

Chrome OS Update

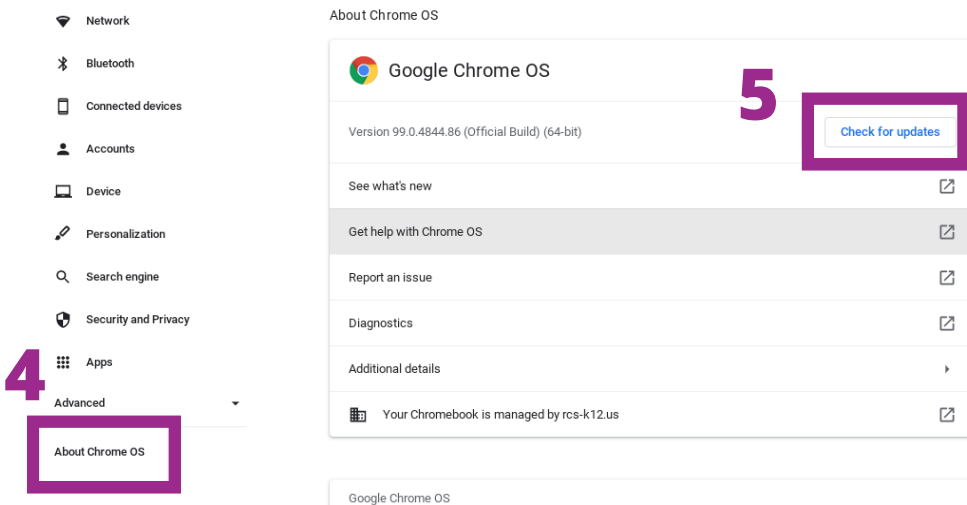

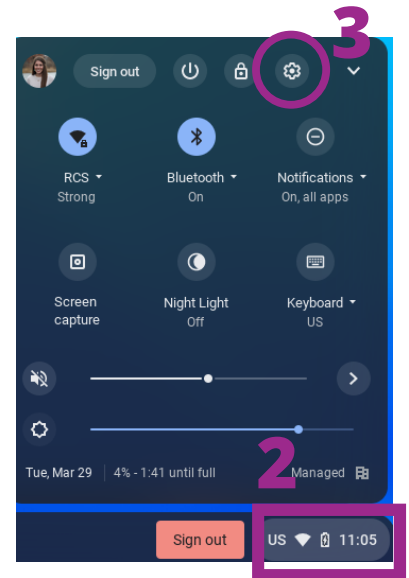

Scan QR Code for step by step video directions

You will need to update the Chromebook Operating System so it is up to date. Make sure your Chromebook is fully charged or plug it into the power adapter before performing the following steps.

To update Chrome OS

1. Login to your Chromebook using your Gmail account:
`username@rcs-k12.us`
2. Click on the time in system tray
3. Click on the settings gear in the upper right corner of the menu
4. The Settings window will open. Click **About Chrome OS**.
5. Click the **Check for updates** button.

6. After the update, the screen will indicate **Your Chromebook is up to date** or **Restart** is required.
7. Press **Restart**
8. Repeat steps 1-7 until the screen indicated **Your Chromebook is up to date**.
