

NOTIFICATION OF AVAILABILITY OF ASBESTOS MANAGEMENT PLAN

The 1987 Asbestos Hazard Emergency Response Act (AHERA) not only requires inspections of all public and private schools (K-12 grades) to identify asbestos-containing building materials, but also requires that an Asbestos Management Plan be developed to safely manage the identified asbestos in each facility. To further ensure that the identified asbestos-containing materials are maintained in a safe condition, AHERA also requires that the asbestos that the asbestos material be checked every 6 months and that these materials be re-inspected by an IDEM accredited inspector every 3 years to reassess the condition of the asbestos, for as long as the materials remain in the building. In the year 2010, the seventh triennial re-inspection was conducted for the Tell City-Troy Township School Corporation.

The Asbestos Management Plan is available for your review. Anyone wishing to view a copy of the Management Plan for an individual school will find it available in the Principal's office of each school. The Management Plan may be copied, at a nominal fee during regular school hours. Please notify the school in advance to prevent scheduling difficulties.

If you have any questions concerning the AHERA Program, please contact your building Principal or Mr. Bruce Chinn at 812-547-3300.
