In Schoology and ParentVue

Overview of How Schoolloop and ParentVue Connect

* Some teachers will not put grades in Schoolloop for assignments that are not submitted through Schoolloop, they instead put them directly into ParentVue skipping step 4.

**Some teachers just assign a 50% grade for anything that is missing or earned less than 50% skipping step 5.

This assignment is **not turned in**. The student got a SCORE of 0.

Elements and Principles of Art	In-Class Assignments	0	0 out of 10.0000	Raw Score	5.00/10.0000
Meet the Artist	In-Class Assignments	0	10 out of 10.0000	Raw Score	10.00/10.0000

The teacher has the 50% interpretation scale turned on. So the student gets the minimum grade of 50% in the POINTS column even though they scored 0.

Look 2nd in Schoology

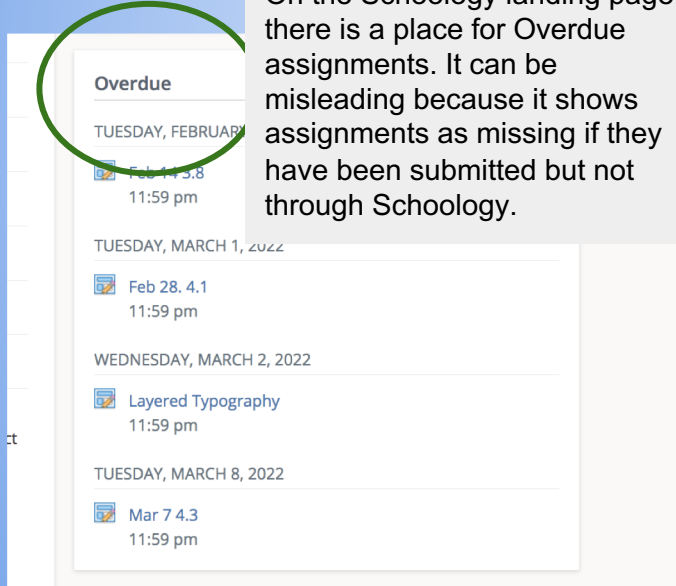

On the Schoology landing page, there is a place for Overdue assignments. It can be misleading because it shows assignments as missing if they have been submitted but not through Schoology.

If you click on “grades” on the left side of a Schoology course page, you will get a list of assignments the teacher has created in Schoology.

This is a class where the teacher has students submit their assignments in Schoology. You can see if they are submitted or not by the presence of the paper icon.
