Agenda Review

No changes

Update: K-12 Curriculum & Assessment

Katey Hills discussed the NWEA testing conducted over the winter. In math we had 134 participate and 128 in reading. Remote students were unable to participate and the State is looking for a solution. Grade 11 will be taking SATs in April as well as the State Science Assessment in June.

Mood Meter Overview

Brian Beaverstock talked about the “daily check-in and mood meter” that was introduced at Crescent Lake School. Each day students receive an email from Principal Beaverstock with a link to the daily check-in form which practice mindfulness, promotes students to identify and name how they are feeling, presents simple and quick strategies for students to use to calm and focus, and provides a direct path in a safe manner to ask for assistance of help.
