SAYREVILLE PUBLIC SCHOOLS

NURSING SERVICES PLAN

ARLETH ELEMENTARY SCHOOL 2021-2022

Description of Issue:

The Arleth Elementary School, Sayreville, New Jersey provides the educational setting for 396 regular education students as well as 71 special needs students with specific learning disabilities.

The formulation of the School Nursing Services Plan pursuant to NJAC 6A:30-1.4(a)9 provides the vehicle for the delivery of health services to our students by the professional, certified school nurse assigned to the building. The documented rationale for the school nursing services document is a collaborative effort of professional colleagues and the administrator responsible for district health services. It reflects the increasing medical services required by our students in order to attend a public school and exceeds the original educational mandate.

Definition of Terms:

On site plan system: designed to serve the student in school with services delivered on-site. Children and families have consistent access to those health and social services.

Certified School Nurse (CSN): a specialized practice of professional nursing requiring an understanding of both the educational and health care realms. Certification ensures that the school nurse possesses the core knowledge for competent practice beyond that provided by state license as an R.N.

Nursing Dependent: students needing skilled nursing for survival; frequently 1:1 (i.e. vent-dependent).

Medically Fragile: students having complex health care needs. Life threatening emergencies are quite possible and therefore these students require monitoring (i.e. seizure disorders).

Medically Complex: complex or unstable physical and/or emotional conditions that require daily treatments and monitoring. Life threatening events are unpredictable (i.e. asthma with an inhaler at school; behavioral disorders).

Health Concerns: occasional monitoring is required, but currently the physical and/or social emotional condition is uncomplicated.

Behaviorally Disabled: conduct disorders; learning disabilities; ADHD.

I. IDENTIFIED NEEDS WITHIN THE SCHOOL

Total school population for 2020-2021 is 499 students. All classes are graded, with students ranging in age from 5 to 10 years old. The grade levels represented are K-3. Communication between health professionals is by phone, fax, e-mail, and regular meetings. The certified school nurses reinforce one another in the event of any emergency. Regular meetings of CSNs are planned as needed to discuss continuity of service, identification of needs, health planning, etc.

A. Grade Levels	K-3
B. General education enrollment	467
C. Number of students with severe medical involvement	57

 2. CPR Certified
 3. Conducts health screenings
 4. Maintains student health records
 5. Assesses and recommends students to be excluded for communicable disease
 6. Recommends students to be excluded for inadequate immunizations
- (c) Fulfills the duties reserved to the CSN
 1. May teach health classes
 2. May be asked to develop curriculum
 3. Conducts staff training
 4. Selects and trains delegates to administer EpiPen
 5. Delegates, directs and supervises school staff member performing a nursing task
 6. Reviews, summarizes and transmits available health and medical information in preparation for CST meetings
 7. Writes and updates annually (or more often) accommodation plans included in IHP required under Section 504 as required
 8. Develops and implements the school health program as per New Jersey Nurse Practice Act, ANA/NASN Standards of School Nursing, N.J.A.C. and the NJ Department of Education Health Services Guidelines
- (d) Substitute Registered Nurse
 1. Assigned to substitute in the absence of the CSN
 2. Duties permitted under professional license
 3. Conducts health screenings
 4. Maintains student health records

SAYREVILLE PUBLIC SCHOOLS

SAMSEL UPPER ELEMENTARY SCHOOL – PROJECT BEFORE PRESCHOOL NURSING SERVICES PLAN 2021-2022

Description of Issues

The Samsel Upper Elementary School & Project Before is a school of 1115 students housing grades 4th through 5th & Project Before. The Samsel Upper Elementary School & Project Before, Parlin, New Jersey provides the educational setting for 983 regular education students as well as 132 special needs students, of whom 35 receive 504 accommodations.

The formulation of the School Nursing Services Plan pursuant to NJAC 6A:30-1.4(a)9 provides the vehicle for the delivery of health services to our students by the professional, certified school nurse assigned to the building. The documented rationale for the school nursing services document is a collaborative effort of professional colleagues and the administrator responsible for district health services. It reflects the increasing medical services required by our students in order to attend a public school and exceeds the original educational mandate.

Definition of Terms:

On site plan system: designed to serve the student in school with services delivered on-site. Children and families have consistent access to those health and social services.

Certified School Nurse: (CSN) a specialized practice of professional nursing requiring an understanding of both the educational and health care realms. Certification ensures that the school nurse possesses the core knowledge for competent practice beyond that provided by state license as an R.N.

Registered Nurse: to assist CSN in the daily routine of office and health care realm.

Possesses the core knowledge for competent practice provided by state license.

Nursing Dependent: students needing skilled nursing for survival: frequently 1:1 (vent – dependent)

Medically Fragile: students having complex health care needs. Life threatening emergencies are quite possible and therefore these students require monitoring (i.e. ventilator seizure disorders).

Medically Complex: complex or unstable physical and/or emotional conditions that require daily treatments and monitoring. Life threatening events are unpredictable (i.e. asthma with an inhaler at school; behavioral disorders).

Health Concerns: occasional monitoring is required, but currently the physical and/or social emotional condition is uncomplicated.

Behaviorally Disabled: conduct disorders; learning disabilities; ADHD.

O. IDENTIFIED NEEDS WITHIN THE SCHOOL

Total school population for 2021-2022 is 1115 students. All classes are graded, with students ranging in age from 9-11 years old. The grade levels represented are 4-5. There are 19 students that are classified in self-contained classrooms. There are also 132 special education students. Communication between health professionals is by phone, fax, e-mail, and regular meetings. The certified school nurses reinforce one another in the event of any emergency. Regular meetings of CSN's are planned as needed to discuss continuity of service, identification of needs, health planning, etc.

viii. Number of students requiring your input	

- student assistance team meetings ANNUAL 35
- ix. Number of students transferring in/out
of your building (annually) 130/70
- x. Teaching responsibilities:
 - (a) Student health classes
- xii. Staff trainings:
 - (a) Bloodborne Pathogen
 - (b) Heimlich Procedure
 - (c) Asthma in school
 - (d) Diabetes signs/symptoms
 - (e) Glucagon Training
 - (f) EpiPen Delegate
 - (g) Code Blue
 - (h) Seizures
- xiii. Other non-nursing task:
 - (a) Process Home Instruction forms
 - (b) Health & Safety Committee
 - (c) I&RS Committee
 - (d) Child Study Team Committee
 - (e) Process applications for Kiddie Keepwell Camp
 - (f) Organize District Flu Clinic
 - (g) Organize CPR certifications
- xiv. Staffing

A. Nursing Responsibilities

1. Provide skilled nursing service for medically fragile students as indicated above. (IE a student on a ventilator requires a one to one nurse in addition to Regular staffing.)
2. Provide skilled nursing services for children with complex health-care needs as Indicated above. (IE a student on a ventilator will require a one to one nurse in addition to regular support staff.
3. Preparation, administration and documentation of medications and treatments, including nebulizers

4. Health counseling.
5. Development and implementation of Individualized Health Care Plans.
6. Monitoring and state reporting of immunization and tuberculin status.
7. Case management for students with special health care needs.
8. Monitoring for the presence of infectious diseases and use of public health precautions to prevent the spread of infestations and infections in the school setting.
9. Physical and mental health assessments and referrals for care.
10. Daily student and family outreach by telephone.
11. Interpretation of health care needs of students to school personnel and Child Study Team members.
12. Development and implementation of Emergency Health Care Plans and the daily provision of emergency care and first aid.
13. Oversee the process of reporting and documenting Workman's Compensation injuries.
14. Acting as a liaison for the school, parents and community health agencies.
15. Participating on student assessment teams such as intakes, child study And behavioral.
16. Collaborating with the school medical inspector on a regular basis.
17. Collaborating and assisting with visiting health agencies on student evaluations for Commission for the Blind and Visually Impaired and Dentistry for Person with Disabilities.

xv. Staff information resource.

- (a) Acts as primary consultant on interpretation of medical evaluation and needs assessment.

xvi. Certified School Nurse

1. Functions to the level of professional license as a licensed registered nurse and school nurse certification.
2. Fulfills the duties of the Registered Nurse cited in code
 - (a) Duties permitted under professional license
 - (b) CPR Certified

 - (g) Update health care plans annually as needed

3. Fulfills the duties reserved to the CSN May teach health classes
 - (a) May be asked to develop curriculum
 - (b) Conducts staff trainings
 - (c) Selects and trains delegates to administer Epipen
 - (d) Delegates, directs and supervises school staff member performing a nursing task
 - (e) Reviews, summarizes and transmits available health and medical information in preparation for CST in preparation for CST meetings
 - (f) Writes & updates annually (or more often) accommodation plans included in IHP required under Section 504 as required.
 - (g) Develops and implements the school health programs as per NJ Nurse Practice Act. ANA/NASN Standards of School Nursing, NJAC and the NJ Dept. of Health Services Guidelines.

xvii. Registered Nurse

- (a) Assigned to assist the CSN with daily activities as stated above.
- (b) Duties permitted under professional registered license
- (c) Conducts health screenings
- (d) Maintains student health records

xviii. Substitute Registered Nurse

- (a) Assigned to substitute in the absence of the CSN
- (b) Duties permitted under professional license
- (c) Conducts health screenings
- (d) Maintains student health records

SAYREVILLE PUBLIC SCHOOLS

SAYREVILLE MIDDLE SCHOOL NURSING SERVICES PLAN 2021-2022

Description of Issue:

The Sayreville Middle School, Parlin, New Jersey provides the educational setting for 1384 students including 149 classified students and 48 students receiving accommodations under 504.

The formulation of the School Nursing Services Plan pursuant to N.J.A.C. 6A:30-1.4(a) 9 provides the vehicle for the delivery of health services to our students by the professional, certified school nurse assigned to the building. The documented rationale for the school nursing services document is a collaborative effort of professional colleagues and the administrator responsible for district health services. It reflects the increasing medical services required by our students in order to attend a public school and exceeds the original educational mandate.

Definition of Terms:

On site plan system: designed to serve the student in school with services delivered on-site. Children and families have consistent access to those health and social services.

Certified School Nurse (CSN): a specialized practice of professional nursing requiring an understanding of both the educational and health care realms. Certification ensures that the school nurse possesses the core knowledge for competent practice beyond that provided by state license as an R.N.

Nursing Dependent: students needing skilled nursing for survival; frequently 1:1 (i.e. vent-dependent).

Medically Fragile: students having complex health care needs. Life threatening emergencies are quite possible and therefore these students require monitoring (i.e. seizure disorders).

Medically Complex: complex or unstable physical and/or emotional conditions that require daily treatments and monitoring. Life threatening events are unpredictable (i.e. asthma with an inhaler at school; behavioral disorders).

Health Concerns: occasional monitoring is required, but currently the physical and/or social emotional condition is uncomplicated.

Behaviorally Disabled: conduct disorders; learning disabilities; ADHD.

I. IDENTIFIED NEEDS WITHIN THE SCHOOL

Total school population for 2021-2022 is 1384 students. As of September 2021, all classes are graded, with students ranging in age from 10 to 15 years old. The grade levels represented are 6-8. Of the 191 classified students, 183 receive services at the middle school. An additional 50 student receive services under 504. Communication between health professionals is by phone, fax, e-mail, and regular meetings. The certified school nurses reinforce one another in the event of any emergency. Regular meetings of CSNs are planned as needed to discuss continuity of service, identification of needs, health planning, etc.

*Information updated as additional documentation is received.

1. Number of IHCPs requiring your input **52**
2. Number of 504s requiring your input **15**
3. Parent notification of students requiring additional health Information;
 - (a) New Entrants
 - (b) Immunizations
 - (c) Asthma Action plans
 - (d) Epi pen orders/other med orders
 - (e) Chronic Ill and other medical concerns listed on OnCourse or sport physicals
 - (f) Diabetic care orders
 - (g) Parents are contacted via phone and/or letter at the start of the school year and throughout year as needed
4. Sports Physicals and Health Histories reviewed and charted: 580 sport physicals and sport physical updates were processed at the middle school in 2018/2019. As of September 2019, 205 sport physicals and updates have been processed for the 19/20 school year.
5. Evaluate students suspected of being under the influence.
6. Accompany students to ER as needed.
7. Administer all required mantoux TB test to students entering the district in all grades.
8. Coordinate Code Blue Response Team. (total members currently at 15 for 2021-2022 school year)
9. Instruct faculty in the recognition and treatment of anaphylaxis in previously non diagnosed students. –Next training for 19-20school year TBA.
10. Provide additional staff in-services as mandated by NJ State Law.
11. Review scheduled trip lists in order to provide chaperoning staff with relevant health information concerning students attending.
12. Verify all medication orders with prescribing provider, including asthma treatment plans, allergy action plans, diabetic orders and general medication orders.

13. Review, record and file all medical notes submitted.

14. Process and submit requests for home instruction.

Additionally, see 50-100 students daily for evaluation of illness/ injury of a temporary nature. Each student visit is charted in Oncourse per district policy.

The middle school nurses also provide health information to faculty on an as needed basis, as well as care for any injured or ill staff. This includes the bus compound staff.

D. Number of students enrolled in special education **230 (per CST)**

1. Number of students requiring your input at CST meetings

Annual **5 as of today 10/2021**

2. Number of students requiring your input at I & RS meetings

Annual **0 in 21/22 school year**

E. Additional district programs housed in your building: None at present

F. Number of students transferring in/out of your building through

9/26/19 - 64

Note: 4 new entrants are provisional status and need to be monitored for compliance with immunization regulations.

G. Teaching responsibilities

1. Student health classes: provide instruction on teacher's request.

2. Staff training: blood borne pathogens for teachers, administrators and additional faculty; Heimlich maneuver; care of ill and injured students; asthma, diabetes, allergies, concussions, seizures and additional topics as needed.

3. Training of epinephrine & glucagon delegates.

H. Other non-nursing tasks

1. Attendance responsibilities : Process Home Instruction forms Annual **12 as of 10/**

2. Review and chart all doctor's notes on OnCourse.

3. Consult with attendance office with regard to attendance/appeals.

4. Additional committees and district responsibilities

5. I & RS

III. STAFFING

A. Nursing Responsibilities

1. Provide skilled nursing service for medically fragile students as indicated below.
2. Provide skilled nursing services for children with complex health-care needs as indicated below.
3. Preparation, administration and documentation of medications and treatments, including nebulizers.
4. Health counseling.
5. Development and implementation of Individualized Health Care Plans.
6. Monitoring and state reporting of immunization and tuberculin status.
7. Case management for students with special health care needs.
8. Monitoring for the presence of infectious diseases and use of public health precautions to prevent the spread of infestations and infections in the school setting.
9. Physical and mental health assessments and referrals for care.
10. Daily student and family outreach by telephone.
11. Interpretation of health care needs of students to school personnel and Child Study Team members.
12. Development and implementation of Emergency Health Care Plans and the daily provision of emergency care and first aid.
13. Oversee the process of reporting and documenting Workman's Compensation injuries.
14. Acting as a liaison for the school, parents and community health agencies.
15. Participating on student assessment teams such as intakes, child study and behavioral.

16. Collaborating with the school medical inspector on a regular basis.
17. Collaborating and assisting with visiting health agencies on student evaluations for Commission for the Blind and Visually Impaired and Dentistry for Persons with Disabilities.
18. Staff information resource.
19. Acts as a primary consultant on interpretation of medical evaluation and needs assessment.
20. Reviews sports physicals and health histories, submit to trainer for approval by school doctor and chart on A45.
21. Cover nursing position in other schools when no substitute is available.
22. Implement compliance with immunization requirements for Middle School students.

B. Certified School Nurse

1. Functions to the level of professional license as a licensed registered nurse and school nurse certification
 - (a) Fulfills the duties of the Registered Nurse cited in code
 - i. Duties permitted under professional license
 - ii. CPR/AED Certified
 - iii. Conducts health screenings:
 - Height & Weight grades 6 through 8
 - BP grades 6 through 8
 - Scoliosis grades 7
 - Vision grade 6 & 8
 - Hearing grade 7
 - Record on A45 &
 - Notify parents of results outside range
 - iv. Maintains student health records
 - v. Assesses and recommends students to be excluded for communicable disease
 - vi. Recommends students to be excluded for inadequate immunizations

(b) Fulfills the duties reserved to the CSN

- i. May teach health classes
- ii. May be asked to develop curriculum
- iii. Conducts staff trainings
- iv. Selects and trains delegates to administer Epinephrine
- v. Selects and trains delegates to administer glucagon.
- vi. Delegates, directs and supervises school staff member performing a nursing task
- vii. Reviews, summarizes and transmits available health and medical information in preparation for CST meetings
- viii. Writes & updates annually (or more often) accommodation plans included in IHP required under Section 504 as required
- ix. Develops and implements the school health programs as per New Jersey Nurse Practice Act, ANA/NASN Standards of School Nursing, N.J.A.C. and the NJ Department of Education Health Services Guidelines.

C. Substitute Registered Nurse

1. Assigned to substitute in the absence of the CSN
2. Duties permitted under professional license
3. Conducts health screenings
4. Maintains student health records

18. Staff information resource.
19. Acts as a primary consultant on interpretation of medical evaluation and needs assessment.
20. Reviews sports physicals and health histories, submit to trainer for approval by school doctor and chart on A45.
21. Cover nursing position in other schools when no substitute is available.
22. Implement compliance with immunization requirements for High School students.

B. Certified School Nurse

1. Functions to the level of professional license as a licensed registered nurse and school nurse certification

(a) Fulfills the duties of the Registered Nurse cited in code

- i. Duties permitted under professional license
- ii. CPR/AED Certified
- iii. Conducts health screenings:
Ht & Wt grades 9 thru 12

BP grades 9 thru 12

Scoliosis grades 9 and 11

Vision grade 10

Hearing grade 11

Record on A45 &

Notify parents of results outside range
- iv. Maintains student health records
- v. Assesses and recommends students to be excluded for communicable disease
- vi. Recommends students to be excluded for inadequate immunizations

(b) Fulfills the duties reserved to the CSN

- i. May teach health classes
- ii. May be asked to develop curriculum
- iii. Conducts staff trainings
- iv. Selects and trains delegates to administer Epinephrine
- v. Selects and trains delegates to administer glucagon.
- vi. Delegates, directs and supervises school staff member performing a nursing task
- vii. Reviews, summarizes and transmits available health and medical information in preparation for CST meetings
- viii. Writes & updates annually (or more often) accommodation plans included in IHP required under Section 504 as required
- ix. Develops and implements the school health programs as per New Jersey Nurse Practice Act, ANA/NASN

Standards of School Nursing, N.J.A.C. and the NJ
Department of Education Health Services Guidelines.

C. Substitute Registered Nurse

1. Assigned to substitute in the absence of the CSN
2. Duties permitted under professional license
3. Conducts health screenings
4. Maintains student health records

SAYREVILLE PUBLIC SCHOOLS

CHEESEQUAKE SCHOOL PROJECT BEFORE

NURSING SERVICES PLAN

2021-2022

Description of Issue:

The Cheesequake School, Matawan, New Jersey provides the education setting for 169 regular education students as well as 81 special needs students with specific learning disabilities.

The formulation of the School Nursing Services Plan pursuant to NJAC 6A:30-1.4(a)9 provides the vehicle for the delivery of health services to our students by the professional, certified school nurse assigned to the building. The documented rationale for the school nursing services document is a collaborative effort of professional colleagues and the administrator responsible for district health services. It reflects the increasing medical services required by our students in order to attend a public school and exceeds the original educational mandate.

Definition of Terms:

On site plan system: designed to serve the student in school with services delivered on-site. Children and families have consistent access to those health and social services.

Certified School Nurse (CSN): a specialized practice of professional nursing requiring an understanding of both the educational and health care realms. Certification ensures that the school nurse possesses the core knowledge for competent practice beyond that provided by state license as an R.N.

Nursing Dependent: students needing skilled nursing for survival; frequently 1:1 (i.e. vent-dependent).

Medically Fragile: students having complex health care needs. Life threatening emergencies are quite possible and therefore these students require monitoring (i.e. seizure disorders).

Medically Complex: complex or unstable physical and/or emotional conditions that require daily treatments and monitoring. Life threatening events are unpredictable (i.e. asthma with an inhaler at school; behavioral disorders).

Health Concerns: occasional monitoring is required, but currently the physical and/or social emotional condition is uncomplicated.

Behaviorally Disabled: conduct disorders; learning disabilities; ADHD

III. IDENTIFIED NEEDS WITHIN THE SCHOOL

Total school population for 2021-2022 is 209 students. All classes are graded, with students ranging in age from 3 to 5 years old. The grade levels represented are Pre-K3 and Pre-K4. There are 22 inclusion students and 18 pull out students. Communication between health professionals is by phone, fax, e-mail, and regular meetings. The certified school nurses reinforce one another in the event of any emergency. Regular meetings of CSN's are planned as needed to discuss continuity of service, identification of needs, health planning, etc.

A. Grade Levels	Pre-K
B. General education enrollment	129
1. Number of students with severe medical involvement	18
2. Chronic illness, special health needs, procedures, medications	
a. Asthma	10
1. Students with inhalers	06

RE: Nonpublic Nursing Services/NJQSAC

As part of the Sayreville Public Schools New Jersey Quality Single Accountability Continuum (NJQSAC) monitoring, the NJ DOE is requiring documentation and procedures which evidence that a *comprehensive record of immunizations, required physical examinations, and health screenings are maintained in order to identify the need/or medical services for public and nonpublic school students, and to ensure that health records are kept separately from other student records. To date, there have been no findings of noncompliance since the last NJQSAC monitoring. (N.J.A.C. 6A:16-2.1(a)8, 2.2, and 2.5 and 6A:32-7.4(c)).*

As such, the Sayreville Public School District is required to maintain an agreement with all nonpublic schools in Sayreville that are receiving nonpublic nursing service funds so that should the need arise, the district's physician or nursing staff will be provided with access to all nonpublic school student medical records, including the A45 form, to verify compliance with N.J.A.C.

Please sign and return this form indicating your agreement to provide access to such records for compliance review as required by N.J.A.C. should the need arise.

Thank you

**RE: Annual Nonpublic School Nursing Services
Report Form FY18 and Budget FY19**

Dear Dr. Labbe:

Enclosed please find the following items pertaining to the Annual Nonpublic School Nursing Services Report Form FY18:

1. The Annual Nonpublic School Nursing Report Form FY18 for your review and signature as indicated, and Budget FY19:

Please forward the following to the County Office as soon as possible:

- .f Report Form
- .f Budget
- .f Copy of your Board Minutes
- .f Statement verifying required conference was held with the nonpublic school(s)

2. Board resolution language suggested for your board action is as follows: That the Sayreville Board of Education, through contract with the Educational Services Commission of New Jersey, authorizes the administrative personnel of the Commission to conference, discuss and solicit input in the development of the nursing services contract document for the 2018 - 2019 school year which provides nursing services to the following nonpublic schools located in the Sayreville school district:

Our Lady of Victories
St. Stanislaus Kostka

Academy Learning Center • Bright Beginnings learning Center • Center for Lifelong Learning • NuView Academy • NuView Academy Annex • Piscataway Regional Day School
Child Study Team & Related Services • Collaborative Educational Services • Cooperative Pricing - Lease Purchase Bidding + Cooperative Transportation
Home Instruction + Nonpublic School Services + Children's Specialized Hospital + Itinerant Services for Children with Hearing Loss + Professional Development Academy

Nursing services to be provided first by assignment of a licensed nurse and the purchase of supplies and equipment necessary to implement the law and code -N. J. A. C. 6:29-8 include:

1. Assistance with medical examinations, including dental screening.
2. Audiometric screening.
3. Maintenance of student health records, including immunizations
4. Scoliosis screening
5. Adopt written policies and procedures extending the emergency care provided to the public school pupils to those pupils who are enrolled full time in the nonpublic school who are injured or become ill at school or during participation on a school team or squad.

After required nursing services are provided depending on available funding, additional medical services may be provided.

If after review, you have any questions, please contact the Commission office.

Sincerely,

f11jfh
