## CAMP CLASSES

We offer a variety of camp classes that feature STEAM concepts and encourage career exploration. Campers participate in four classes during camp. The following classes are available this summer:

### BAKING GONE WILD

Campers make fudge, dirt cake, oatmeal cookies, s'more bars and other delicious desserts that can be prepared in the wild without a stove or an oven. Instructor: Ms. Dreisbach

### BEAUTY LAB

Campers explore the science and art concepts that drive cosmetology as they experiment with hair treatments, styling techniques, nail care and more. Instructor: Mr. Salim

### CAKE CREATORS

Campers explore how art and science combine in the world of pastry chefs as they learn to make beautifully decorated cakes and cupcakes from scratch. Instructor: Chef Donati

### CSI LEHIGH

Campers lift fingerprints, analyze clues and operate a police car simulator as they explore how forensic science helps solve crime. Instructor: Ms. Hoderewski

### ELECTROTECHS

Campers develop soldering and coding skills as they create electronic gadgets and gizmos with circuits that control flashing lights, sirens and switches. Instructor: Mr. Lesisko

### GAME CHANGERS

Campers play Yahtzee, Scattergories, chess, rummy and other classic games while bolstering their math, social and strategic thinking skills. Instructor: Ms. Knauss

### GROSS ANATOMY

Using everything from Elmer's glue to Rice Krispies, campers create, diagnose and treat gruesome faux injuries as they learn about anatomy and first-aid. Instructor: Ms. Kiechel

### NAILED IT!

Carpentry is a timeless skill and campers learn the basics as they use hand and power tools to build birdhouses before decorating them with paint. Instructor: Mr. Geist

### SAUCE IT UP

Campers learn to make pizza sauce and dough from scratch as they prepare calzone, stromboli, panzerotti and, of course, pizza. Instructor: Chef Cahoon

### SCIEN TERRIFIC

Campers build mini roller coasters, compete in an egg drop challenge and whip up homemade ice cream in a weeklong science adventure. Instructor: Mrs. Rozycki

### SCIENTIFIC MAGIC

In this Harry Potter-themed class, campers mix up magical potions, learn about the life of Hedwig the snowy owl and play games of Quidditch. Instructor: Ms. Chanitz

### ZOMBIE TRACKERS

Campers investigate the source of a zombie virus and fend off the undead as they learn about epidemiology and life-saving skills like CPR. Instructor: Mr. Brensinger
