Recommended as the lowest and/or best evaluated bid -  

Notes: James River is non-compliant on a portion of the bid due to a missing bid document: Addendum #1. Addendum #1 was necessary for tabulating the unleaded gasoline and evaluating the tank monitoring system. JRS is the only bidder for option #1B. However, several locations were investigated and no acceptable locations were located.

\*The current vendor installed tank monitors at no cost to the district and there are no monthly charges associated with the monitors.
