

Springboard Education in America Sayreville Public Schools

Kim Jennings – Vice President of Partnership Development

What Drives Springboard and Why Are We in This Business?

Springboard exists to make an authentic difference in out-of-school time programming and students' lives.

- Challenge inadequate traditional after-school models.
- Support schools' increasing academic goals.
- Close the achievement gap.
- Use only research-based, data-driven methods.
- Serve ALL students.

Springboard has been providing exceptional Extended Day programming since 2002.

Springboard's footprint:

- 66 programs in 13 states (32 new programs in 2015-16 SY)
- Hamilton Township
- Serving over 3000 students every school day

Springboard's Advantages

- Researched Based and Data Driven Curriculum
- Our Sole Focus is Extended Day & out of school time programming
- Programs led by Certified Teachers
- Homework Completion and Comprehension
- Unmatched Value and Parent Focused Flexibility
- Dedicated to making a Social Impact

Springboard at a Glance

Doctoral-Led, Research-Based

Doctoral-Led, Research-Based

Doctoral-level educators dedicated to out-of-school time developed the Springboard Model.

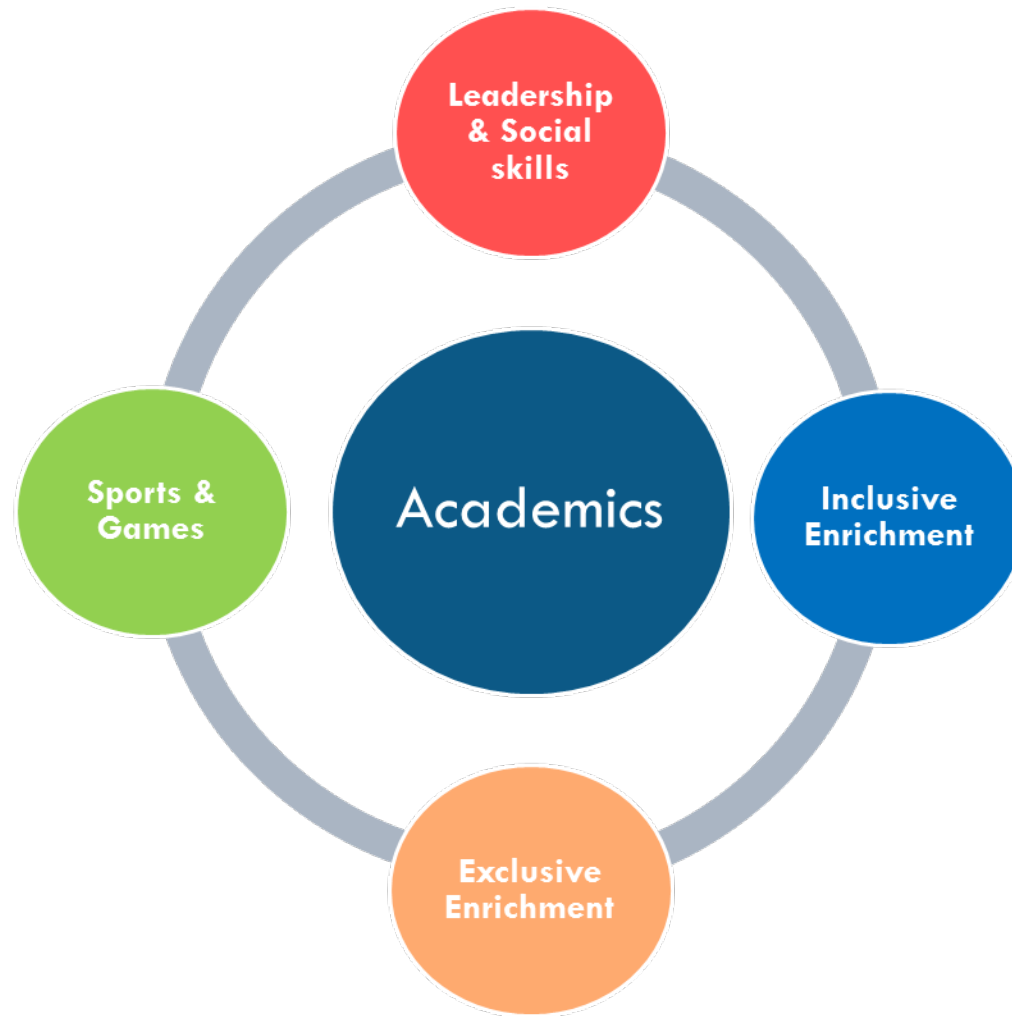

Research-based curriculum:

- Core Knowledge Sequence (CKLA) - Core Knowledge Foundation
- 21st Century Learning - Partnership for 21st Century Skills
- Multiple STEAM components
- SPARK - San Diego State University
- Common Core
- NGSS
- International Reading Association (IRA)
- University of Virginia, NIOST and Bridgewater State University partnerships.

A New Model of Learning and Fun

Springboard Model: Academics at the Core

STEAM and Literacy- Focused Curriculum

Cutting-edge curriculum components rule the Springboard day.

Science

Technology

Engineering

Art

Math

Literacy

Springboard students explore all five STEAM components as in-program or community-based enrichments or full- or half-day programming.

Our lessons include: Solar Science, Coding, Structural Engineering, Art Master Workshop and Math Games.

Read-Aloud, a research based K-3 curriculum, utilizes the Core Knowledge Foundation's Core Knowledge Arts (CKLA). Scripted lessons help teachers build content, vocabulary and comprehension.

Project and Outcomes-Based

Our focus on learning *and* behavior fuels creativity and exploration.

- Our project-based curriculum helps students investigate and respond to engaging problems and challenges.
- Certified teachers facilitate lessons that encourage creativity and personal exploration.
- Lessons include both learning and behavioral outcomes, addressing students' cognitive, physical and emotional needs. Developmentally appropriate lessons fit within one of our three grade bands: Early Childhood (Pre 3 - Pre 4), K-2, and 3-5.

Data Shows: Springboard Improves Student Performance

Data Shows: Springboard Improves Student Performance

Springboard impacts individual performance:

- Higher 4th grade English Language Arts scores on state tests.*
- Higher 3rd grade math scores on state tests.*

Springboard positively impacts students' school day attendance:

- Springboard students attend more days on average than their peers.
- Springboard students miss 33% fewer days than their peers.

*Data compiled by the University of Northern Colorado.

Information represents two years of student test and attendance data from Randolph, MA.

Better
Performance in
School**

**“Making the Most of After
School Time,” NAESP
(National Association of
Elementary School
Principals-2005):**

Students spending more after-school time on licensed teacher-led homework tend to perform better, even considering socio-economic status and demographics.

Children and Families First

Convenient Enrollment and Scheduling

Flexibility is a Springboard hallmark.

Parent Connect:

- Easy enrollment, registration from any Internet-enabled device.
- Direct, real-time communication with Springboard teachers.

NEW Programming opportunities for the Sayreville families

- Full day programming -Covering professional development days and non-school days
- School Vacation programming
- Summer programming
- Early release and half day coverage
- Preschool programming
- Middle School programming

Commitment to Increased Program Access

Springboard: Our mission is to serve all children.

Springboard programs serve more families:

- Licensed for health and safety and to support state voucher programs.
- Matching scholarships based on enrollment.
- Reduced rates for free- and reduced-lunch families.
- Grant funding opportunities and resources.
- Inclusiveness for differently-abled children.

Commitment to parent-friendly pricing:

- Increases program access so more children experience Springboard's benefits.

The Time is Now.

Today, extended-day partners must help schools increase academic achievement.

Springboard's advantages:

- Core model transforms with enrichment course to meet school/community needs.
- Certified teachers LEAD program and continually work with students.
- Research-based curriculum ensures we reinforce the **(Common Core)** and next generation Science Standards.
- A true extension of your school day where your students are having fun while learning.
