

COVID-19 Testing and Quarantine Requirements

Employees and Students Over 12 Years Old

Fully Vaccinated

Not Fully Vaccinated

COVID-19 Positive

- Isolate for 5 days
 - Take PCR or Antigen test on day 5
 - If negative result received and symptom-free for the last 48 hours, may return to school
- OR**
- Isolate for 7 days
 - If symptom-free for last 48 hours, may return to school with no test required

- Isolate for 7 days
 - Take PCR or Antigen test on day 7
 - If negative result received and symptom free for the last 48 hours, may return to school
- OR**
- Isolate for 10 days
 - If symptom free for last 48 hours, may return to school with no test required

Critical Contact

- Must do an 'autotest' (home test) 2 days after their last contact
- No isolation is necessary
- It is recommended to wear a mask indoors in the 7 days following contact with the positive case

Students who tested positive to COVID 19 in the previous two months are not considered to be critical contacts and therefore not subject to testing

Students Under 12 Years Old, No Matter the Vaccination Status

COVID-19 Positive

- Isolate for 5 days
 - Take PCR or Antigen test on day 5
 - If negative result received and symptom free for the last 48 hours, may return to school
- OR**
- Isolate for 7 days
 - If symptom free for last 48 hours, may return to school with no test required

Critical Contact

- Must do an 'autotest' (home test) 2 days after their last contact
- No isolation is necessary
- It is recommended to wear a mask indoors in the 7 days following contact with the positive case

Students who tested positive to COVID 19 in the previous two months are not considered to be critical contacts and therefore not subject to testing
