### **Instruction**

The curriculum of all elementary and secondary schools shall include instruction on the effects upon the human body, as determined by science, of tobacco, alcohol, narcotics, dangerous drugs as defined in Health and Safety Code 11032, and other dangerous substances. Instruction shall be sequential in nature and suited to meet the needs of students at their respective grade level. (Education Code 51203, 51260)

In grades 1-6, instruction in drug education should be given in health courses required by Education Code 51210. In grades 7-8, instruction in drug education shall be conducted in health courses and in any other appropriate area of study required by Education Code 51220. (Education Code 51260)

Instruction shall be provided by appropriately trained instructors who have demonstrated competencies, as determined by the principal or designee, in the following areas: (Education Code 51260)

1. The ability to interact with students in a positive way
2. Knowledge of the properties and effects of tobacco, alcohol, narcotics, dangerous drugs, and shared drug apparatus
3. Effective teaching skills and competency in helping students to express opinions responsibly and to become aware of their values as they affect drug-use decisions

The district shall offer staff development activities for staff who implement the comprehensive drug and alcohol prevention and intervention program.

School staff, students and parents/guardians shall be informed about early warning signs which may indicate alcohol and other drug use and about appropriate agencies offering intervention programs, counseling, referral and other student assistance programs.

The Board strongly encourages any student who is using alcohol or drugs to discuss the matter with his/her parent/guardian or with any staff member. Students who disclose their use of alcohol or other drugs when seeking help from an intervention or recovery program shall not be disciplined for such use.

### **Intervention**

District staff shall intervene whenever students use alcohol or other illegal drugs while on school property or under school jurisdiction. Staff members who have a reasonable suspicion that a student may be under the influence of alcohol or drugs shall immediately notify the principal or designee.

**ALCOHOL AND OTHER DRUGS** (continued)

If the principal or designee, in his/her professional capacity or in the course of his/her employment, knows, observes or suspects that a student may be under the influence of alcohol or drugs, he/she may notify the parent/guardian. (Education Code 44049)

School staff shall not disclose confidential information provided during counseling by a student 12 years of age or older. A school counselor may report such information to the principal or parent/guardian only when he/she believes that disclosure is necessary to avert a clear and present danger to the health, safety or welfare of the student or other persons living in the school community. The school counselor shall not disclose such information to the parent/guardian if he/she believes that the disclosure would result in a clear and present danger to the student's health, safety or welfare.
