spring term and were excited to be able to meet to share ideas and review actions they had discussed during the autumn.

They were delighted that the ideas they had suggested for additional equipment for playtimes, footballs and a shelter had all been implemented for all children to enjoy. The councillors proposed they should now promote and model how to look after and take responsibility for these new additions to the playground.

Lots of ideas and suggestions for lunchtime clubs and activities were discussed; the councillors were eager to gather support and feedback from their classes to bring to the next meeting.

Special mention and thanks to Daisy from Year 6 for taking minutes which were given to each councillor to help them communicate back in the classroom. They are representing their classes brilliantly!

Minutes of School Council Meeting – compiled by Daisy on Friday 11th February (Y1 – Y6)

OUTDOOR EQUIPMENT UPDATE

Outdoor play equipment – no rota yet and each zone has a box of equipment. Chn under the impression that they don't get to play with it because supervisors have told them that the equipment gets broken.

Replace footballs because they are flat (Mr Purewel confirmed). This is for football club after school and for PE. New football pumps needed too. Also need more PE cones for both sheds for ease of using equipment indoors and outside. New nets for the football goals. Embarrassing when playing a match and the ball went through hole in the net.

Asked for rugby balls – explained Mr Purewal has requested.

Make sure everyone respects the equipment that is bought for them. School councillors will be responsible for promoting this message.

BOOKS FOR LIBRARY

School Councillors to ask their class what recommendations they have and bring to Daisy Manning as Reading Representative. She will liaise with Mrs Russell.

ECO FOCUS

Children feel that the focus on Eco has reduced (due to Covid). They are going to ask classes for eco projects they might like to do. For example:

- Litter Picking Crew : launch by School Council?
- Eco Warriors – class monitors for lights; recycling bins used properly; more bins outside
- ECO DAY where everyone does Eco activities eg. Make bug hotels, feeders for birds; new plants that attract butterflies/bees/lavender and to plant flowers; fruit and vegetables – school garden
- Y4 – Art Club after school or lunchtime
- Can children have the Acting and Music clubs they were going to have?
- Children would like mirrors in the bathroom
