

GESA HVAC Project
March 2022 Progress Update

Twin Valley Elementary Center – No work was scheduled. Work will begin in May.

Twin Valley Middle School – Select work at nights included the following:

- Removal of ceiling tile in corridors, including supporting of lights and devices in the ceiling.
- Field measurement and layout for new duct work, piping, and equipment.
- Limited electrical conduit installation for 400 amp feed.
- Clean-up every day.

Twin Valley High School – Select work at night/weekends included the following:

- Removal of ceiling tile in corridors, including supporting of lights and devices in the ceiling.
- Field measurement and layout for new duct work, piping, and equipment.
- Coordination of wall/floor/ceiling penetrations.
- Began receiving materials.
- Clean-up every day

April 2022 progress will proceed as planned according to the goals for work prior to the end of the school year and minimal disruption to educational operations.
