

SAFETY

The Board of Trustees recognizes the importance of providing a safe school environment that is conducive to learning and helps ensure student safety and the prevention of student injury. The Superintendent or designee shall implement appropriate practices to minimize the risk of harm to students, including, but not limited to, practices relative to school facilities and equipment, the outdoor environment, educational programs, and school-sponsored activities.

Staff shall be responsible for the proper supervision of students during school hours, during school-sponsored activities, and while students are using district transportation to and from school.

The Superintendent or designee shall ensure that students receive appropriate instruction on topics related to safety, as well as injury and disease prevention.

Crossing Guards/Safety Patrol

To assist students in safely crossing streets adjacent to or near school sites, the Board may employ crossing guards and/or establish a safety patrol at any district school. The Superintendent or designee shall periodically examine traffic patterns within school attendance areas in order to identify locations where crossing assistance may be needed.
