

GOVERNOR WENTWORTH REGIONAL SCHOOL DISTRICT
Buildings & Maintenance Committee Meeting Notes
SAU Office 6:00pm

Date of Meeting: Monday, July 22, 2019

Present: Julianne Cardinal, Dr. Jim Manning, Tim Eldridge, Dana Streeter, Kathy Cuddy-Egbert, Kathy O'Blenes

1. The committee discussed the two solar energy proposals. The committee came up with a few questions to go back to each company for answers. These answers will align the proposals so that the committee can compare the projects and their costs savings side by side to make a decision to recommend to the full board at the August 12, 2019 Governor Wentworth Regional School Board Meeting. No presentation by the vendors will go to the full board.
2. The Business Administrator gave the committee an update on the turf field. The second company, Field Turf, came out on June 24, 2019 and completed their evaluation. The inspector came in high regard, he inspects NFL turf fields. He expressed the field is in good condition, nothing about the current condition of the field concerns him. There were a few high traffic areas that needed some crumb rubber and one small seam repair. He felt that the district could see another 5 years with this field. Dr. Manning reiterated that he wanted Best Practice procedures written up and followed to ensure the proper use and longevity of the turf field.
3. Summer projects are well underway, as the projects are completed they will be documented and pictures will be taken of before and after when appropriate. The Superintendent briefly spoke to the committee about the security system being fully functional and the praise received in regards to the condition and cleanliness of the buildings in the district. The district has a very dedicated Maintenance and Custodial Department.
4. The Committee will not be doing a walk-through of the buildings in the district this summer. The Business Administrator will get out to each building to report out at the next meeting in regards to the progress of summer projects. Pictures will be taken and the committee would like a slide show presented to the school board at their September meeting.
5. There was no other Building and Maintenance business.

Meeting adjourned at 7:20pm

Approved by School Board 08.12.19
