April 2022~Science

Communication about Student Learning

Butner-Stem Elementary School is committed to frequent two-way communication with families about children's learning. Some of the ways you can expect us to reach you are:

- Weekly homework folders
- Weekly/Monthly "check-in" notes/phone calls, ClassDojo communications
- Updates on the school Website, social media, and current grades in PowerSchool
- Class/Parent meetings on understanding and progress
- Parent-teacher conferences: October 26, 2021, January 20, 2022, and March 22, 2022

Do you have questions about your child's progress? Contact your child's teacher by phone, Class Dojo, or e-mail. Teachers will respond within 24-hours.

What is a School-Parent Compact?

A School-Parent Compact for Achievement is an agreement that parents, students, and teachers develop together. It explains how parents and teachers will work together to make sure all our students reach or exceed grade-level standards.

Effective compacts:

- Link to goals of the school improvement plan
- Focus on student learning skills
- Describe how teachers will help students develop those skills using high-quality instruction
- Share strategies parents can use at home
- Explain how teachers and parents will communicate about student progress
- Describe opportunities for parents to volunteer, observe, and participate in the classroom

Jointly Developed

The parents, students and staff of Butner-Stem Elementary School developed this School-Parent Compact for Achievement. Teachers suggested home learning strategies, parents added ideas to make them more specific, and students told us what would help them learn. Meetings are held each year to review the Compact and make changes based on student needs.

Parents can contribute comments any time.

Building Partnerships

If you would like to volunteer, participate and/or observe in the classroom, even while we are in the remote setting, please contact us directly.

Our Goals for Student Achievement

District Goals

By June 2020, all students will be at grade level or higher in both math and reading.

We will get there by:

1. Increasing each student's fluency and understanding in reading across all grade levels by 15% over 3 years.
2. Increasing each student's competency in math computation, word problems and number operations by 15% over 3 years.

School Goals

By June 2022, our students will make a 10% gain in math, reading, and science. By June 2022 at least 80% of parents feel equipped to support their child with academic success as measured by parent surveys.

Our data shows the need to focus on the following *Common Core Standards*:

- In reading – the standard of comprehension and understanding the author's purpose.
- In math – the standard of strengthening our basic skills and math computation.

When teachers, students and families work together, we CAN achieve our goals!

Teachers, Parents, Students – Together for Success

In ALL Bulldog Classrooms

All BSES staff commits to working with students and their families to support students' success in the Common Core Standards for reading and math. Some of our key connections with families will be:

- Develop a weekly goals folder with students and send home materials to help parents support the learning goals.
- Use the "word wall" and storytelling to incorporate new words. Send new words to families each week with information on how to build a home word wall and develop their own stories.
- Design fun family parent nights and share classroom strategies with families on how to help students connect personal experiences to Reading, Math, and Science.
- Develop Reading, Math, and Science goals with students that focus on increasing student growth and mastery and share with parents.

Teacher Signature

At Home

Butner-Stem Elementary School parents joined staff to develop ideas about how families can support students' success in reading and math. Some of our key at-home activities will be:

- Use the weekly folder and/or monthly calendar to discuss my child's learning goals and use the teacher's materials to support my child's learning at home.
- Post new words on our "word wall" and remember to use them in conversations and stories. Add our own new words.
- Read with my child every day for at least 20-30 minutes and talk about how the story connects with things that he or she has experienced. Attend family fun parent night events to practice new ways to support my child as a reader, mathematician, and scientist.
- Use the math goals and related games or strategies the teacher sends home to improve my child's estimation and measurement skills

Parent Signature

Butner-Stem Elementary School Students

Butner-Stem Elementary School students joined staff and parents to develop ideas about how they can succeed in school and reach for the stars in math and reading. Students thought of the following ideas to make connections between learning at home and school:

- Set goals for myself to learn new words and read every day.
- Make up stories to tell my family using new words.
- Create science experiments/projects based on what has been learned in Science.
- Help make the grocery list and estimate how much the food will cost.
