Quality Components

The legislation has identified specific requirements for School Readiness programs as part of the continuum of services in quality programs that meet the needs of children and families. These indicators include:

- A plan for collaboration with other community programs and services, including public libraries and for coordination of resources in order to facilitate full-day and year-round child-care and education programs for children of working parents and parents in education or training programs;
- Parent involvement, parenting education and outreach;

- Referrals for health services, including referrals for appropriate immunizations and screenings;
- Nutrition services;
- Referrals to family literacy programs that incorporate adult basic education and provide for the promotion of literacy through access to public library services;
- Admission policies that promote enrollment of children from different racial, ethnic and economic backgrounds and from other communities;
- A plan of transition for participating children from the School Readiness program to kindergarten and provide for the transfer of records from the program to the kindergarten program:
- A plan for professional development for staff;
- A sliding fee scale for families participating in the program;
- An annual evaluation of the effectiveness of the program; and
- A plan to ensure that children with disabilities are integrated into programs with children who are not disabled.
