The Town of West Hartford has been underway with the North Main Street Road Diet Trial since August 2021. This phase of the project involves an extensive evaluation of the road diet on North Main Street between Albany Avenue (Route 44) and Farmington Avenue. The purpose of the trial is to evaluate the road diet concept and determine if it is a success or failure.

The public informational meeting is being held to invite public participation and to allow open discussion of any views and comments the community may have concerning the ongoing Road Diet Trial. The presentation will include the results of the Road Diet Trial Evaluation.

A recording of the formal presentation will be both live-streamed and posted to YouTube following the event. A sign language interpreter will be present at the meeting.
